

Office of the State Superintendent of Education

Early Learning Course Catalog
Summer FY 2014

INTRODUCTION TO THE SUMMER 2014 COURSE CATALOG

Thank you for your interest in professional development courses offered by the Office of the State Superintendent of Education, its partners and contractors, as well as the community of OSSE-Certified trainers. The District of Columbia Early Learning Standards' alignment with Common Core ensures that professional development opportunities promote the development of a highly competent and comprehensive early childhood work force. We look forward to providing responsive training opportunities that support your work, by offering high-quality learning experiences for children of all ages.

OSSE sponsored offerings for fiscal year (FY) 2014 are research based and data driven. They are selected based on a variety of sources including, but not limited to a community of diverse and multicultural learners and workgroups, analysis of program assessment data, student achievement data from federal, state and District reports, Education Service Monitoring and Licensing report results, and DC Municipal Regulations 29, Chapter 3.

The summer FY 2014 professional development course catalog continues to evolve as a resource the early childhood education (ECE) community of learners and the Out -of-School-Time (OST) professionals has to access continuing education and participate in a District-wide community of learning.

CATALOG FORMAT:

Quarterly Listings	The Professional Development Catalog will span a full quarter (typically three months) allowing participants to plan trainings ahead of time and allow providers to develop a strategy for incorporating OSSE sponsored trainings into their greater staff development plans.
Table of Contents	The Table of Contents will help readers navigate the content of the course catalog.
Announcement Pages	The Announcement Pages will enable readers to stay abreast of OSSE initiatives and local offerings. Please note our sessions for professionals who prefer to learn in Spanish as we begin engaging a multilingual work force.
Month-At-a -Glance	The Month-at-a-Glance gives readers a picture of which days of the month trainings will be held. This will help participants identify trainings based on their work schedules.
OSSE sponsored trainings	OSSE sponsored trainings, provided through a network of local and national partners and contractors are offered at no cost to participants and denoted by the ▲ symbol throughout the catalog.
Professional Learning Units	The term Professional Learning Unit is used in conjunction with “clock hours” to provide greater alignment with the continuing education requirements of DC Public School and charter school educators.
Core Knowledge Areas (CKA):	Core Knowledge Areas detail the specific knowledge and skills needed by early childhood professionals to work effectively with all young children and families. ECE and OST educators can increase their ability to provide quality learning experiences for young children by taking courses in all eleven areas. CKAs include: Child Growth and Development; Observing, Documenting and Assessing to Support Young Children and Families; Health, Safety, and Nutrition; Curriculum; Inclusive Practices; Learning Environments; Building Family and Community Relationships; Diversity: Family, Language, Culture, and Society; Program Management: Operation and Evaluation; Professionalism and Advocacy; and, Social -Emotional Development and Mental Health.
Course Listings	Course listings are communicated through an easy to understand visual display. OSSE sponsored listings also include a hyperlink to the registration page for easy enrollment in courses. See below.

▲ EL CURRÍCULO CREATIVO PARA EDUCACIÓN PRESCOLAR

6 unidades profesionales de aprendizaje/ horas del reloj

CKA: Plan de estudios

¿Está comenzando a implementar El Currículo Creativo para educación preescolar? ¿Cómo puede organizar el entorno? ¿Cómo encajan los volúmenes? ¿Qué mensajes reciben los niños cuando trabajan y juegan en su salón? ¿Cómo desarrollará relaciones con los niños y

las familias de su clase? Cuando comienza el año escolar, los maestros necesitan desarrollar relaciones positivas con cada niño y su familia. Estas relaciones positivas dan a los niños los componentes fundamentales necesarios para trabajar y jugar con sus compañeros; desarrollar amistades y crear una comunidad del salón de clase. Los maestros personalizan sus salones de clase con sus propios estilos, experiencias y puntos de vista. Éste es un aspecto importante de la implementación del Currículo Creativo para educación preescolar.

INTRODUCCIÓN A TEACHING STRATEGIES GOLD

6 unidades profesionales de aprendizaje/ horas del reloj

CKA: Plan de estudios

En esta sesión de dos días, los maestros conocerán los diferentes elementos y la estructura de Teaching Strategies GOLD®. Por medio de videos y reuniones en grupo, los maestros podrán explorar las progresiones o secuencias de desarrollo y aprendizaje para niños desde el nacimiento hasta kindergarten. Los participantes practicarán mediante

el uso de las herramientas del sistema mientras siguen el ciclo de evaluación de cuatro pasos. Esto incluirá la evaluación del portafolio de un niño y la construcción de un formulario de reunión con las familias. Además tendrán la oportunidad de explorar y practicar usando Teaching Strategies GOLD® en línea. Al final de la sesión, los maestros tendrán las destrezas básicas para empezar a implementar Teaching Strategies GOLD® en línea.

Fecha: martes, 10 de junio al miércoles, 11 de junio del 2014

▲ THINK LIKE A SCIENTIST: SCIENCE IN PRE-K AND INQUIRY LEARNING

3 professional learning units/clock hours

CKA: Curriculum

Children are naturally curious about the world around them; they learn from their observations every day. Educators and childcare providers have a wonderful opportunity to cultivate the scientist in all of our young children. These workshops are designed to give early childhood educators and childcare providers the confidence and enthusiasm to effectively teach science to young children. Participants will learn to incorporate scientific inquiry techniques into their preschool classroom or childcare facility. They will develop tools and knowledge necessary to teach scientific inquiry topics and facilitate a rich learning environment for exploration.
