

# Secondary Transition Curricula

Presented by Jessica Mattis

OSSE Division of Specialized Education  
Secondary Transition Webinar Series

# Module Overview

## Objectives:

- Identify transition skills students need before they graduate
- Identify transition curriculum that can be infused or integrated into existing curriculum
- Identify resources that can assist with delivering transition-related curriculum

## Guiding Questions:

1. What are the transition-related skills students need before they graduate?
2. What transition resources are available to help educators provide transition curriculum?

# Transition

IDEA 2004 defines transition as a:

- “Results-oriented process” that leads to postsecondary education or training, employment, and independent living
- Based upon a student’s strengths, interests, and preferences
- **Includes transition services**

# Guiding Question 1

**What are the transition-related skills students need to be taught before they graduate?**

# Transition-Related Skills

Transition-related skills are skills that specifically target success in adult life that are not necessarily taught as part of the general education curriculum.

# Transition Curriculum Skill Domains

**Self-Determination**  
(choice, decision-making, goal setting, IEP participation)

**Social Skills**  
(expressing feelings, negotiating, asking for help)

**Employment Preparation**  
(exploration, job development skills)

**Independent Living**  
(family life, community access, health)

**Postsecondary Education Preparation**  
(study skills)

# How Well Is Each Area Addressed in Your Program?

## Self-Determination

- Choice/decision making
- Goal setting/attainment
- Problem solving
- Self-evaluation, observation, and reinforcement
- Self-advocacy
- Student-directed individualized education programs
- Relationships with others
- Self-awareness

# Social Skills

## Generic

- Expressing your feelings
- Understanding the feelings of others
- Learning and using peoples' names
- Building on others' comments and ideas
- Making a complaint
- Negotiation
- Asking for direction or assistance

## Employment-Related

- Answering questions in a job interview
- Following directions from a supervisor
- Accepting feedback from a work supervisor
- Making friends with coworkers

# Employment Preparation

- Exploring types of occupations
- Identifying interests, skills and preparation compatible with specific occupations
- Matching individual interests and skills to occupations
- Planning for education and employment beyond high school
- Engaging in job seeking activities
- Developing job keeping skills
- Developing job specific skills

# Independent living

## Home and Family

- Home Management
- Family Life
- Child Rearing

## Leisure Pursuits

- Indoor
- Outdoor
- Community/  
Neighborhood Activities
- Travel
- Entertainment

## Community Involvement

- Citizenship
- Community Awareness
- Services/Resources

## Physical/Emotional Health

- Physical Education
- Emotional Health

# Postsecondary Education –Personal Development

## Time Management, Scheduling, and Organization

- Monitoring one's time
- Estimating time needed to complete tasks
- Using to do lists
- Using calendars
- Developing a system for keeping school-related items organized

## Self-Monitoring and Reinforcement

- Goal setting
- Making a plan and following it
- Evaluating how well a plan worked
- Reward self

# Postsecondary Education – Learning Skills

## **Listening and Taking Notes**

- Asking questions
- Attention monitoring
- Organizing notes from lectures
- Using abbreviations when taking notes

## **Study Skills**

- Vocabulary learning strategies
- Memory tricks

## **Learning from Text**

- Pre-reading strategies
- During reading strategies
- After reading strategies

## **Interpreting and Using Graphic Organizers**

- Using graphic organizers to reduce and organize information
- Using graphic organizers for prewriting

Which of the transition curriculum domains are you **best** addressing in your program?  
What are you doing to address these domains?

Self-determination

Social Skills

Employment Prep

Independent Living

Post-secondary Ed Prep

Which of the transition curriculum domains are you least addressing in your program? What are some ideas that you have to do more?

Self-determination

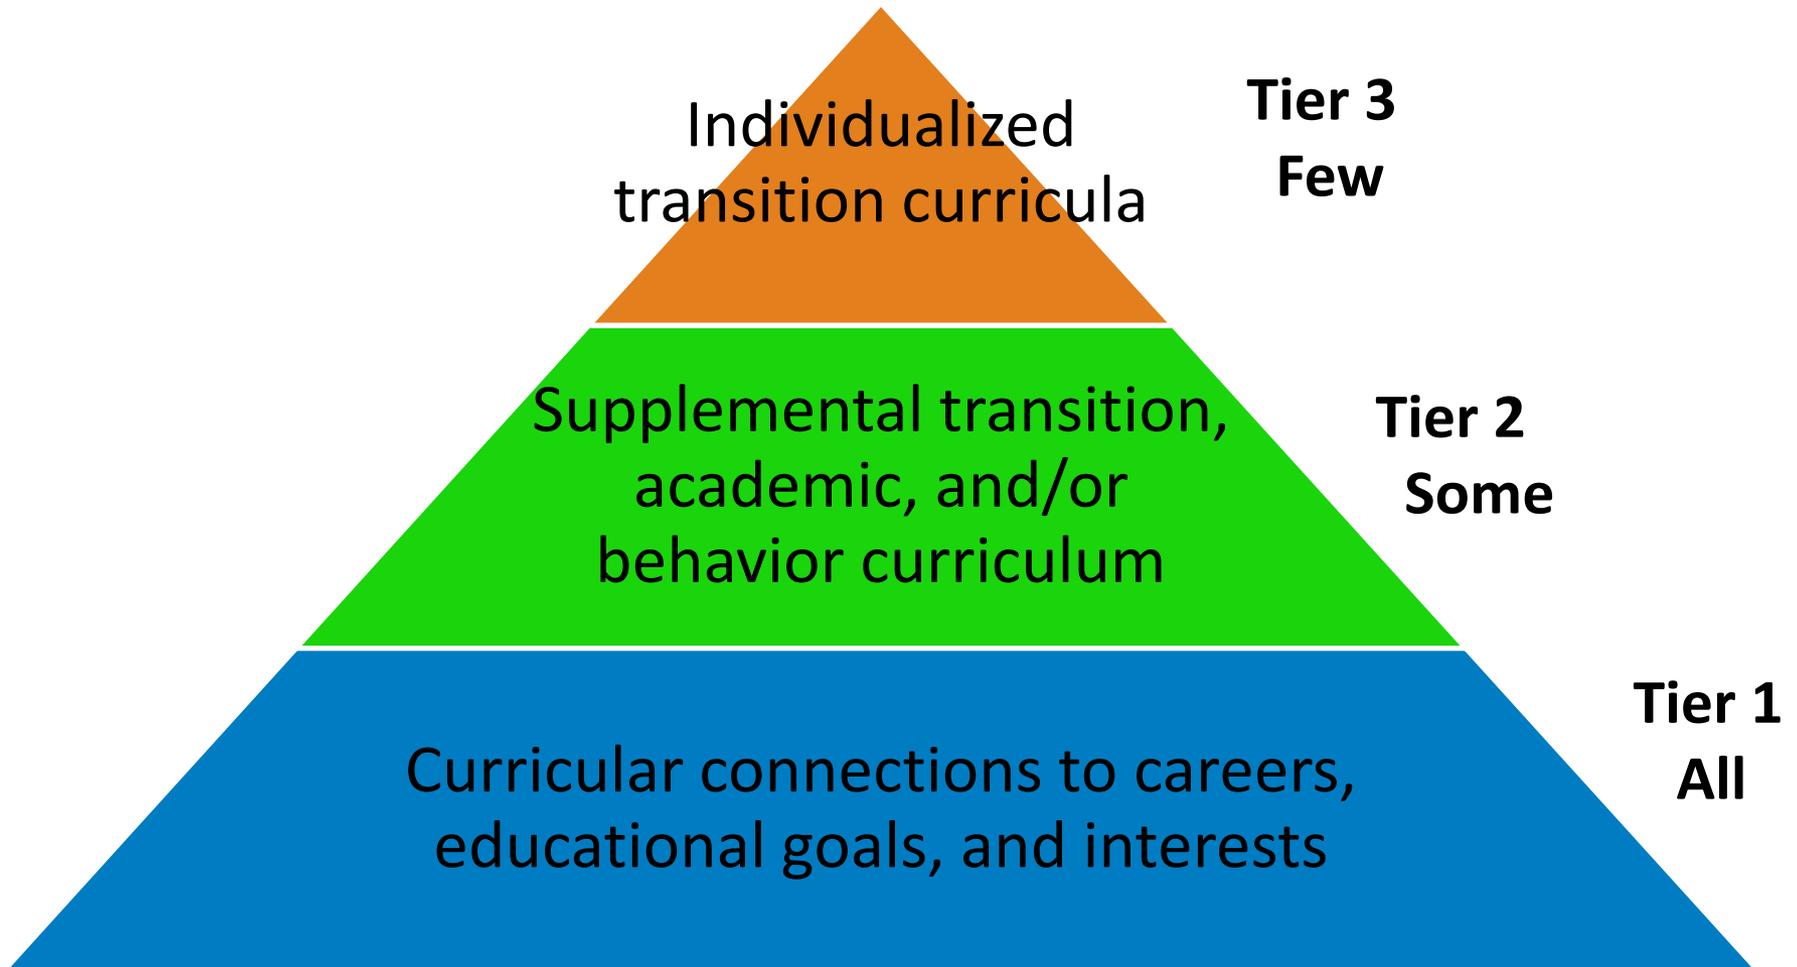

Social Skills

Employment Prep

Independent Living

Post-secondary Ed Prep

# Multi-Tiered Model of Transition Curriculum

(Morningstar, Gaumer Erickson, & Noonan, 2009)

# Multi-Tiered Transition Curriculum

**Tier 1:** Curriculum that is connected to career and postsecondary educational interests for all students

- Service learning projects
- Elective courses
- Cooperative learning activities
- Writing business letters in English
- Budgeting practice in math
- Discussion on civic responsibility in social studies

(Adapted from Morningstar, Gaumer Erickson, & Noonan, 2009)

# Tier 1 and Common Core

- Common core – preparing youth for postsecondary education and career readiness
- English language arts standards
  - Increasing use of informational texts
  - Use explicit and implicit information from the text

# Integrating Transition Skills into the Curriculum

## **Lesson:**

Introduction to a unit on the integration of Little Rock High School

## **Opening Activity:** Cooperative 3-Step Interview

1. Students pair up.
2. Student interviews his/her partner on a time that they “integrated” into a group to which s/he did not originally belong.
3. Students switch roles with their partner.
4. Pairs join another pair and take turns sharing what they learned in the interview.

# Integrating Transition Skills into the Existing Curriculum for All

How can you infuse transition skills into the existing general education curriculum?

Consider:

- Which transition skills you need to address
- What common core standards ask students to do
- How you can develop activities, mini-lessons and lessons that teach real life transition skills

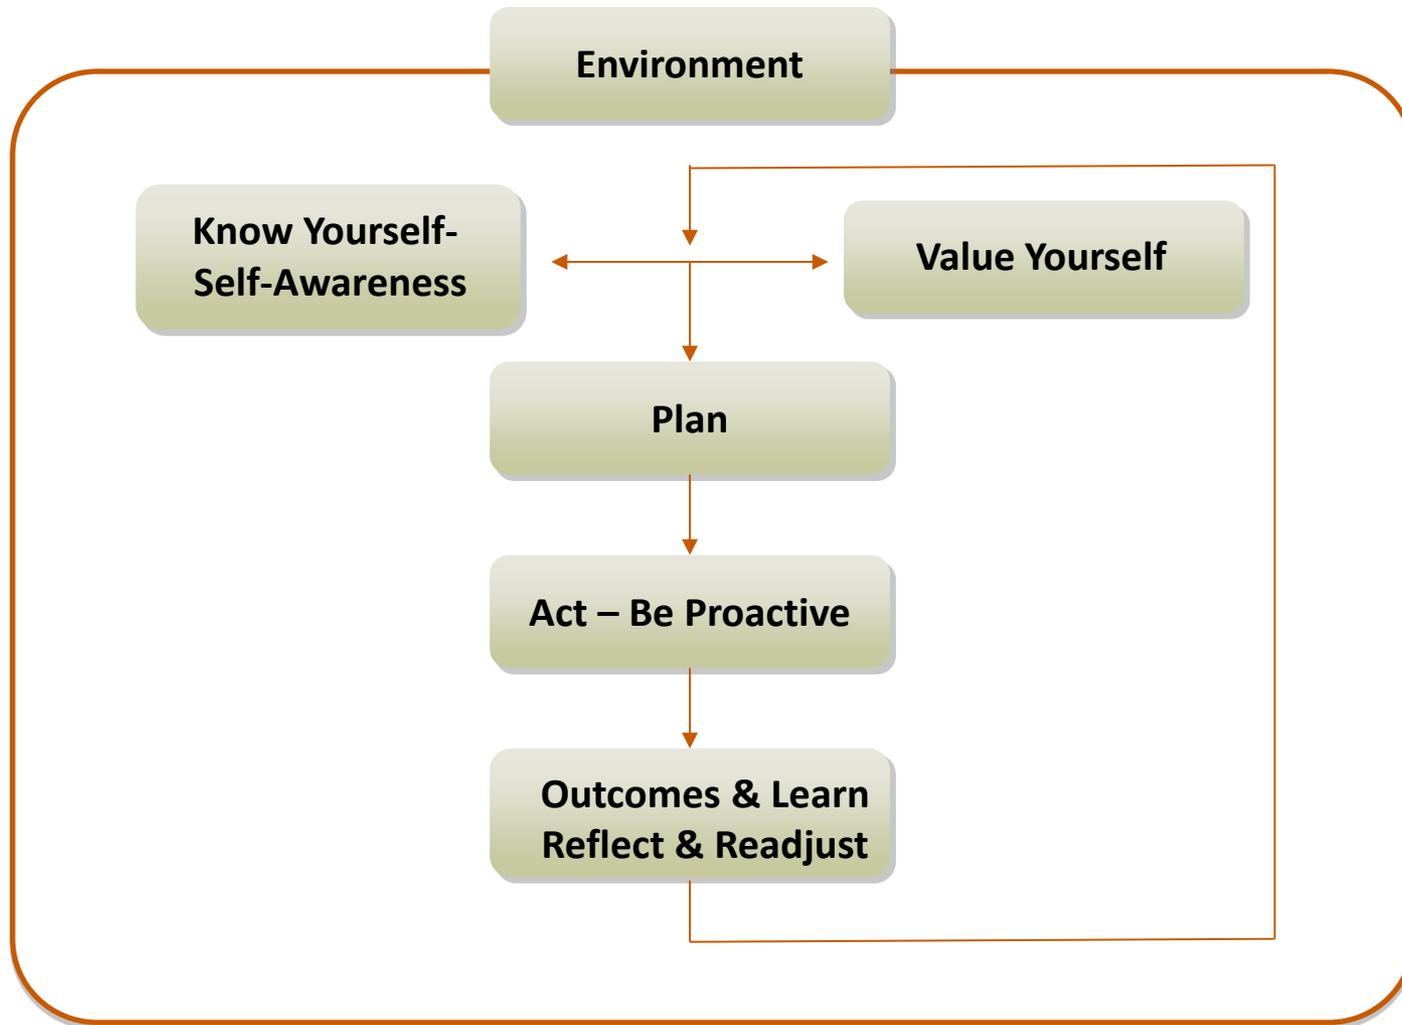

# Multi-Tiered Transition Curriculum

**Tier 2:** Supplemental transition, academic, and/or behavior curriculum for some

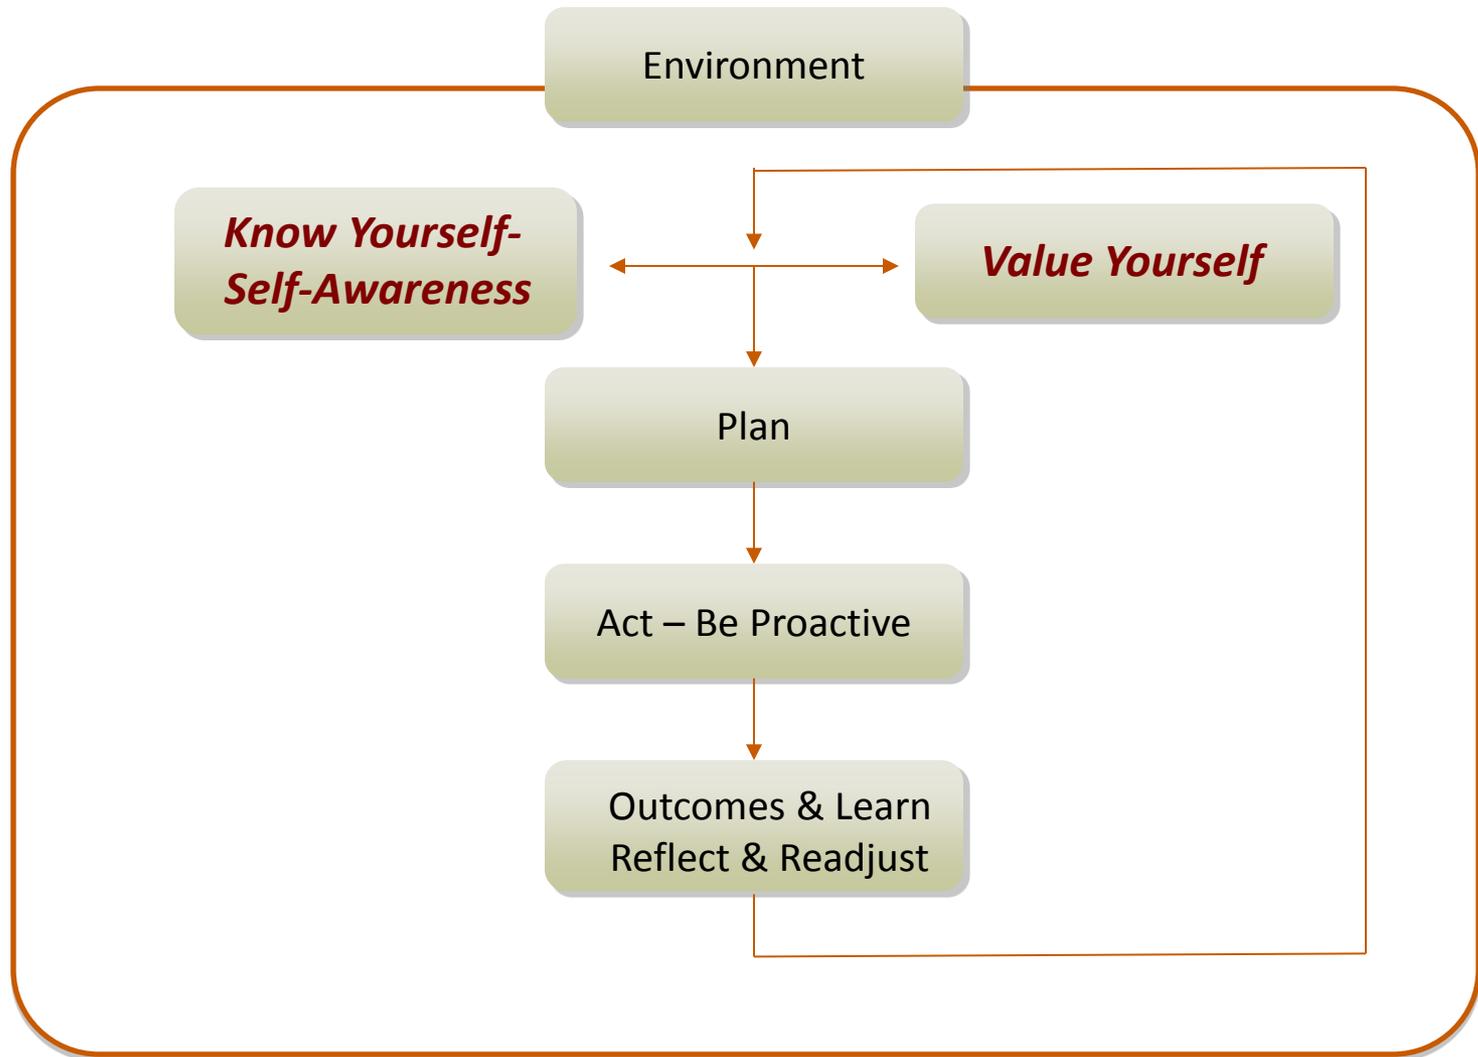

- Remedial/foundation courses
- Read 180
- Elective courses in transition-related skills (pre-employment skills, study skills, self-determination skills)

# Self-Determination Model

# Self-Determination Model

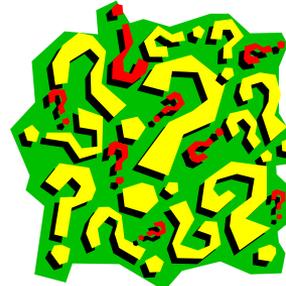

# Know and Value Self – Disability Awareness Activities

Post-It  
Community  
Building

**Disability**

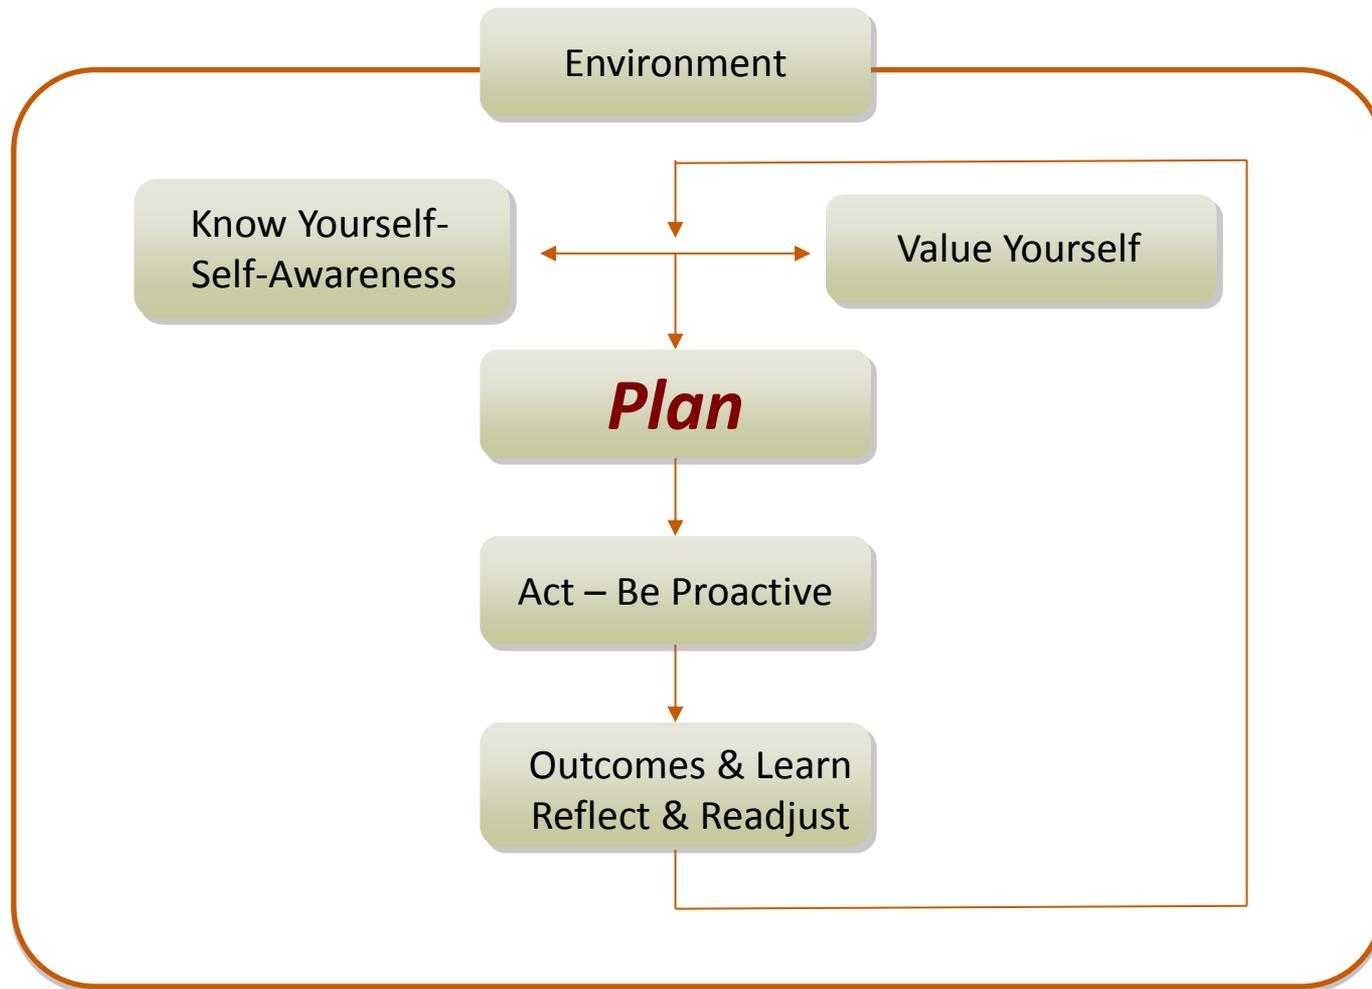

**or Difference**

ALL  
ABOUT  
ME!!!

**Talent Search**

# Self-Determination Model

# What Do We Know About Goal Setting and Learning?

- Goals are important in motivating and directing behavior
- Learners benefit when instructors help them identify long and short term goals
- Short term goals are more easily tied to success
- Monitoring and achieving progress is directly tied to persistence in education

# Goal Setting

| 2  | Tell time  |                            |  |                              |                                |                                |
| 3  | Figure a restaurant bill & tip                   |                            |  |                              |                                |                                |
| 4  | Figure sales tax                                 |                            |  |                              |                                |                                |
| 5  | Open a bank account                              |                            |  |                              |                                |                                |
| 6  | Write checks                                     |                            |  |                              |                                |                                |
| 7  | Balance check book                               |                            |  |                              |                                |                                |
| 8  | Set up a budget                                  |                            |  |                              |                                |                                |
| 9  | Understand and use credit cards                  |                            |  |                              |                                |                                |
| 10 | Understand and pay bills: phone, electric, water |                            |  |                              |                                |                                |
| 11 | Understand pay check/time card                   |                            |  |                              |                                |                                |
| 12 | File income tax                                  |                            |  |                              |                                |                                |
| 13 | Figure gas mileage for car                       |                            |  |                              |                                |                                |
| 14 | Cooking & recipe measurement                     |                            |  |                              |                                |                                |
| 15 | Measurement for sewing                           |                            |  |                              |                                |                                |
| 16 | Measurement for household needs: carpet, lumber  |                            |  |                              |                                |                                |
| 17 | Measurement and medicine                         |                            |  |                              |                                |                                |
| 18 | Understand sales & discounts                     |                            |  |                              |                                |                                |
| 19 | Read maps; figure time and distance              |                            |  |                              |                                |                                |
| 20 | Use a calculator                                 |                            |  |                              |                                |                                |
| 21 | Chart children's growth: weight and height       |                            |  |                              |                                |                                |
| 22 | Multiplication tables                            |                            |  |                              |                                |                                |
| 23 | Other:   |                            |  |                              |                                |                                |
|    |  |                            |  |                              |                                |                                |
|    |  |                            |  |                              |                                |                                |
|    |  |                            |  |                              |                                |                                |

# What's Next After Goal Setting?

# Self-Monitoring

Observing and recording one's own behavior.

# Self-Monitoring

- Identify target behaviors
  - How often they occur
  - How well you did
  - Continued reflection and goal setting
- Can be accomplished with simple guides or checklists
- Support with a classroom routine for self-monitoring

# Example – Rate or Count

Rate yourself 4 = very good, 3 = good, 2 = so, so, 1 = need to work on this,  
0= missing

or

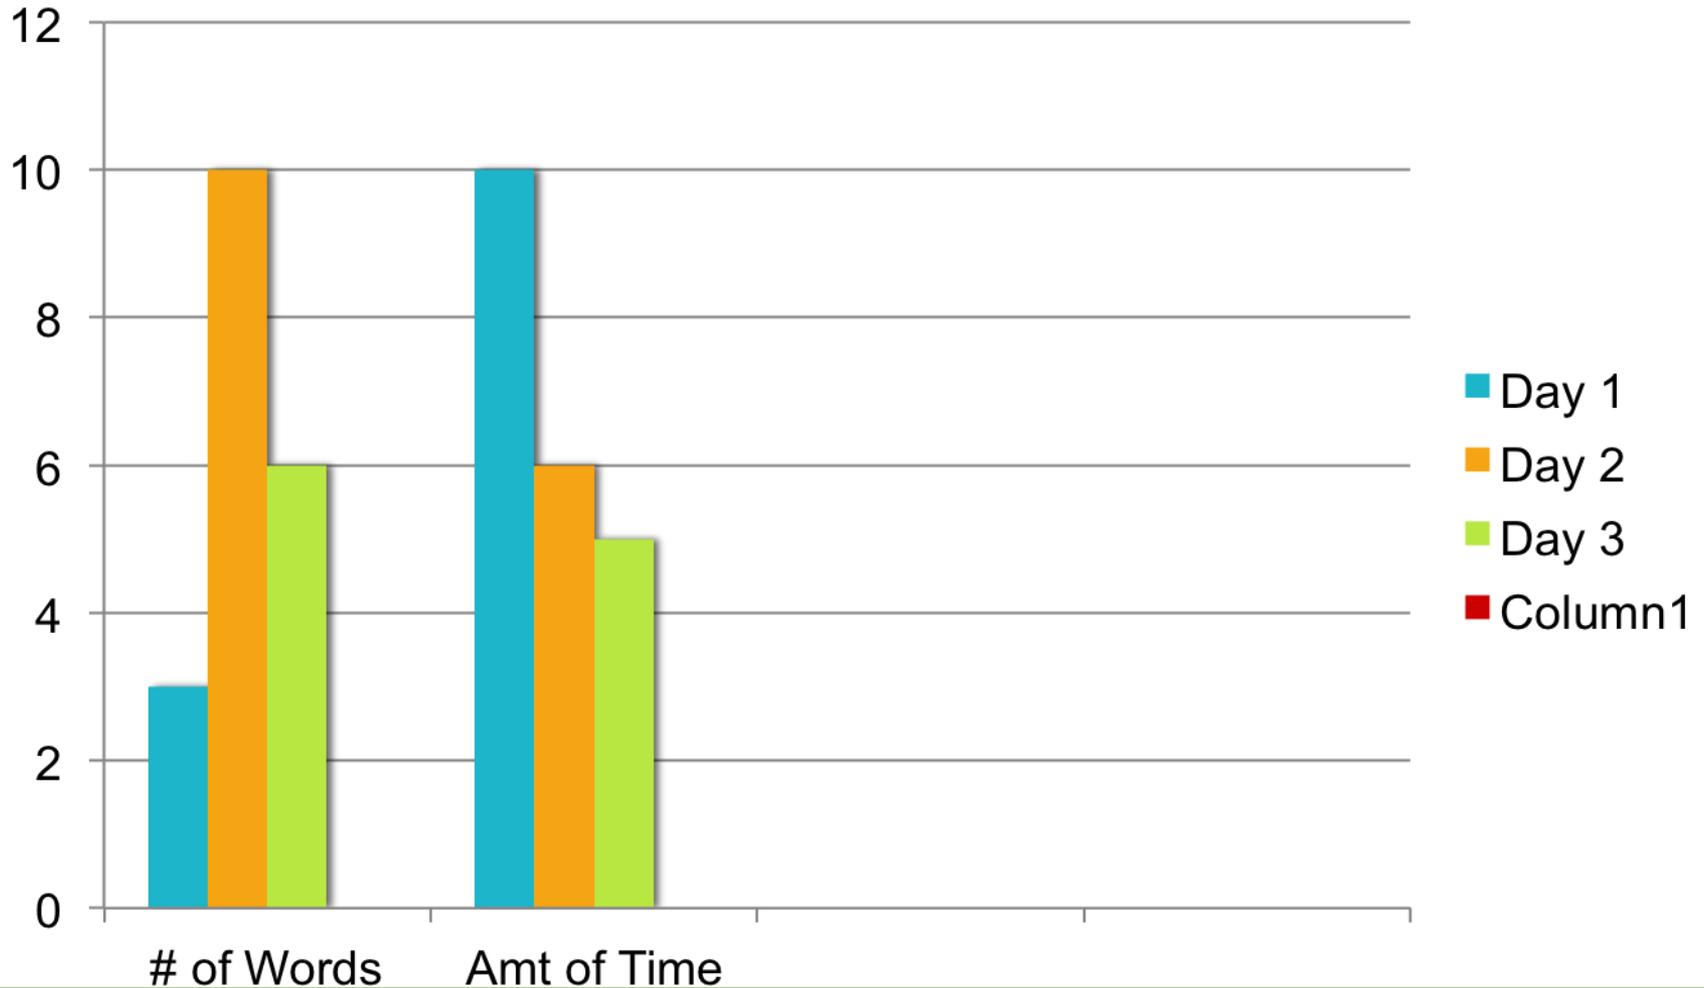

Count how many times you contributed

|      | Date | Topic | Spoke | Asked? | Answer ? | Total |
|------|------|-------|-------|--------|----------|-------|
| 1    |      |       |       |        |          |       |
| 2    |      |       |       |        |          |       |

# Wrap Up

## **Guiding Questions:**

1. What are the transition-related skills students need before they graduate?
2. What transition resources are available to help educators provide transition curriculum?
