

MURIEL BOWSER
MAYOR

July 23, 2025

The Honorable Phil Mendelson
Chairman
Council of the District of Columbia
John A. Wilson Building
1350 Pennsylvania Avenue, NW, Suite 504
Washington, DC 20004

Dear Chairman Mendelson:

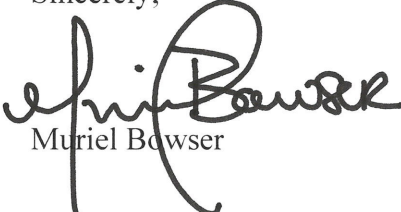

I am pleased to submit to the Council of the District of Columbia the enclosed report titled "Child and Adult Care Food Program Data Report: Fiscal Year 2024," which was prepared by the Office of the State Superintendent of Education ("OSSE") pursuant to section 4074(a)(4) of the Healthy Tots Act of 2014 (D.C. Law 20-155; D.C. Official Code § 38-283(a)(4)) ("Healthy Tots Act").

The Healthy Tots Act requires licensed child development facilities to participate in the Child and Adult Care Food Program ("CACFP") if 50 percent or more of enrolled children are eligible for subsidized child care for at least six continuous months, unless the facility is subject to an exemption. Through CACFP, child development facilities can be reimbursed for up to four meals per day, which includes local funding for breakfast meals. This report presents a listing of all child development facilities in the District that are required to participate in CACFP and their participation status.

OSSE plays a key role in supporting access to balanced and nutritious meals for children in the District of Columbia. OSSE provides local and U.S. Department of Agriculture funding to support schools, child development facilities, adult day cares, summer meal programs, and other programs with healthy meals that feed District of Columbia residents.

I am available to discuss any questions you may have regarding this report. In order to facilitate a response to your questions, please have your staff contact Andrew Gall, Deputy Chief of Staff for Legislative Affairs and Policy, OSSE, at (202) 802-5827.

Sincerely,

Muriel Bowser

District of Columbia
Office of the State Superintendent of Education

Executive Summary

Mayor Muriel Bowser is committed to maintaining excellent, accessible, safe, and healthy child care options for District families. The District of Columbia Office of the State Superintendent of Education (OSSE) works to provide all District children, from birth to kindergarten entrance, high-quality early childhood development programs and access to sustainable wellness and nutrition programs. The District is a national leader in the provision of early learning opportunities for young children, making early childhood a core part of the District's education agenda.

To support the growth and development of all children, the District has taken steps to support the availability of nutritious meals and food programs for child development facilities. The Healthy Tots Act (D.C. Law 21-36; D.C. Official Code § 38-282.01, *et seq.*) requires that the District's youngest and most vulnerable children have access to healthy breakfasts, lunches, suppers, and snacks while enrolled at child development facilities. This local legislation requires licensed child development facilities to participate in the Child and Adult Care Food Program (CACFP) if 50 percent or more of enrolled children are eligible for subsidized child care for at least six continuous months. It also offers additional local reimbursements for child development facilities to provide up to four nutritious meals per day. CACFP and the Healthy Tots Act provide an important funding stream that not only increases access to food for children in the District but also supports child development facilities improve financial stability by tapping into available funding sources.

This report outlines the participation of child development facilities required to participate in the program as of Quarter 4 of Fiscal Year 2024 (Oct. 1, 2023 – Sept. 30, 2024).

Section I: Introduction

The Healthy Tots Act of 2014 (D.C. Official Code § 38–281 *et seq.*) aims to make District child development facilities a healthy place for infants, toddlers and preschoolers. The Healthy Tots Act requires OSSE to provide an annual report to the Council of the District of Columbia, Mayor, and Healthy Youth and Schools Commission that lists CACFP participation for child development facilities with 50 percent or more enrolled children eligible for subsidized child care for at least six continuous months (D.C. Official Code § 38–283(a)(4)). As detailed in this report, most of the child development facilities with 50 percent or more enrolled children eligible for subsidized child care for at least six continuous months participate in CACFP.

The Healthy Tots Act and Child Development Facilities

To support the growth and development of all children, the District has taken steps to support the availability of nutritious meals and food programs for child development facilities. The Healthy Tots Act of 2014 (D.C. Law 21-36; D.C. Official Code § 38-282.01, *et seq.*) provides access to healthy breakfasts, lunches, suppers and snacks for infants, toddlers, and preschoolers while they are enrolled in child development facilities.

The Healthy Tots Act requires licensed child development facilities to participate in the Child and Adult Food Program (CACFP) if 50 percent or more of enrolled children are eligible for subsidized child care for at least six continuous months (D.C. Official Code § 38–282.01(a)). This does not apply to facilities that are on the U.S. Department of Agriculture (USDA) CACFP National Disqualification List (D.C. Official Code § 38–282.01(a-1)). The Healthy Tots Act defines a child development facility as a licensed community-based center, home or other structure, regardless of its name, that provides care, supervision, guidance or other services for infants, toddlers and preschoolers on a regular basis, and does not include a program that is sponsored or run by a public or private school (D.C. Official Code § 38–281(2)). An eligible child is a child who is a District resident who occupies a slot funded in whole or in part by the subsidized child care, authorized by section 3 of the Day Care Policy Act of 1979, effective Sept. 19, 1979 (D.C. Law 3-16; D.C. Official Code § 4-402), the Uniform Per Student Funding Formula for Public Schools and Public Charter Schools Act of 1998, effective March 26, 1999 (D.C. Law 12-207; D.C. Official Code § 38-2901 *et seq.*) or the District of Columbia Public Schools' Head Start program.

Child development facilities that are required to participate in CACFP may appeal to OSSE for a participation waiver if they feel their facility is not equipped to operate the program. OSSE grants CACFP participation waivers to facilities that can prove they have one of the following hardship factors:

- *Staffing or Organizational Structure Hardship:* The child development facility does not employ enough staff to maintain required children/teacher ratios for when CACFP duties must be completed, e.g., preparing meals or completing paperwork pursuant to 7 CFR § 226.6(b)(1).
- *Population Served Hardship:* Over the past six months, the child development facility did not continuously enroll 50 percent or more children who were eligible for the Child Care Subsidy Program pursuant to 5A DCMR § 1000.3.
- *Financial Hardship:* The child development facility does not have adequate funds within its current budget to cover costs that may exceed CACFP reimbursement, such as paying a cook's salary,

upgrading an inadequate cooking area, contracting for meals, paying any debt in the event of a temporary interruption in program payments or repaying a claim that is assessed against the facility pursuant to 7 CFR § 226.6(b)(1).

- *Serious Deficiency Hardship*: The child development facility has been newly declared seriously deficient by OSSE, and the facility has been terminated from CACFP, disqualified from CACFP participation and placed on the USDA CACFP National Disqualification List.
- *Application Denial Hardship*: The child development facility's application to participate in CACFP was previously denied because it did not meet all of the program requirements of 7 CFR § 226.6 et seq.

OSSE determines whether a good cause exists to grant the child development facility a waiver from participating in CACFP based on the facility's application and any other information available to OSSE. If OSSE grants a waiver, OSSE provides written notice to the facility notifying it that it is excused from participating in the program for one year following the date of the notice. Facilities that are on the USDA CACFP National Disqualification List will remain there for a minimum of seven years, per USDA federal rules. Facilities that are granted waivers have the option to apply for participation in CACFP before the waiver expires. OSSE encourages facilities to use the waiver period to prepare for CACFP participation and offers technical assistance to facilities preparing to enter the program.

Enhanced Local Reimbursements Available to Child Development Facilities

The Healthy Tots Act requires facilities have access to CACFP and additional local reimbursements beyond federal funding. The Healthy Tots Act establishes additional local funding for meals (breakfast, lunch or supper) served by child development facilities that: (1) participate in CACFP and (2) meet the USDA meal requirements in 7 CFR § 226.20. OSSE began providing the additional reimbursement to facilities effective Oct. 1, 2015. These Healthy Tots Act reimbursements are detailed below:

- “Add10”: Child development facilities participating in CACFP may request an additional \$0.10 for each eligible breakfast, lunch and supper served to an eligible child (5A DCMR § 1001.2).
- “Local5”: Child development facilities participating in CACFP may request an additional \$0.05 per lunch or supper when at least one meal component is comprised of a locally sourced food item, as defined in section 101(3) of the Healthy Schools Act of 2010 (D.C. Official Code § 38–821.01) and unprocessed foods, as defined in section 101(10)(A) of the Healthy Schools Act of 2010 (D.C. Official Code § 38–821.01). Locally grown and unprocessed foods do not include milk (5A DCMR § 1001.4-5).
- “Full Day4”: Child development facilities participating in CACFP that have maximized the number of daily meal services eligible for CACFP reimbursements allowed (two meals and one snack or one meal and two snacks) are eligible to receive reimbursements from the Healthy Tots Fund for a fourth meal for each enrolled child. To be eligible for these funds, 75 percent of the children enrolled and attending the child development facility must be District of Columbia residents and at least 50 percent of the enrolled and attending children must be eligible for subsidized child care (5A DCMR § 1001.7).

Supporting Child Development Facilities

Since the passage of the Healthy Tots Act, OSSE has refined an effective and systematic approach for working with child development facilities that are required to participate in CACFP. When a child development facility has been identified as meeting the Healthy Tots Act requirements to participate in CACFP, OSSE contacts the facility to encourage them to participate in CACFP and makes them aware of the option to apply for a participation waiver. An OSSE employee provides technical assistance visits with the facility to provide assistance with Healthy Tots Act and CACFP compliance. Facilities that apply for CACFP receive training and reoccurring technical assistance from OSSE throughout the entire application process.

OSSE provides continuous support to facilities already participating in CACFP by offering technical assistance on planning nutritious meals, wellness guidelines, access to local produce, support with local and federal compliance, and provision of nutritious meals meeting federal guidelines. If a facility is not participating in CACFP, OSSE provides outreach and support, with a focus on new facilities, facilities struggling with applying for CACFP and facilities newly identified as enrolling 50 percent or more children that are eligible for subsidized care for at least six continuous months. When a new child development facility opens, the facility may choose to apply for CACFP immediately. If the new facility does not participate in CACFP but enrolls 50 percent or more children eligible for subsidized care for at least six continuous months, OSSE begins its coordination with the facility after its first six months to apply for CACFP or to receive a CACFP participation waiver. If a facility does not enroll in CACFP despite extensive communication from OSSE, the Child Care Subsidy Program helps the facility to complete the CACFP application as part of the provider's annual subsidy agreement renewal process.

Section II: Data Collection Methods

The data used to determine whether child development facilities meet the Healthy Tots Act requirements to participate in CACFP are collected by the OSSE Division of Early Learning and reported by the OSSE Division of Data, Assessment, and Research. In accordance with the federally funded Child Care Subsidy Program, the OSSE Division of Early Learning collects data on the number of children who participate in the subsidy voucher program within each licensed child development facility in the District. This data is reported quarterly to the federal government as detailed in Figure 1.

Figure 1: Subsidy Participation

No.	Description	Source	Other Details
1	Facility	ACF-801	Facility name, address, ward, and license number
2	Licensed capacity	ACF-801	Monthly, for infants, toddler, preschool children, and total (excluding school-age)
3	Total unduplicated monthly subsidized enrollment	ACF-801	Monthly, for infants, toddler, preschool children, and total (excluding school-age)

OSSE does not collect total enrollment for individual child development facilities; therefore, OSSE’s Division of Health and Wellness utilizes the licensed capacity and subsidy enrollment as proxy data for total enrollment. This data is analyzed quarterly by the OSSE Division of Data, Assessment, and Research and shared with OSSE’s Division of Health and Wellness to determine which facilities meet the CACFP participation requirements. OSSE’s Division of Health and Wellness receives the data four to six months after it is collected to allow OSSE’s Division of Data, Assessment, and Research time to analyze and clean the data. Due to the timing of this report and the time it takes to receive the subsidy data, the data used to inform the activities for this report are from the fourth quarter of the previous fiscal year.

Section III: Child Development Facilities Required to Participate in the Child and Adult Care Food Program

This section consists of three tables that provide a list of child development facilities that are mandated to participate in CACFP due to enrolling 50 percent or more children eligible for subsidized child care for at least six continuous months as of the fourth quarter of fiscal year 2024. The tables are identified below:

- Table A: Child Development Facilities Required to Participate in the Child and Adult Care Food Program but Granted a Participation Waiver or Exemption
- Table B: Child Development Facilities Required to Participate in the Child and Adult Care Food Program but Not Currently Participating
- Table C: Child Development Facilities Required to Participate in the Child and Adult Care Food Program and Currently Participating

Table A. Child Development Facilities Required to Participate in the Child and Adult Care Food Program but Granted a Participation Waiver or Exemption

Child development facilities listed in Table A enrolled 50 percent or more children eligible for subsidized child care for at least six continuous months as of the fourth quarter of fiscal year 2024 but were not currently participating in the program. These facilities received a CACFP Participation Waiver from OSSE or are on the USDA CACFP National Disqualification List. Facilities that are on the CACFP Expansion list and on the USDA CACFP National Disqualification List are disqualified from CACFP participation for seven years, and therefore, are not required to submit a waiver request to OSSE. A facility may be eligible to participate in CACFP at the end of the disqualification period, per USDA federal rule 7 CFR, Section 226.6(c).

NAME OF FACILITY REQUIRED TO PARTICIPATE IN THE CACFP	FACILITY ADDRESS	WARD	PARTICIPATING IN CACFP	PARTICIPATION WAIVER GRANTED / HARDSHIP FACTOR

Table B. Child Development Facilities Required to Participate in the Child and Adult Care Food Program but Not Currently Participating

Child development facilities listed in Table B enrolled 50 percent or more children eligible for subsidized child care for at least six continuous months as of the fourth quarter of fiscal year 2024 but were not currently participating in the program. There are 15 facilities listed in the table below. Of the 15 facilities, six facilities were transferred to the Division of Early Learning (DEL) subsidy program due to being non-responsive, two facilities were granted an OSSE waiver, and seven facilities are completing or have recently completed the CACFP application through a sponsoring organization or as an independent center.

Section IV: Conclusion

OSSE is committed to supporting and working with child development facilities to leverage all federal and local funding to provide high-quality and nutritious meals to the District's children. As detailed in this report, OSSE provides technical assistance, training, and support to help facilities meet all CACFP participation requirements, including those mandated to participate due to enrolling 50 percent or more children eligible for subsidized child care for at least six continuous months.
