DC CAS Overview

DC CAS measures students' performance based on the DC content standards.

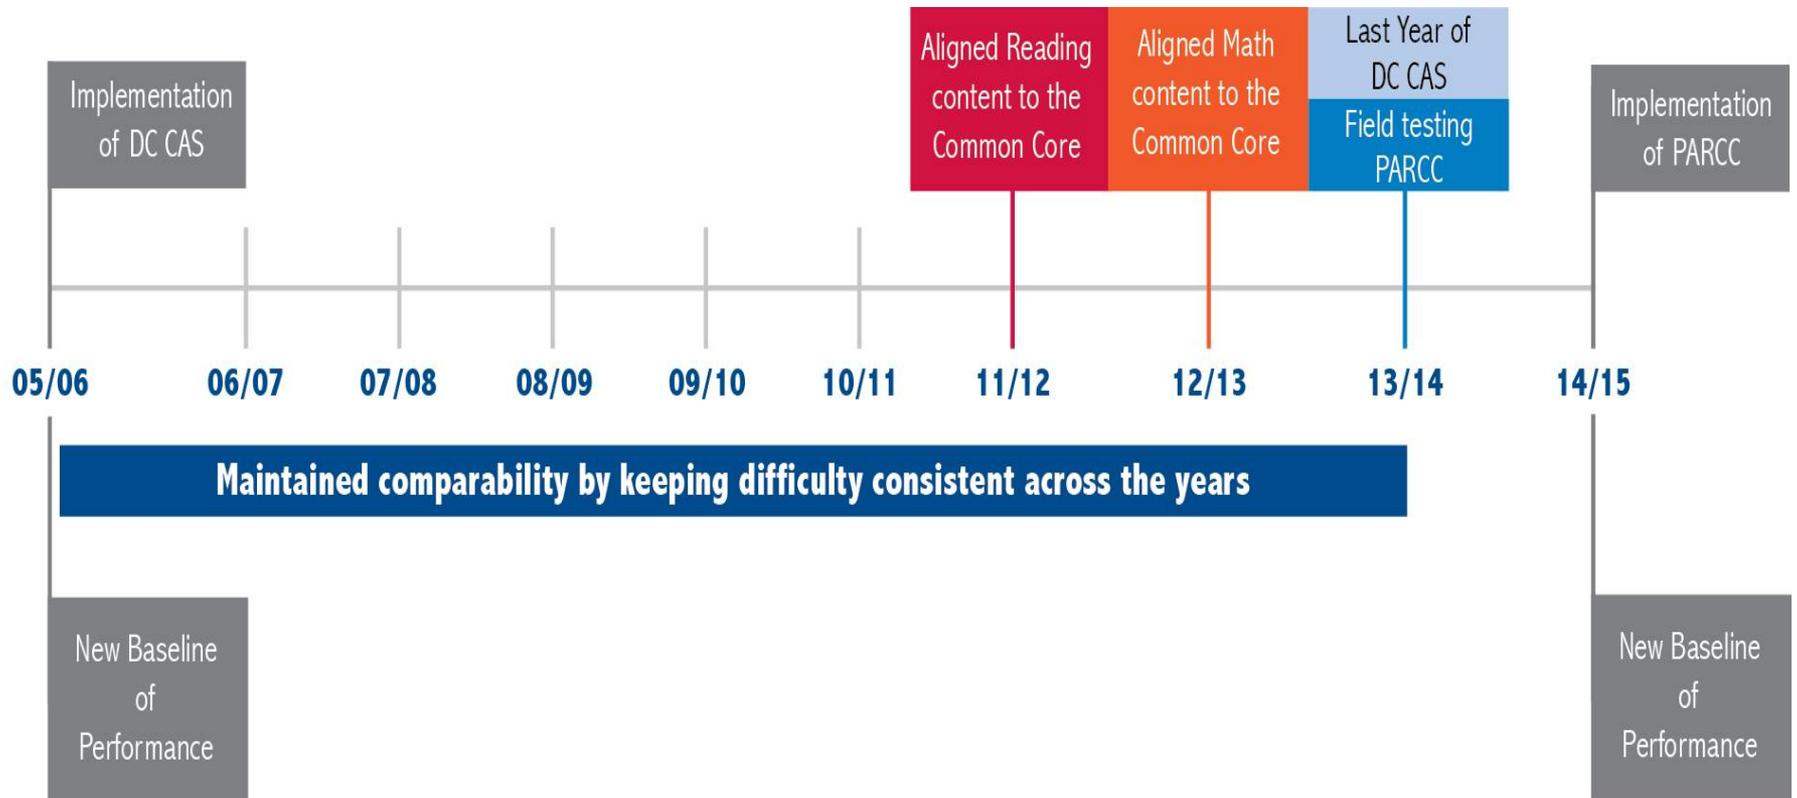

DC adopted new college and career readiness standards (Common Core State Standards) in 2010.

- DC has worked to partially align its state assessments to the Common Core State Standards (CCSS). Partial alignment in Reading and Composition completed in 2012; partial Math alignment completed in 2013.
- In the 2014-15 school year, DC will implement a new assessment, PARCC, that is designed from the ground up to be aligned to the CCSS for Math, Reading and Composition. PARCC will establish a new bar for proficiency, setting a new baseline for proficiency rates.

Students are scored at four levels of mastery in DC CAS
