

## Context

- Students were assessed in the 2021-22 school year for the first time since the 2018-19 school year.
- For roughly half of the students, this was their first time taking a standardized statewide assessment. And this may have impacted the results
- During this period between statewide assessments, students experienced interrupted learning.
- While students were learning in person for the 2021-22 school year, they returned to the classroom facing significant mental health and social-emotional challenges which impacted learning.
- In response to the pandemic, nearly \$1 billion of federal stimulus funds have been directed to support the recovery and restoration of our public education and child care sectors in the District. OSSE is responsible for overseeing these multi-year investments that will support the District through this recovery period.

## Key Takeaways

- Despite attendance challenges experienced across age groups, more than 94 percent of expected test takers participated in assessments.
- The data reinforce our recovery and restoration work and investments and will drive decision making going forward.
- We now have a clearer picture of where our students need the most help.
- As national and local trends suggested prior to assessment administration, results show students already farthest from opportunity before the pandemic also experienced the largest setbacks in proficiency.

## At-a-Glance: Assessment Participation

- Eligible students in high school had lower participation than eligible students in middle or elementary school.
- The participation rate decrease from 2019 was more pronounced in high school compared to grades 3-8.
- 41 schools had all or nearly all students participate in ELA assessments.
- 50 schools had all or nearly all students participate in math
 assessments.

## Statewide Assessment Student Universe and Participation

|  | PARCC |  | MSAA |  | All |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | ELA | Math | ELA | Math | ELA | Math |
| Eligible participants | 45974 | 45525 | 379 | 379 | 46353 | 45904 |
| Actual participants | 43602 | 43012 | 331 | 331 | 43933 | 43343 |
| Participation rate | $94.84 \%$ | $94.48 \%$ | $87.34 \%$ | $87.34 \%$ | $94.78 \%$ | $94.42 \%$ |

Eligible students in high school had lower participation than eligible students in middle or elementary school.

PARCC and MSAA participation by subjects and framework

## At-a-Glance: Assessment Performance Summary

- We saw decreases in ELA proficiency rates, particularly in earlier grades.
- The math proficiency rate dropped substantially across all grades.
- In math, 60 percent of students scored a Level 1 or 2 on the PARCC Assessment; 48 percent did so in ELA, indicating they are performing significantly below grade level.
- Assessment score distribution varies significantly across race and ethnicity.
- Black/African American and Hispanic/Latino students saw the largest decrease in proficiency rates on ELA assessments.
- Math proficiency decreased by more than 10 percentage points for most race/ethnicity groups.
- The proficiency rate of at-risk students decreased more than the rate of not at-risk students, in both math and ELA.

## 31 percent of students who took the ELA PARCC assessment were on- or above-grade level.

PARCC - ELA levels, 2O21-22

## 19 percent of students who took the Math PARCC assessment were on- or above-grade level.

PARCC - Math levels, 2021-22

Fewer students were proficient in ELA in 2022 than in 2019. Drops in proficiency rates were particularly pronounced in lower grades.

ELA proficiency rate by grade and years

## The math proficiency rate dropped significantly across all grades.

> MATH proficiency rate by grade and years

## Black/African American and Hispanic/Latino students saw the largest decrease in proficiency rates on ELA assessments.

PARCC and MSAA - ELA proficiency rate change by race/ethnicity

Blue points represent 2018-19
Red points represent 2021-22

## Math proficiency decreased by more than 10 percentage points for most race/ethnicity groups.

PARCC and MSAA - Math proficiency rate change by race/ethnicity

Blue points represent 2018-19
Red points represent 2021-22

## ELA proficiency rate decreased by 6 percentage points between 2019 and 2022 for students who are at-risk.

PARCC and MSAA - ELA proficiency rate change by specific groups of students

## Math proficiency rate decreased by 10 percentage points between 2019 and 2022 for students who are at-risk.

PARCC and MSAA - Math proficiency rate change by specific groups of students

Blue points represent 2018-19
Red points represent 2021-22

## Cohort Analysis

To better understand the effect of the pandemic on learning outcomes, OSSE explored the change in proficiency status among students who tested in both 2019 and 2022, and progressed along the standard grade trajectory (e.g., student was in third grade in 2019 and sixth grade in 2022). OSSE has conducted similar band analysis in previous years.

## Patterns in proficiency rate changes were significantly different between 2016 to 2019 and 2019 to 2022.

Changes in Proficiency Rates, 2016 to 2019 and 2019 to 2022

Became Not Proficient Remained Proficient

## Statewide Recovery Investments are <br> Responsive to Assessment Results

DISTRICT OF COLUMBIA

- Readers Next Door
- Secondary Math

- High-impact tutoring
- New Curriculum
- Additional Staffing

- Expand Access to HighImpact Tutoring
- Scale Literacy Training Grounded in the Science of Reading
- Expand Access to Professional Development for Math Instruction

## Accelerate Learning

## High-Impact

Tutoring Investment
\$40 million to serve 8,000 students
through the 2023-24 school year

- Support Layered Mitigation Strategies
- Fund Reopening Needs
- Invest in Educator and Leader Wellness
- Strengthen School Culture and Climate
- Address Student Mental Health Needs
- Launch a Family Resource Center for Students with Disabilities
- Incentivize Gen Ed Teachers to Complete Special Education Coursework
- Provide Comprehensive Trainings to Educators

## A Multi-Year Recovery

- The data reinforce that we have invested strategically in core areas of need.
- Preliminary data from PARCC and other LEA assessments suggest that when schools were open, students experienced growth.
- These multi-year investments will support the District through this recovery period.
