## 2016 DC EDUCATOR TALENT POOL

For the past several years, OSSE has maintained a list of the District of Columbia's most distinguished teachers and principals to recognize and leverage the expertise of outstanding DC Educators, known as the DC Educator Talent Pool, where the voices of K-12 practitioners is essential. In recognition for their exemplary service as educators, and participation in the Educator Talent Pool, members are automatically considered for certain statewide and national educator recognition awards.

At this time we are in search of new talent pool members who are relatively new to the profession, and who demonstrate exemplary instructional and leadership ability.
