Leading Meetings Analyzing Assessments Results

1. Write the summative and formative assessments used at the BOY to collect data about English language proficiency and student's learning.
2. What will you learn about the students after analyzing the data?
3. What are the key actions we need to take to improve the quality of our ESL or DL program?
4. What are the keys to an effective analysis and action plan?

Create an Individualized Plan of EL Services

1. Capture scores and identify trends from the data analyzed for each EL.

2. Complete a deep analysis:
    a. What are students able to do?
 	
    b. What will students need to be able to do in listening, reading, speaking, and writing?
 	
    c. What is the gap in instruction to meet the goals in b. above?

3. Reflecting on the data analysis, describe the instructional approach.
    a. What type of instructional practices better fits the needs of the student?
 	
    b. What strategies are clearly understood for classroom implementation by the teacher?
 	
    c. What resources are available to support student's language development?

4. Planning and Delivering Instruction That Leads Students to Mastery of Their Goals.
    a. What are the key components that need to be included in all units of learning and lesson plans?
 	
    b. What will you want to see when observing a teacher delivering instruction for English learners effectively?
