OVERVIEW

Purpose

Under D.C. Official Code §38-1804.02, OSSE is required to annually collect enrollment counts for students whose tuition or education in schools or programs is paid for with District funds, as of Oct. 5 of each school year. OSSE is then required to verify the accuracy of the local education agencies' (LEA) and community-based organizations' (CBO) enrollment counts, as well as to determine the amount of fees and tuition assessed and collected from non-resident students.

Applicable Legislation

- [Per Capita District of Columbia Public School and Public Charter School Funding Amendment Act of 2017](#)
- [District of Columbia School Reform Act of 1995](#)
- [District of Columbia Enrollment Census Act of 1998](#)
- [District of Columbia Uniform Per Student Funding Formula Act of 1998](#)
- [Pre-K Enhancement and Expansion Amendment Act of 2008](#)
- [Placement of Students with Disabilities in Non-public Schools Amendment Act of 2006](#)

Scope

The enrollment audit includes three components:

1. **Verification of Public Enrollment:** An audit of the District's enrollment of all students and their respective residency status, as well as tuition payments assessed and collected for non-residents as of Oct. 5, 2017. This also includes verification of students in non-public placements and Wards of the District enrolled in schools in surrounding jurisdictions.
2. **Child Count Verification for Special Education:** An audit of students with disabilities receiving special education and related services according to an individualized education program or service plan who are Stage 5 enrolled as of Oct. 5, 2017.
3. **Community-Based Organization Pre-K Verification:** An audit of children enrolled in pre-K3 and pre-K4 in CBOs receiving Pre-K Enhancement funds. Upon completion of the enrollment verification, each CBO will receive funding for each enrolled student verified as a District resident.

ENROLLMENT AUDIT ANALYSIS

Overview

The enrollment audit consisted of a verification of enrollment and review of student residency records to determine the residency status of the total enrolled student populations of both District of Columbia Public Schools (DCPS), public charter schools (PCS) as well as children enrolled in pre-K3 and pre-K4 at

CBOs receiving Pre-K Enhancement funds. Additionally, enrollment and residency were verified for District of Columbia students enrolled in non-public schools, programs and surrounding county schools.

The below table provides a sector level summary of the enrollment audit key data points. Please note that these represent enrollment numbers as of Oct. 5, 2017.

	DCPS	PCS	Total
Unaudited Public Enrollment	48,169	43,429	91,537
Unaudited Public Enrollment (including Duplicative Enrollments)*	48,180	43,488	91,668
Audited Public Enrollment	48,144	43,393	91,537
Students included in the UPSFF**	47,982	43,340	91,322
Non-resident students***	162	53	215
Audited Non-Public Placement Enrollment****	478	230	708
Total Audited Public and Non-Public Enrollment	48,622	43,623	92,245

* Duplicative enrollments occur when a student has been reported as enrolled at more than one LEA/school.

**Students included in the Uniform Per Student Funding Formula (UPSFF) are residents enrolled in public schools in the District excluding students placed in non-public schools.

***Non-residents include students who live outside of the District and pay tuition to attend public school in DC and students whose District residency was not confirmed through the enrollment audit and will be investigated further by OSSE.

****Students placed in non-public schools are students with disabilities who are District residents whose placement determination was made in accordance with the Individuals with Disabilities Education Act (IDEA) by DCPS or a public charter school.

Public Enrollment

Public enrollment is comprised of students enrolled in DCPS and PCS institutions who are District residents, tuition-paying non-residents (who have entered into current, non-resident tuition agreements with OSSE), and enrolled students who are determined as non-residents (who do not have a current, non-resident tuition agreement with OSSE) and whose District residency will be investigated further by OSSE. Public enrollment does not include students in non-public placements. To be considered as an enrolled student for the purpose of the enrollment audit, students must have a valid Stage 5 enrollment code as of Oct. 5, 2017 and must not have been exited/withdrawn from the LEA with a valid exit code.

The unaudited enrollment as of Oct. 5, 2017 reported 91,668 students enrolled in both DCPS and PCS, including students who were reported as enrolled at more than one LEA on Oct. 5, 2017 and considered duplicative enrollments. Upon completion of the enrollment audit and verification, the final audited enrollment was reported as 91,537.

The primary basis for the net variance of 131 is due to duplicative student enrollment, which occurs when a student has been reported as enrolled at more than one LEA/school. Each LEA uses a separate student information system for tracking and reporting enrollment. Since there is no consolidated student information system used to enroll and track all District students, it is possible for a student to be recorded as enrolled at more than one LEA/school. Guidance related to the resolution for duplicate student status is found in the [Student Enrollment Audit and Child Count Handbook Guide for Local Education Agencies](#). This guidance was utilized in procedures to determine which school would receive enrollment credit for the student.

Residency

Of the 91,537 students determined to be validly enrolled in DCPS and PCS schools, 91,322 students were categorized as residents of the District of Columbia. Compliance with OSSE guidance requires schools to maintain residency supporting documentation for all enrolled students. For each student, examination procedures included a review of the DC Residency Verification (DCRV) form. Additionally, procedures included an inspection and assessment of residency supporting documentation for a randomly selected 20 percent sample of the student population at each school whose residency was not verified through direct data exchanges between OSSE and the following government and independent agencies:

- DC Department of Human Services (DHS);
- DC Child and Family Services Administration (CFSA);
- DC Office of Tax and Revenue (OTR); and
- The Community Partnership (TCP).

Upon completion of the enrollment audit, it was determined there were 215 students attending DCPS or PCS schools who were non-residents. 152 of these students are considered residency exceptions, meaning that: (1) a DCRV was not provided; or (2) the supporting residency documentation provided by the schools was not in compliance with OSSE guidelines. Additionally, there were a total of 63 students who had non-resident tuition agreements on file with OSSE for the 2017-18 school year.

For all enrolled students who were determined to be non-residents and who do not have applicable non-resident tuition agreements in place for the 2017-18 school year, OSSE will undertake further investigation in order to recoup the non-resident tuition owed to the District in furtherance of its regulatory mandate found at 5A DCMR §5000, *et seq.*

Students Attending Non-Public Schools and Surrounding County Schools

Students included in the count of non-public placement enrollment are students with disabilities who are District residents whose placement determination was made in accordance with Individuals with Disabilities Education Act (IDEA) by DCPS or a public charter school. Students attending surrounding county schools are DC residents who have been placed in these programs by the DC Child and Family Services Administration (CFSA). CFSA provides resources and services to enhance the safety, permanence, and well-being of abused, neglected, and at-risk students who are considered Wards of the District. Students under the care of CFSA may be placed in educational programs outside of the District. The District's Youth Rehabilitation Services (DYRS) is the juvenile justice agency and is responsible for providing youth in its custody with educational services. The enrollment data for students placed by CFSA and DYRS came directly from these agencies.

The unaudited number of students enrolled in non-public schools, programs and surrounding county schools reflected 1,169. The composition is highlighted below:

- 710 students placed in non-public placements by DCPS or PCS
- 428 students identified as Wards of the District attending schools in surrounding counties (placed by CFSA)
- 31 students attending educational programs through DYRS

On completion of the enrollment audit, 856 were verified as students attending non-public schools, programs and surrounding county schools as follows:

- 708 students placed in non-public schools or programs by DCPS or PCS
- 118 students identified as Wards of the District attending schools in surrounding counties (placed by CFSA)
- 30 students attending educational programs through DYRS

Similar to the public enrollment audit results, the foremost reason for the variance from the unaudited numbers for students placed in nonpublic programs and for students attending educational programs through DYRS is duplicatively enrolled students. The variance in the numbers for students placed by CFSA is due to removing students from the count who are attending a DC public school and those who are not enrolled in a public school in a grade covered by this audit.

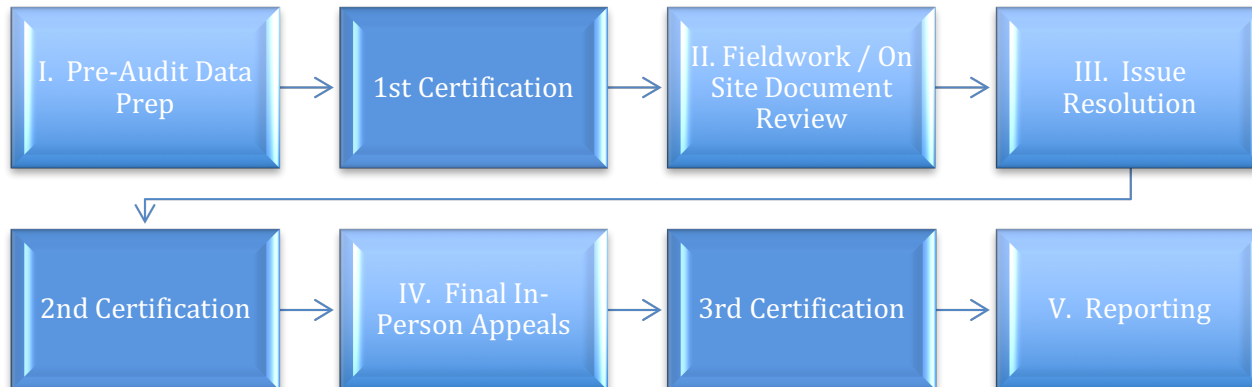

ENROLLMENT AUDIT AND CHILD COUNT PROCESS

Key Changes

Legislative changes enacted in July 2017 have resulted in several updates to the enrollment audit and child count processes, including:

- **No physical headcount:** Robust data systems and effective LEA coordination to support timely and accurate collection of data for each student remove the need to conduct a student-by-student physical headcount.
- **Direct data comparison for English Learners:** In furthering OSSE's goals to use high-quality data to inform our practices, this year demographic data provided by LEAs was compared against data entered for the purpose of the ACCESS assessment of English Language Proficiency. This allowed OSSE to provide LEAs with any inconsistencies found in the data. During this process, anomalies and exceptions found across LEAs were handled on an individual basis. LEAs were provided with an exception guide to assist with determining how best to handle their student anomalies.
- **Greater clarity and transparency for LEAs:** A newly built web-based application supports enrollment audit processes, eliminating the use of multiple spreadsheets, and allowing the enrollment audit point of contact (POC) at each LEA to closely track the on-site review and issue resolutions as well as final in-person appeals and determinations.
- **Increased focus on residency verification:** The sample size for the review of supporting residency documentation increased from 10 to 20 percent of a school's student body, after removing those students whose residency was verified through direct data feeds from other government and independent agencies. In addition, if a school's sample failed to show adequate supporting residency documentation, auditors launched directly into a 100 percent review of all student residency records that had not been previously verified. This year, 16 percent of schools and CBOs examined underwent full reviews of their entire student body's residency information.

Process Overview

I. Pre-Audit Data Preparation

OSSE's Division of Data, Assessment and Research worked closely with LEAs and CBOs to ensure error-free enrollment data in advance of the Oct. 5 enrollment roster data freeze.

II. Fieldwork

OSSE's auditors visited each school site of each LEA and CBO to conduct an on-site review of 1) 100 percent of DC Residency Verification Form 1 or 2, and 2) a random sampling of 20 percent of supporting documentation of enrolled students whose residency had not been verified by OSSE through direct data feeds with relevant government and independent agencies.

III. Issue Resolution

LEAs and CBOs were able to appeal residency and duplicative enrollment issues during the Issue Resolution phase. If an LEA or CBO did not agree with the resolution decision, a final in-person appeal was requested.

IV. Final In-Person Appeals

During this phase, LEAs and CBOs had one final opportunity to submit information that may confirm the residency or enrollment status of a disputed student. Upon review of residency or enrollment documentation submitted for final appeal, any changes accepted were then updated in the Enrollment Audit and Child Count Application.

V. Reporting

Upon completion of the final in-person appeals phase, OSSE notified LEAs and CBOs of any additional enrollment changes due to data corrections and/or duplicative student final determinations. Following the release of the enrollment audit report for the 2017-18 school year, OSSE may additionally follow up directly with individual LEAs or CBOs regarding any anomalies discovered in enrollment or residency verification practices during the enrollment audit process which should be addressed in the next school year.

VI. Enrollment Data Certifications

LEAs and CBOs had to certify the validity, completeness, and accuracy of their respective data and acknowledge final enrollment numbers via three separate certifications throughout the verification and auditing process. The first certification on Oct. 13, 2017 established enrollment

baselines by capturing the universe of students for inclusion in the enrollment audit and verifying and acknowledging the outstanding data anomalies for students with disabilities in OSSE's Special Education Data System (SEDS). The second certification on Nov. 20, 2017 acknowledged that all demographic data were accurate, valid and complete, and also certified the final population of students with disabilities receiving services for Child Count purposes. The third and final certification on Dec. 19, 2017 ensured acknowledgment of final enrollment numbers and demographic information used for Uniform Per Student Funding Formula purposes. All certifications were made by the Head of School via electronic signature in the Enrollment Audit and Child Count Application.

SUPPLEMENTAL SCHEDULES FOR STUDENT ENROLLMENT

District Summary

The District Summary provides a sector-level view of the enrollment audit key data points.

	DCPS	PCS	Total
Unaudited Public Enrollment	48,169	43,429	91,537
Unaudited Public Enrollment (including Duplicative Enrollments)*	48,180	43,488	91,668
Audited Public Enrollment	48,144	43,393	91,537
Students included in the UPSFF **	47,982	43,340	91,322
Non-resident students***	162	53	215
Audited Non-Public Placement Enrollment****	478	230	708
Total Audited Public and Non-Public Enrollment	48,622	43,623	92,245

* Duplicative enrollments occur when a student has been reported as enrolled at more than one LEA/school.

**Students included in the Uniform Per Student Funding Formula (UPSFF) are residents enrolled in public schools in the District excluding students placed in non-public schools.

***Non-residents include students who live outside of the District and pay tuition to attend public school in DC and students whose District residency was not confirmed through the enrollment audit and will be investigated further by OSSE.

****Students placed in non-public schools are students with disabilities who are District residents whose placement determination was made in accordance with Individuals with Disabilities Education Act (IDEA) by DCPS or a public charter school.

LEA Summary

The LEA Summary provides an LEA level view of the enrollments by key data points. Audited Enrollments in this table include UPSFF, non-public and non-residents (inclusive tuition paying)
