Introduction

The Office of the State Superintendent of Education’s (OSSE’s) Faculty and Staff Application has three modules –

Faculty and Staff Data Collection Module: Provides local education agencies (LEAs) with a platform to submit annual faculty and staff data to OSSE.

Educator Talent and Equity Dashboard Module: Provides each DC LEA and OSSE staff with insights on educator supply and demand, retention, and teacher equity.

All Staff Data Collection Module: Provides LEAs with a platform for reporting staff information throughout the year. It collects demographic, employment, and contact information to access different OSSE systems and correspondence.

This serves as the user guide for the Faculty and Staff Data Collection Module. The application (1) allows LEAs to add or update their faculty and staff data within the application or by file upload, and (2) allows Heads of School to certify their faculty and staff data at the end of the collection window. For more information on the business rules, please consult the [Faculty and Staff Data Collection Policy Guidance](#).

Faculty and Staff Data Collection Timeline

Each LEA will receive its data previously submitted to the Faculty and Staff Data Collection and All Staff* applications when the application is opened at the start of the collection window. It is the LEA's responsibility to review the data in the [Faculty and Staff Collection Application](#) and make updates to reflect the staffing roster as of **Oct. 5, 2026**. Please note that LEA requests for technical assistance may take up to one business day.

Action	Date
Application Opens for Submissions	Monday, Sept. 21, 2026
Last day to submit tickets via the OSSE Support Tool (OST)	Friday, Oct. 16, 2026
Last day to upload data via template [Import button removed]	Monday, Oct. 26, 2026 [5 p.m.]
Data Clean Up Week [Minor, manual edits only]	Tuesday, Oct. 27 to Friday, Oct. 30, 2026
Due Date [Application becomes read-only]	Friday, Oct. 30, 2026 [5 p.m.]
Certification Window	Wednesday, Nov. 4 – Thursday, Nov. 5, 2026
Appeals Window	Friday, Nov. 6 – Monday, Nov. 16, 2026

*The All Staff Application can be accessed through its own module in the Faculty and Staff Application. The Faculty and Staff Application excludes non-teaching staff identified as "leavers" from the pre-populated data from the All Staff Application. Teacher leavers are included to record the "Previous School Year Evaluation Rating."

**The earliest an LEA can submit its final roster is Monday, Oct. 5, 2026.

Certification Window

LEA Heads of School must certify the data submitted are correct between Wednesday, Nov. 4, at 9 a.m. and Thursday, Nov. 5, at 5 p.m. **The application will provide a checkbox at the bottom of the Summary Page on Certification Day.** Only LEA staff assigned the "Head of School" or "Proxy Head of School" POC role in the All Staff Data Collection in the Faculty and Staff Application can certify data.

In case of emergency, **OSSE recommends that LEAs identify and designate two staff members as Heads of School in the FSDC application to ensure certification occurs by the deadline.** More information can be found in the [2026 Certification Guidance](#).

Please refer to Appendix C: Data Errors and Anomalies for a complete list of data collection errors that will prevent the LEA from certifying or uploading data.

What is Included?

LEAs use the Faculty and Staff Data Collection Application to submit two sets of data:

- **Staffing Roster:** This includes every *direct hire or contractor who is part of the LEA's regular operations* as of Oct. 5, 2026. OSSE defines "regular operations" as "day-to-day academic, administrative, student support, maintenance, security, and other activities necessary for the school to function."

Examples: Teachers, school and LEA administrators, contracted related service providers, security guards/School Resource Officers (SROs)

Nonexamples: Student teachers (unless the position is part of the LEA's regular operation), short-term (fewer than four weeks) substitutes, and contract employees who provide a non-regular service (e.g., carpenters refurbishing a lobby, truck drivers who deliver meals once a week, etc.)
- **Teacher Vacancies:** This includes vacant teacher positions as of Oct. 5, 2026. Teacher vacancies are recorded as the total number of Full-Time Equivalents (FTEs) vacant by school, subject, and federal role.

Below are the data points pre-populated from the All Staff Application into the Faculty and Staff Data Collection Application. All data points not listed below must be updated in this year's Faculty and Staff Application.

- Full Name
- Social Security Number (SSN) [last four digits] or Individual Taxpayer Identification Number (ITIN)
- Local Staff ID
- Date of Birth
- Gender
- Race
- Ethnicity
- LEA Name/Code
- School Name/Code
- Federal Role
- Returning Status (only for teachers from last year who are not returning)
- Leave Date (only for teachers from last year who are not returning)

USING THE APPLICATION: A FLOWCHART OVERVIEW

For a detailed process flow of the application, please refer to the chart below:

Accessing the Faculty and Staff Application

Preferred Internet Browser

For the best experience, OSSE recommends that LEAs use the latest version of Google Chrome or Apple Safari.

Gaining Access

To access the [Faculty and Staff Data Collection Application](#), LEA staff first must have an OSSE Statewide Longitudinal Education Data (SLED) system account and must be assigned to one of the following points of contact (POCs) in the All Staff Data Collection, which is now located in the [Faculty and Staff Application](#):

1. Faculty and Staff POC
2. Head of School POC
3. Proxy Head of School
4. LEA Data Manager POC

LEA staff should work with their data manager to ensure they are assigned these roles. If an LEA staff member needs a SLED account, they must contact their [LEA Data Liaison](#). Users automatically gain access to the application one business day after having the correct role and a SLED account.

Log in to the Faculty and Staff Application at data.osse.dc.gov/faculty-and-staff/ using the same username and password used to access SLED. **If you already have a SLED account but need to reset your password, please contact OSSE at sled.info@dc.gov.**

Modules

Figure 1: Module Display

The application displays the Faculty and Staff Data Collection, Educator Talent and Equity Dashboard, and All Staff Data Collection Modules. Click **Proceed** to view the module you wish to view.

Teacher Evaluation Confirmation

After users access the Faculty and Staff Data Collection Module, they will see a red banner at the top of each page requiring them to confirm that they have reported accurate teacher evaluation ratings for all staff who were teachers in the previous school year, including returners, leavers, and role transfers no longer teaching.

LEAs should complete their submission prior to checking this box; users will not be able to certify their data until this quality assurance step has been completed.

Figure 2: Teacher Evaluation Confirmation Banner

Summary Page

The Summary page is the first page displayed after the user logs in to the application. The Summary page serves as a support tool, displaying counts and percentages through key performance indicators (KPIs), tables, bar charts, and filters to ensure the data submitted is accurate. It includes the total number or percentage of **(1)** staff members by the LEA or school, **(2)** staff members counted in each category, **(3)** data errors, and **(4)** data anomalies.

The Summary page also contains a Feedback Survey.

Filters

By default, the LEA filter is applied to the Summary page and displays the related counts; however, the school filter can be applied to view the counts by a specific school.

Click the **Clear Filters** (X CLEAR FILTERS) icon to remove all applied filters.

Key Performance Indicators (KPIs)

The Summary page displays the following KPIs:

- Teacher Headcount
- School Administrator/Related Service Provider/Special Education (SPED) Paraprofessional Headcount
- All Other Staff Headcount
- Leaver-LEA Headcount
- Teacher Vacancy FTE
- Total English Learner (EL) Teacher Headcount
- EL Certified Percentage
- SPED Certified
- Teacher Novice Percentage
- Teacher In-Field Percentage
- Teacher Effective Percentage
- Teacher Percent Certified Teacher Retention Rate at School

To view the related information connected to a KPI, click the KPI or bar chart. The application will display the information on the All Staff, Vacancy, or Other Reports Page. KPIs, tables, and bar charts exclude staff without a Unique Faculty and Staff Identifier (UFSI).

For a description of each KPI and how they are calculated, please see [Appendix A: Summary Page KPIs](#).

Tables

- The **Headcount by Federal Role** table displays a unique count of faculty and staff by federal role. Note, the “All Schools” row in the table represents LEA-level counts, and the other rows represent counts by each school within the LEA. The table can be exported to Excel by clicking on the **Download** button () on the top right of the table.
- The **FTE by Federal Role** table displays the sum of FTE by federal role. Note, the “All Schools” row in the table represents LEA-level counts, and the other rows represent counts by each school within the LEA. The **FTE by Federal Role** table can be exported to Excel by clicking on the **Download** button on the top right of the table.

Figure 3: Summary Page

- The **SPED FTE by SPED Role** table displays the sum of SPED FTE by federal role. Note, the “All Schools” row in the table represents LEA-level counts, and the other rows represent counts by each school within the LEA. The **SPED FTE by SPED Role** table can be exported to Excel by clicking on the **Download** button on the top right of the table.

Bar Charts

- The **Teacher Count by Race** bar chart displays a unique count of teachers by race.
- The **Teacher Count by Gender** bar chart displays a unique count of teachers by gender.
- The **Teacher Years of Experience** bar chart displays a unique count of faculty and staff with teacher years of teaching experience in the following ranges: 0-1, 2-5, 6-10, and 11+.
- The **School Administrator Years of Experience** bar chart displays a unique count of faculty and staff with the school administrator years of experience in the following ranges: 0-1, 2-5, 6-10, and 11+.
- The **Current Year and Previous Year** bar chart allows the user to compare aggregate data submitted in the current collection to data submitted in the previous faculty and staff data collection.

Data Error and Data Anomaly Reports

- The **Data Error Reports** section displays the number of data entries that are incomplete, inconsistent, in an incorrect format, or invalid.
- The **Data Anomaly Reports** section displays data that deviates from what is standard, normal, or expected. The data may be correct, but LEA users should confirm the accuracy of inputs.

Figure 4: Data Error and Data Anomaly Reports on Summary Page

- For more information on **which files are affected** by each error or anomaly, click on the bar next to the name of the error or report. The application will take you to a list of affected records and/or schools.

Data Errors and Anomalies List

Issue	Prevents File Import	Prevents Certification on Certification Day	Anomaly (No Effect)
Duplicate Position	✓	✓	
Duplicate Staff		✓	
Grade Spans with No Reported Teachers		✓	
Inconsistent Data*		✓	
Missing Dual Language Program Data		✓	
Missing or Invalid Data*	✓	✓	
Missing Teacher Record from Previous Year		✓	
Schools with No Reported Teachers		✓	
Schools with No Students and Has Reported Teachers		✓	
Teacher Federal Role and Grades Served Mismatch		✓	
Unable to Assign UFSI		✓	
Vacancy Data Not Reported		✓	
Unconfirmed Teacher Evaluation Ratings		✓	
High FTE Percentage			✓
Missing EL Teachers			✓
Missing Principal/School Leaders			✓
Missing Related Service Providers			✓
Missing Special Education Teachers			✓
Missing Student Support Staff			✓

* The application displays an error alert () to the left of records with missing, invalid, or inconsistent data on the All Staff page. This only shows which *records*, not fields, are affected by missing, invalid, or inconsistent data. To find out which fields are affected, please download your “Current Data” or a Results file from your last upload and navigate to the “Column Level Validations” column at the end of each data sheet for more information about which row has an error and in what field. *Tip: You can filter your “Column Level Validations” column to isolate rows with data issues.*

Refer to [Appendix C: Data Errors and Anomalies](#) for frequently asked questions, descriptions of each data error and anomaly, and guidance on resolving the error or anomaly.

All Staff Page

The All Staff page displays all the positions for every staff member in a table. Staff members receive a row for each federal role they hold. Users can access the All Staff page by clicking its icon at the top dashboard. Clicking on select KPIs, data error, and anomaly reports on the Summary page will also take the user to the **All Staff page**.

The page allows users to filter, add, edit, and delete faculty and staff and download and import data.

Figure 5: All Staff Page

Filters

The **All Staff** page contains several filters allowing users to search faculty and staff data. Once one or more values are selected in the filter, the data on the page will automatically refresh with results. Click the **Clear Filters** (X CLEAR FILTERS) icon to remove all applied filters so a new filter can be used. Applied filters are highlighted in blue to make it easier for the user to view what filters have been applied. **NOTE: Applied filters are held throughout the application across pages. Please be sure to clear filters when verifying the accuracy of all inputs.**

Users can find a list of filters on the All Staff page below:

- Search (by UFSI, First Name, or Last Name)
- Federal Role Type
- Federal Role
- LEA
- School
- Returning Status
- Transfer Status
- FTE Percentage
- OSSE Credential Status
- SPED Teacher
- EL FTE
- Data Error Reports
- Data Anomaly Reports

Updating Faculty and Staff Data

There are two methods to add and update staff data:

- o **User Interface:** The application allows the user to add/update data for one staff member or vacancy at a time within the application itself.
- o **File Import:** The application allows users to simultaneously upload an OSSE-provided Excel template with all roster and vacancy entries and fields.

User Interface

Creating a New User Profile

1. Before adding new faculty and staff, verify if the staff member is already in the application using the **Search** (UFSI, First Name, Last Name) function.

Figure 6: Add New Faculty and Staff Button

Users should **NOT** create a new profile for an existing staff member if they need to enter multiple positions. This will create a duplicate profile error that will prevent LEAs from certifying their data. In this scenario, users should add a new position to an existing profile. Skip to the next section of this guide to learn how to input multiple positions for an existing staff member.

2. If the staff member is not in the application, click **Add New** and select the **Faculty and Staff** button on the top right.
3. Complete the **Staff Profile** page. The Staff Profile page contains sections for **Staff Member Identifiers**, **Demographic Information**, and **Returning Status**. Refer to [Appendix B: Data Element Descriptions and Allowable Values](#) for a list of data fields.
4. Check for errors. The application displays an **alert** icon (🚫) for the sections with for the list of error messages. The application displays a green check box (✅) for the sections that have complete and valid data. [Appendix B: Data Element Descriptions and Allowable Values](#) for the list of error messages. The application displays a green check box (✅) for the sections that have complete and valid data.

 A screenshot of the 'Staff Profile' page. The page is divided into several sections: 'Staff Member Identifiers and Demographic Information', 'Returning Status', and 'Staff Positions'. The 'Staff Member Identifiers and Demographic Information' section contains fields for 'Unique Faculty and Staff Identifier (UFSI)', 'Middle Name', 'Local Staff ID', 'Date of Birth', 'Sex', 'Race', 'Ethnicity', 'Gender', and 'SSN'. The 'Returning Status' section contains fields for 'Returning Employee?', 'LEA Start Date', and 'Leave Date'. The 'Staff Positions' section contains a table with columns for 'Federal Role', 'LEA', 'Previous School Year Before Effective Evaluat', 'Social Emotional Learning and Discipline Supp', 'Last Updated By', and 'Last Updated Date'. The page also includes a 'Save' button and a 'Home' button in the top right corner.

Figure 7: Staff Profile Page

5. **Save** your entry. The **Save** button is enabled only when there is no missing or invalid data in the form.

Figure 8: Add New Position button

6. Click on the **Add New Position** button when the information in the Staff Profile page is complete and valid to open the **Staff Position** page. The user can exit the Staff Profile page at any time by clicking on **Home**

The Staff Position page contains *Employee Transfer*, *Federal Role*, *LEA and School Information*, *Role and Full Time Employment (FTE) Percentage*, *Special Education: Percentage of Time and Grades Served*, *English Learner FTE*, *Certification Information*, *Years of Experience*, *Education and Preparation*, and *Performance Ratings* sections. Refer to [Appendix B: Data Element Descriptions and Allowable Values](#) for the list of data field requirements.

7. Enter information about the **position** the staff member holds.

*Depending on the federal role selected, the application disables the data elements that are not necessary for that role. For example, if “Teacher, Kindergarten” is selected as the federal role, the application disables the **Principal Experience** field, as Principal experience is not a relevant data field for a kindergarten teacher.*

Figure 9: Staff Position Page

8. Check for errors by checking for the **alert** icon (🚫) or green check box (✅) in each section.
9. **Save** your entry. The application saves the record and takes the user to the Staff Profile page.
10. Scroll down to see the staff member’s position in the Staff Position section. The application will also display a timestamp that indicates when and by whom the profile and position pages were updated.

Entering Multiple Positions for a Staff Member

For staff holding multiple positions, click the **Add New Position** button and repeat steps 6-10 from the previous section.

When the user enters the second and subsequent positions, the application automatically pre-populates data in certain fields from the first position page. This is because the data in these fields is expected to remain the same, no matter how many positions the staff member holds. Such fields are:

- a. OSSE Special Education Certification Status
- b. EL Certification Status
- c. Novice
- d. Teacher Years of Teaching Experience
- e. Years of School Administrator Experience
- f. Highest Education Attained
- g. Highest Degree Field/Major
- h. Previous School Year Evaluation Rating

If the user updates the information in any of the above fields, it is updated for all staff members' positions.

Once the position is saved, all the positions are available in the Staff Positions section at the bottom of the Staff Profile page.

Editing Positions

In the **All Staff** page, all the positions for every staff member are available in a table.

1. Use the UFSI, first and/or last name, to find the staff member's position profile.

2. Click the **Edit** button () for the record to open the staff member's **Profile** page and update the sections as needed.
3. **Save** your entry.

File Import

The application allows the user to download the data from the application in OSSE's standardized **Excel template**, save the file on the user's computer, update the data as needed, and import the file back into the application.

Key Things to Note in File Import Functionality

1. When the file is successfully imported, it **replaces the data** in the application with newly imported data. Therefore, the user must be careful about the file used for import.
Example: LEA currently has 100 records in the application. LEA user downloads the file and imports back a file that has only 60 records. When the file is successfully imported, the application deletes the 100 records and shows only 60 records that were imported.
2. Do **NOT** change the template's structure or formatting. Even small changes to the structure can cause your upload to fail.
3. When filters are applied in the All Staff page or Vacancy page, the application downloads only filtered data; therefore, the user must download *unfiltered* data if they intend to use that file to import back to the application.
4. Though LEA Name and School Name are available in the template, the application only processes the data using LEA Code and School Code. Please check the "Schools" tab to ensure you are using the correct school codes.
Example: School ABC's school code is 123, and School XYZ's is 789. When the user submits a record with an **ABC** value in the School Name field and **789** in the School Code field, the application only looks at the school code and assigns the staff member to School XYZ.

How is the Excel Template Organized?

The template is broken down by federal role type and divided into four separate sheets:

- Teacher Data
- PP, Admin, RSP
- All Other Staff
- Vacancy

Category	Federal Role	Unique Faculty and Staff Identifier (UFSI)	Last Name	First Name	Middle Name	Alias or Maiden Name	SSN (last 4 digits)	Local Staff ID	Date of Birth	Gender	Residency
Required or Optional ('Y' indicates Required, 'N' indicates Optional, 'NA' indicates Not Applicable)	Teacher, Adult	OSSE Provided Null	Y	Y	N	N	Y	N	Y	Y	Y
	Teacher, Elementary (grades 1-6)	OSSE Provided Null	Y	Y	N	N	Y	N	Y	Y	Y
	Teacher, Kindergarten	OSSE Provided Null	Y	Y	N	N	Y	N	Y	Y	Y
	Teacher, Pre-School and Pre-Kindergarten	OSSE Provided Null	Y	Y	N	N	Y	N	Y	Y	Y
	Teacher, Secondary (grades 7-12)	OSSE Provided Null	Y	Y	N	N	Y	N	Y	Y	Y
Format	Option Set - single select	Pre-populated by	Free Form Text	Free Form Text	Free Form Text	Free Form Text	Numeric Value	Free Form Text	MM/DD/YYYY	Option Set - single select	
Special Conditions	If employee has multiple federal roles, works in multiple schools, or teaches multiple subjects, use one row for each federal role, school and/or subject.	This field is read-only for LEAs.									

Figure 10: Excel Template

Federal Role and Federal Role Type Crosswalk

Federal roles are categorized into three types based on the data elements required for them. The three types are Teacher, PP/Admin/RSPs, and All Other Staff.

New for 2026-27:

- **New Roles:** Three new Instructional Coach roles (*Literacy, Math, and Other Subjects/Multiple Subjects*) have been added under the PP, Admin, RSP role type. These positions will be included as “School Administrators” for the purpose of DC Report Card and other corresponding reporting.
- **Role Movements:** School Counselors/Directors, School Social Workers, School Psychologists, Speech Language Pathologists and School Nurses have been moved from All Other Staff to PP, Admin, RSP.

Federal Role Type	Federal Role
Teacher	Teacher, Adult
Teacher	Teacher, Elementary (grades 1-6)
Teacher	Teacher, Kindergarten
Teacher	Teacher, Pre-School and Pre-Kindergarten (grades PS and PK)
Teacher	Teacher, Secondary (grades 7-12)
PP, Admin, RSP	School Administrator – Principal/School Leader (<i>designate ONE per school</i>)
PP, Admin, RSP	School Administrator – Other
PP, Admin, RSP	Paraprofessional – Special Education
PP, Admin, RSP	Instructional Coach – Literacy
PP, Admin, RSP	Instructional Coach – Math
PP, Admin, RSP	Instructional Coach – Other Subjects/Multiple Subjects
PP, Admin, RSP	School Counselors/Directors
PP, Admin, RSP	School Counselors/Directors, Secondary (Grades 7-12)
PP, Admin, RSP	School Counselors/Directors, Elementary (Grades PS-6)
PP, Admin, RSP	School Social Workers, Not Special Education Specific
PP, Admin, RSP	School Psychologists, Not Special Education Specific
PP, Admin, RSP	Speech Language Pathologists, Not Special Education Specific
PP, Admin, RSP	Special Education Support Staff, Audiologist
PP, Admin, RSP	Special Education Support Staff, Counselor/Rehabilitation Counselor
PP, Admin, RSP	Special Education Support Staff, Interpreter
PP, Admin, RSP	Special Education Support Staff, Medical/Nursing
PP, Admin, RSP	Special Education Support Staff, Occupational Therapist
PP, Admin, RSP	Special Education Support Staff, Orientation and Mobility Specialist
PP, Admin, RSP	Special Education Support Staff, Physical Therapist
PP, Admin, RSP	Special Education Support Staff, Psychologist
PP, Admin, RSP	Special Education Support Staff, Recreation and Therapeutic Recreation Specialist
PP, Admin, RSP	Special Education Support Staff, Social Worker
PP, Admin, RSP	Special Education Support Staff, Speech Language Pathologist
PP, Admin, RSP	School Nurses, Not Special Education Specific
All Other Staff	Paraprofessional – General Education
All Other Staff	Librarian/Media Specialist

All Other Staff	Library/Media Support Staff
All Other Staff	LEA Administrator
All Other Staff	Instructional Coordinator and Supervisor
All Other Staff	LEA Administrative Support Staff
All Other Staff	School Administrative Support Staff
All Other Staff	Student Support Staff
All Other Staff	Other Support Staff

Downloading Data

The download button is in the top right-hand corner of the application. The application provides the following three options when the **Download** button is clicked:

- Blank Templates:** Downloads a template containing no pre-populated data. Blank templates have multiple sheets; do not modify the sheet names.
- Current Data:** Downloads a file that contains the data as it is currently in the application. When filters are applied in the All Staff page, the Current Data file downloads only filtered data, as highlighted in each section on Filters. Downloading filtered data is useful for analyzing a subset of data. **Download data without any filters if you want to use the downloaded file to update and import back into the application.**
- Last Year's Data:** Downloads a file that contains the faculty and staff data certified by the LEA in data validation in the previous year. Last year's data file is provided as a reset option for LEAs in case the user is not sure about the quality/content of the current data and wants to start from the beginning again. Last year's data file does not include any updates.

Each Excel spreadsheet downloaded from the application includes two columns added to the end of the sheet as defined below. Please read carefully, as the information provided may impact your ability to import revised data into the system.

- Column-Level Validations (These errors will prevent the user from importing the file)**—The column lists missing or invalid data errors and inconsistent data errors for the staff record. The user should review the error information and correct the data in the file. **The user cannot import the file into the application if the error is not corrected.**
- Data Error Reports (These errors will NOT prevent the user from importing the file)** – The column lists all other data errors for the staff record, such as Unable to assign UFSI, High FTE Percentage, and Certification errors. The user should review and correct the data, but the user doesn't need to correct these errors to be able to import the file.

1	2	3
Performance Ratings		
Previous School Year Below Effective Evaluation Rating	Column Level Validations (These errors will prevent the user from importing the file)	Data Error Reports (These errors will NOT prevent the user from importing the file)
Yes, if value in 'Returning Employee' field is not 'New Employee'		
Yes, if value in 'Returning Employee' field is not 'New Employee'		
Yes, if value in 'Returning Employee' field is not 'New Employee'		
Yes, if value in 'Returning Employee' field is not 'New Employee'		
Option Set - single select		

Figure 12: Error Messages in downloaded file

Import Data

The **Import** button is in the top right-hand corner of the application. Follow the steps outlined below to import data:

1. Click on **Import New File**.
2. Select the file you wish to import.
3. Read the content in the pop-up window. This feature is added to ensure the user understands that the application **replaces the current data** with newly imported data.
4. Enter the word **IMPORT**, then press **Ok** to start the import.

The user cannot modify existing records when the import is in progress.

The application displays the message in a **red** banner at the top of the page, stating, "Import in Progress. An import has been started. While the import is in progress, existing records cannot be modified." When one user starts the import, the application displays the same red banner to all users at the same LEA and redirects other users to the homepage. The banner disappears after the import is complete.

Figure 13: Import Button

Figure 14: Red banner indicating file import is in progress

Once the import is complete, a log appears on the Import Panel. The log indicates the user's name that imported the file, a timestamp and a **Download** button (↓). The application maintains historical logs in the Import Panel to allow the user to retrieve any file that was imported at any time in the past.

The application provides two options when the **Download** button is clicked.

1. **Imported File:** The imported file is the same one the user imported.
2. **Results File:** The results file is also the same file that the user has imported, with two additional pieces of information:
 - a. **Import Results Sheet:** The Import Results Sheet becomes the first sheet in the file. It indicates whether the Sheet Names Validation and Data Validation checks have passed or failed.
 - i. **Sheet Names Validation:** The sheet names in the imported file must match the sheet names in the template. The sheet names in the template are Teacher Data, PP, Admin, RSPs, All Other Staff, and Vacancy Data. If the user updates the sheet names in the imported file, the application fails the Sheet Names Validation check.

- ii. **Data Validation:** The Data Validation check is passed when the staff and vacancy data are complete and valid. If there are errors, it displays the number of records with errors in each sheet.
- b. **Column-Level Validations:** When data validation checks fail, the application indicates what caused the error by adding a **Column-Level Validations** column in each of the sheets.

The application imports the data only when both **Sheet Names** and **Data Validations** pass.

When the import fails, the log in the Import Panel has a **red** alert flag icon.

When the import is successful, the log in the Import Panel has a **green** flag icon, and the data in the application are refreshed.

If your import fails, download the Results file, correct the data by reviewing the **Import Results Sheet** and **Column-level validations** column, and import the file back into the application.

Deleting Faculty and Staff

All staff members' positions are listed in a table on the All Staff page. Follow these steps when deleting positions:

1. When the **Edit** button is clicked for the position record, the application opens the staff member's position page.
2. Click the **Delete** button.
3. To confirm the deletion of the staff position, click **Yes**.

Deleting Teachers Reported in the Previous Year

For teacher federal roles, the application allows users to delete positions if at least one teacher position remains for that staff member. When the user tries to delete the last teacher position, the application shows a message that ***"The LEA has reported the staff member as a teacher in the previous year's data validation. This position should not be deleted as LEAs are required to report Leave date and Previous Year Below Effective Evaluation Ratings for teachers."***

Deleting Non-Teachers Reported in the Previous Year

For non-teacher federal roles, the application allows users to delete positions if at least one position remains for that staff member. When the user tries to delete the last position, the application shows a message that ***“The LEA has reported the staff member in the previous year's data validation. The staff member should not be deleted as LEAs are required to report the Leave date if the staff member is no longer with the LEA.”***

Vacancy Page

LEAs are required to report vacant teacher positions by school, subject, and federal role as of Oct. 5, 2026. The Vacancy page displays all vacant teacher positions the LEA has entered for the current school year. It has several functions that include filters, adding new vacancies, editing vacancies, deleting vacancies, and downloading/importing data.

The Vacancy page can be accessed by clicking on it on the dashboard. Clicking on the Vacant FTE KPI on the Summary page also takes the user to the Vacancy page.

Figure 16: Vacancy Page

Filters

The Vacancy page contains filters allowing users to search vacancy data by federal role, school, and subject.

Updating Vacancy Data

Like faculty and staff data, the application provides two methods for the LEA user to update and submit vacancy data to OSSE.

User Interface

Below are the steps to add a vacancy through the user interface.

1. Click on the **Add New** and select the **Vacancy** button.

Figure 17: Add New Vacancy button

2. Complete the Vacancy form.
3. Check for errors. Check for errors by checking for the **alert icon** (🚫) or green check box (✅) in each section. Refer to [Appendix B: 2026 Data Element Descriptions and Allowable Values](#) for the list of error messages.
4. Click on the **Save** button. (Only enabled when there is no missing or invalid data in the form.)

Figure 18: Vacancy Form

File Import

Vacancies are uploaded using the same Excel template as other faculty and staff data. See the [import guidelines](#) for more information.

Editing Vacancies

1. Click the **Edit** button (✎) to the left of the vacancy record on the Vacancy page to open it.
2. Update the data as needed.
3. Check for errors (see Step 3 in the previous section).
4. Click the **Save** button.

Deleting Vacancies

1. Click the **Edit** button (✎) to the left of the vacancy record on the Vacancy page to open it.
2. Click on the **Delete** button.
3. Select **Yes** after reading the pop-up window asking the user to confirm that they want to delete the current vacancy.

4. The vacancy record is deleted, and the Vacancy page appears with refreshed data.

LEAs without Vacancies

If the LEA has no teacher vacancies, the LEA can simply check the box to indicate that there are no teacher vacancies at the LEA. When the LEA checks the box but subsequently adds a vacancy, the application automatically unchecks the box.

Other Reports Page

Any error associated with a staff record is displayed on the All Staff page. However, any report that is generated because of the non-existence of data or the existence of duplicates in the LEA roster is also displayed on the Other Reports page. The Other Reports page can be accessed by clicking on the Other Reports page on the dashboard. Clicking select data error and anomaly reports on the Summary page also takes the user to the Other Reports page. Reports can be filtered by school and the type of error or anomaly.

Reference the [Data Error and Data Anomaly Reports section](#) for more details.

Figure 19: Other Reports Page

Appendix A: Summary Page KPIs

The Summary page displays the following KPIs, tables, and bar charts:

- The **Teacher Headcount** KPI displays the unique count of teachers at the LEA.
- The **SA/RSP/SPED Para Headcount** KPI displays the unique staff count with the LEA's school-level administrator and special education support federal role types.
- The **All Other Staff Headcount** KPI displays the unique count of staff with All Other Staff Federal Role Type at the LEA.
- The **Leaver-LEA Headcount** KPI displays the unique count of faculty and staff with Returning Status = *Leave*. The KPI excludes staff with no UFSI.
- The **Teacher Vacancy FTE** KPI displays the sum of FTE reported for teacher vacant positions for the LEA.
- The **Total EL Teacher Headcount** KPI displays the unique count of faculty and staff where the sum of EL FTE reported in the EL FTE field is greater than 0. The **EL Certified %** KPI is calculated using the logic below.

$$\frac{\text{Unique count of staff where the value in the EL FTE field is greater than 0 AND EL Certification Status = Yes}}{\text{Unique count of staff where the value in EL FTE field is greater than 0}}$$

- The **SPED Certified %** KPI is calculated using the logic below.

$$\frac{\text{Unique count of staff where Special Education Teacher = Yes AND Special Education Certification Status = Yes}}{\text{Unique count of staff where Special Education Teacher = Yes}}$$

- The **Teacher Novice %** KPI is calculated using the logic below.

$$\frac{\text{Unique count of staff where Federal Role Type = Teacher AND Novice = Yes}}{\text{Unique count of staff where Federal Role Type = Teacher}}$$

- The **Teacher In-field %** KPI is calculated using the logic below.

$$\frac{\text{Unique count of staff where Federal Role Type = Teacher AND In – field = Yes}}{\text{Unique count of staff where Federal Role Type = Teacher}}$$

- The **Teacher Effective %** KPI is calculated using the logic below.
$$\frac{\text{Unique count of staff where Federal Role Type = Teacher AND any Previous School Year Below Effective Evaluation Rating = Effective (in any of their teacher records)}}{\text{Unique count of Previous School Year Below Effective Evaluation Ratings for staff where Federal Role Type = Teacher}}$$
- The **Teacher % Certified** KPI is calculated using the logic below.
$$\frac{\text{Unique count of staff where Federal Role Type = Teacher AND DC License or Cerification status = Yes}}{\text{Unique count of staff where Federal Role Type = Teacher}}$$
- The **Teacher Retention Rate at School** KPI is calculated using the logic below.
$$\frac{\text{Unique count of staff where Federal Role Type = Teacher AND FTE for all roles} \geq .5 \text{ in both the previous and current school years who work at the same school}}{\text{Unique count of staff where Federal Role Type = Teacher AND FTE for all roles} \geq .5 \text{ in the previous school year}}$$

Appendix B: Data Element Descriptions and Allowable Values

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
Staff Member Identifiers and Demographic Information	Unique Faculty and Staff Identifier (UFSI)	The staff member’s unique identifier provided by OSSE.	No	• Teacher • PP/Admin/RSPs • All other staff	Data Quality	N/A	
Staff Member Identifiers and Demographic Information	Last Name	The legal last name of the faculty or staff member.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI	<Open text>	Error Scenario: Missing data Error Message: Last Name is required. Error Scenario: Full last name is not entered Error Message: Please enter Full Last Name.
Staff Member Identifiers and Demographic Information	First Name	The legal first name of the faculty or staff member.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI	<Open text>	Error Scenario: Missing data Error Message: First Name is required. Error Scenario: Full first name is not entered Error Message: Please enter Full First Name.
Staff Member Identifiers and Demographic Information	Middle Name	The legal middle name of the faculty or staff member.	No	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI	<Open text>	
Staff Member Identifiers and Demographic Information	Alias or Maiden Name	An alternate or maiden name of the faculty or staff member. Any additional names or previous names that the faculty or staff member may have had.	No	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI	<Open text>	
Staff Member Identifiers and Demographic Information	SSN	The last four digits of the staff member’s Social Security Number or the last four digits of	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI	<Numeric>	Error Scenario: Missing data Error Message: SSN is required. Error Scenario: Non-allowable value

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
		the staff member's Individual Taxpayer Identification Number (ITIN).					Error Message: Please enter the last four digits of SSN.
Staff Member Identifiers and Demographic Information	Local Staff ID	The ID assigned to your staff member by your internal system.	No	• Teacher • PP/Admin/RSPs • All other staff	N/A	<Open text>	
Staff Member Identifiers and Demographic Information	Date of Birth	The month, day and year on which the faculty or staff member was born.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data quality check and generation of UFSI	MM/DD/YYYY	Error Scenario: Missing data Error Message: Date of Birth is required. Error Scenario: Date of birth is not in MM/DD/YYYY format. Error Message: Date of Birth should be in MM/DD/YYYY format. Error Scenario: Date of Birth is outside the range of 15 years to 100 years when current age is calculated. Error Message: Age should be between 15 years and 100 years.
Staff Member Identifiers and Demographic Information	Gender	A coded value representing the staff member's reported gender.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI and Statewide report	• Male • Female • Non-binary • Unknown	Error Scenario: Missing data Error Message: Gender is required. Error Scenario: Non-allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
Staff Member Identifiers and Demographic Information	Race	The reported race of the faculty or staff member.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI and Statewide report	• American Indian/Alaskan Native • Asian • Black/African American • Two or More Races • Pacific Islander/Native Hawaiian • White/Caucasian • Other • Unknown	Error Scenario: Missing data Error Message: Race is required. Error Scenario: Non-allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.
Staff Member Identifiers and Demographic Information	Ethnicity	The reported ethnicity of the faculty or staff member.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality check and generation of UFSI and Statewide report	• Hispanic • Not Hispanic • Unknown	Error Scenario: Missing data Error Message: Ethnicity is required. Error Scenario: Non-allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.
LEA and School Information	LEA Name	The name of the local education agency (LEA) the staff member serves.	Yes	All	All federal and local reports	<Character> Select LEA Name from the drop-down menu.	
LEA and School Information	LEA Code	The unique OSSE-assigned identifier for the LEA.	N/A	All	All federal and local reports	<Character> Select LEA Code from the drop-down menu.	Error Scenario: Missing data Error Message: LEA Code is required. Error Scenario: Invalid LEA Code Error Message: Invalid LEA Code. Please only

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
							select LEA codes from the dropdown menu in the LEA Code Field.
LEA and School Information	School Name	The name of the school the staff member serves.	Yes	All	All federal and local reports	<Character> Select School Name from the drop-down menu.	
LEA and School Information	School Code	The unique OSSE-assigned identifier for the school the staff member serves.	N/A	All	All federal and local reports	<Numeric> Select School Code from the drop-down menu.	Error Scenario: Missing data Error Message: School Code is required. Error Scenario: The school code is not associated with the LEA. Error Message: Invalid School Code. Please select school codes only from the dropdown menu in the School Code Field. Error Scenario: User has selected Not Applicable value for the School Name field when the federal role is any of the following: - Teacher, Adult; - Teacher, Elementary (grades 1-6); - Teacher, Kindergarten; - Teacher, Pre-School and Pre-Kindergarten (grades PS and PK); - Teacher, Secondary (grades 7-12); - School Administrator - Principal/School Leader (designate ONE per school);

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
							• School Administrator - Other; Paraprofessional – Special Education; • Instructional Coach – Literacy • Instructional Coach – Math • Instructional Coach – Other Subjects/Multiple Subjects • Paraprofessional – General Education; and • School Administrative Support Staff. Error Message: Not applicable is not a valid school value for the selected Federal Role. Error Scenario: LEA has reported a staff member as 'Returner', 'New Employee', or 'Transfer with FTE>0' for a closed school. Error Message: The school is in closed status for the current school year. If the Staff member is with the LEA for the current school year, please provide the staff member’s current School Name and School Code. If the staff member is not employed with the LEA for the current school year, please update returning employee status to ‘Leaver-LEA’. If the Staff member is with the LEA but no longer serves at the school, please update returning employee status to ‘Transfer – New School/Federal Role/Subject and FTE Percentage to 0’.

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
Returning Status	Returning Employee	The staff member's returning status.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Statewide retention analysis report	• Returner • Transfer- New School/ Federal Role/ Subject • Leaver- LEA • New Employee	Error Scenario: Missing data Error Message: Returning Employee is required. Error Scenario: Non-allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.
Returning Status	Leave Date	The employees’ last day of employment at the LEA.	Only required when returning employee value is Leaver-LEA	• Teacher • PP/Admin/RSPs • All other staff	Statewide retention analysis report	MM/DD/YYYY	Error Scenario: Returning Status is 'Leaver-LEA' and Leave date is blank. Error Message: Leave date is required when Returning Employee is Leaver-LEA. Error Scenario: Leave Date is not in MM/DD/YYYY format. Error Message: Leave date should be in MM/DD/YYYY format. Error Scenario: Leave date is after audit date of Oct 5 of the current school year, or the following Monday if Oct. 5 is a weekend. Error Message: Leave date should not be after audit date. Error Scenario: Staff member has ‘Leave Date’ entered when “Returning Employee” field has a value other than “Leaver-LEA”. Error Message: Staff member’s returning status is not Leaver LEA, but Leave date is entered. Error Scenario: Leave date is prior to Start

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
							date. Error Message: Leave date should not be prior to LEA Start Date.
Returning Status	LEA Start Date	The month, day, and year the employee started at the LEA.	Yes	• Teacher • PP/Admin/RSPs • All other staff	Data Quality	MM/DD/YYYY	Error Scenario: Missing data Error Message: LEA Start Date is required. Error Scenario: LEA Start Date is not in MM/DD/YYYY format. Error Message: LEA Start Date should be in MM/DD/YYYY format. Error Scenario: LEA Start Date field is after audit date. Error Message: Include only staff that are employed as of audit date of Oct. 5 of the current school year or the following Monday if Oct. 5 falls on a Saturday or Sunday.
Federal Role	Federal Role	The employee's federal role as per the definitions in the Common Core of Data's (CCD's) Definitions of Staff Categories document.	Yes	All	Data quality; Federal Teacher Shortage Areas Report; EdFacts; Statewide retention analysis report; DC School Report Card	• Teacher, Adult • Teacher, Elementary (grades 1-6) • Teacher, Kindergarten • Teacher, Pre-School and Pre-Kindergarten (grades PS and PK) • Teacher, Secondary (grades 7-12) • School Administrator - Principal/School	Error Scenario: Missing data Error Message: Federal Role is required. Error Scenario: Non-allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.

							to Yes, 'Teacher Years of Teaching Experience' = 1 and Previous School Year Evaluation Rating = Effective. Error Message: Teacher should not be identified as Novice when Years of Teaching Experience is 1 and Previous School Year Evaluation Rating is Effective.
Years of experience	Principal Experience	The indication of the principal's experience as a principal.	Only required if federal role is "School Administrator - Principal/School Leader (designate ONE per school)"	PP/Admin/RSPs	Statewide retention analysis report	• The current principal was in the same role last year • The current principal is new to the role this year, new to the school, and new to the LEA • The current principal is new to the principal role, but not new to the school (e.g., was assistant principal or an instructional coach last year) • The current principal is new to the role, and worked in a different school in the LEA last year	Error Scenario: Missing data Error Message: Principal Experience is required. Error Scenario: Not allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set. Error Scenario: When there is a value in Principal Experience field for a federal role for which Principal Experience field is not applicable. Error Message: This data element is not necessary for the selected federal role. Please leave the field blank.
Years of experience	Teacher Years of Teaching Experience	The years as a full-time teacher of record, not	Required for teacher federal role type.	Teacher Instructional Coach	DC School Report Card; EdFacts	<Numeric (whole number)>	Error Scenario: Missing data Error Message: Teacher Years of Teaching Experience is required.

Section Name	Column Name	Description	Is this metric required?	Collection Template	Data Use	Allowable values in the collection tab	Error Scenarios and Error Messages
		including the 2026-27 school year.					Error Scenario: Teacher Years of Teaching Experience’ field is not a whole number. Error Message: Include years as a full-time teacher of record, not including this year. Please report the truncated number. For example, if years of experience is 1.8, report 1. Note: For pre-populated data we have already adjusted the values. LEAs should review any pre-populated data and update it so that it reflects the audit date of Oct. 5 of the current school year or the following Monday if Oct. 5 falls on a Saturday or Sunday.
Years of experience	Years of School Administrator Experience	The years as a full-time school administrator for anyone listed with a federal role of School Administrator. Years as an Instructional Coach count toward years of school administrator experience.	Only required if federal role is ‘School Administrator - Principal/School Leader (designate ONE per school)’, ‘School Administrator - Other’, Instructional Coach – Literacy, Instructional Coach – Math, Instructional	PP/Admin/RSPs	DC School Report Card; EdFacts	<Numeric (whole number)>	Error Scenario: Missing data Error Message: Years of School Administrator Experience is required. Error Scenario: When the data in ‘Years of School Administrator Experience’ field is not a whole number. Error Message: Include years as a full-time school administrator for anyone listed with a federal role of “School Administrator.” Do not include this year. Please report the truncated number. For example, if years of experience is 1.8, report 1. Note: for pre-populated data we have already adjusted the values. LEAs should review any pre-populated data and update it so that it reflects the audit date of Oct 5 of the current school year or the following Monday if Oct. 5 falls on a Saturday

			'Special Education Support Staff, Orientation and Mobility Specialist', and 'Special Education Support Staff, Recreation and Therapeutic Recreation Specialist'.				
Performance Ratings	Previous School Year Evaluation Rating	The indication for whether the teacher earned an evaluation rating below “effective” on the LEA's evaluation system for the previous school year.	Only required when Federal Role Type is 'Teacher' and Returning employee is not 'New Employee'	Teachers (Leavers Included)	Teacher Equity Calculations; Educator Preparation report	- Below Effective - Effective - Not Rated	Error Scenario: Missing data Error Message: Previous School Year Evaluation Rating is required when Federal Role Type is 'Teacher' and Returning employee is not 'New Employee'. Error Scenario: Not allowable value Error Message: Data entered is not an acceptable value for the data field. Please choose a value from the option set.

Appendix C: Data Errors and Anomalies

This section is for support addressing data errors and anomalies. LEAs should check the **Frequently Asked Questions section** to see if their issues are addressed there and continue to the **Data Errors and Anomalies tables** if they need more information.

The **Data Errors and Anomalies tables** include:

- Descriptions of each error and anomaly
- Information on how long the system takes to generate each error/anomaly
- The effect on the LEA's ability to upload and certify data on Certification Day (errors)
- Suggested next steps

Frequently Asked Questions

1. We were unable to resolve errors that prevent LEAs from certifying their data before Certification Day. What are our next steps?

In this scenario, LEAs will have to appeal to correct their data submission. In the event an LEA needs to appeal for more during the appeals window, the LEA must write a letter addressed to Superintendent Antoinette S. Mitchell, Ph.D. (Antoinette.Mitchell@dc.gov) requesting to appeal and outlining reasons why they want to do so by **Monday, Nov. 16**. The LEA should also email the letter to Celina Ketelsen, Interim Assistant Superintendent of Teaching and Learning (Celina.Ketelsen@dc.gov), and fsdatacollection@dc.gov.

2. Why is the system showing a Duplicate Staff error when I only added a new *position* for a staff member?

[This can only occur if the LEA manually adds a record in the application.] The system creates a Duplicate Staff error when more than one staff profile (not position) exists for a staff member. LEAs should check to ensure they only create a new position when adding positions instead of creating an entirely new profile.

3. What should I do if the system shows a Duplicate Staff error but will not let me manually delete a teacher record in the application?

- **Before Monday, Oct. 26:** LEAs should reupload their data using the application's import function.
- **After Monday, Oct. 26:** LEAs should change the teacher's last name in the duplicate profile to **DELETE** in all caps so that OSSE staff can identify and delete the duplicate.

4. Why is the application showing a High FTE Percentage error when none of the records for a staff member exceed 1.2?

The High FTE Percentage error flags when the cumulative FTE across all a staff member's records exceeds 1.2. LEAs should add the FTE across a staff member's records to ensure it does not exceed 1.2.

5. The system shows Missing or Invalid Data errors, but it is unclear which fields are missing or invalid.

The application will only show which **records** are affected by missing and/or invalid data. To find out which **fields** for each record are missing and/or invalid, please download your ["Current Data"](#) or a Results file from [your last upload](#) and navigate to the "Column Level Validations" column at the end of each data sheet for more information about which row has an error and in what field.

Tip: LEAs can filter their "Column Level Validations" column to isolate rows with data issues.

6. A teacher left the school at the end of last year, and I am receiving a Missing Teacher Record from the Previous Year error. Why do I need to include them in the collection?

Every teacher included in last year's Faculty and Staff Data Collection – including leavers – needs a **teacher** record in the current year's collection so OSSE can track evaluation ratings from the end of the previous school year. If a teacher in last year's collection left the LEA before Oct. 5, include a teacher record and mark their returning status as "Leaver" with an FTE of 0.

7.
A teacher was promoted to a different role at our school this year, but I included a record for them in their new role. Why am I receiving a **Missing Teacher Record from Previous Year** error?
- Every** teacher included in last year’s Faculty and Staff Data Collection – including transfers – needs a **teacher** record in the current year’s collection so OSSE can track evaluation ratings from the end of the previous school year. If a teacher in last year’s collection moved to a different role at the LEA, include a teacher record and mark their returning status as “Transfer” with an FTE of 0.
8.
Why am I receiving an **Unable to Assign UFSI Data error** for a record if the record's first name, last name, date of birth, and social security number are correct?
- UFSIs are assigned every two hours by OSSE; therefore, when an LEA enters a new staff member, the UFSI is null, and the application displays this error. There is no action needed by the LEA at this time. LEAs must review the data if the error persists for two hours.

Data Errors

Error Name	Description	Time for System to Generate Error	Prevents Upload	Prevents Certification	Suggested Action
Duplicate Position Error	Teacher: The staff member has two or more records with the same federal role, school, and subject. Non-Teacher: The staff member has two or more records with the same federal role and school.	Real-time	✓	✓	The LEA should review the staff member’s record and delete or update the position.
Duplicate Staff Data Error	The Duplicate Staff Data Error is generated when more than one staff member has the same UFSI within the LEA.	Real-time if the staff record has UFSI. Two hours, if a staff record does not have UFSI.	-	✓	The LEA should review the roster and delete duplicate profile records. If the system will not permit deletion, LEAs should change the teacher's last name in the duplicate profile to DELETE in all caps so that OSSE staff can identify and delete the duplicate.
Grade Spans with No Reported Teachers Data Error	The application generates Grade Spans with No Reported Teachers Data Error when the grade spans the LEA serves do not have any reported teachers in the respective grade spans. Note that this error is verified at the LEA-level and not the school-level.	Real-time	-	✓	The LEA should review the faculty and staff roster and add teachers with the federal roles within the LEA's reported grade band. If the reported grade band is incorrect, the LEA should have an Entity Management Information (EMI) form sent to OSSE by the Public Charter School Board (PCSB) or DC Public Schools (DCPS).
High FTE Percentage Data Error	The High FTE Percentage Data Error is generated when the sum of a staff member’s total FTE percentage across all their positions is greater than 1.2.	Real-time if the staff record has UFSI.	-	-	The LEA should review the Full Time Employment (FTE) Percentage column for all the staff member’s positions and update the data to ensure it adds up to a number between 0 and 1.2.

Error Name	Description	Time for System to Generate Error	Prevents Upload	Prevents Certification	Suggested Action
		Two hours if the staff does not have UFSI.			
Inconsistent Data Error	A staff member has multiple records, and the data are inconsistent across records for the following fields: • Gender • Race • Ethnicity • Leave Date • Returning Status • LEA Start Date • OSSE Special Education Certification Status • OSSE EL Certification Status • Novice Teacher • Teacher Years of Teaching Experience • Years of School Administrator Experience • Highest Education Attained • Highest Degree Field or Major • Previous School Year Evaluation Rating	Real-time	-	✓	The LEA should review the staff member’s record and update the data.
Missing Dual Language Program Data Error	The Missing Dual Language Program Data Error is generated if a school within the LEA offers a dual language program and has not reported any dual language teachers.	Real-time	-	✓	The LEA should review the roster and accurately identify dual language teachers in the Dual Language Instruction section.
Missing or Invalid Data Error	A record has a missing required field or data submitted in an incorrect format.	Real-time	✓	✓	The LEA should refer to Appendix B: 2026 Data Element Descriptions and Allowable Values for a list of required fields and formats, and adjust records accordingly. Submitting a record without one of these fields or in the wrong format will trigger a Missing or Invalid Data Error. The application will only show which records are affected by missing and/or invalid data. To find out which fields for each record are missing and/or

Error Name	Description	Time for System to Generate Error	Prevents Upload	Prevents Certification	Suggested Action
					invalid, please download your “Current Data” or a Results file from your last upload and navigate to the “Column Level Validations” column at the end of each data sheet for more information about which row has an error and in what field. Tip: You can filter your “Column Level Validations” column to isolate rows with data issues.
Missing Teacher Record from Previous Year	The Missing Teacher Record from the Previous Year is generated when a staff member reported as a teacher in the previous school year’s collection is not included in the current collection.	Real-time	-	✓	LEAs should review the report, add the staff members previously reported as teachers to the application, and provide the leave date and the Previous School Year Evaluation Rating.
Schools with No Reported Teachers Data Error	The Schools with No Reported Teachers Data Error is generated when any schools listed under the LEA’s current list of schools do not have any reported teachers.	Real-time	-	✓	The LEA should add teacher records to the roster for that school.
Schools with No Students and have Reported Teachers Data Error	The Schools with No Students and has Reported Teachers Data Error is generated when a school reports teachers but has no Stage 5 enrolled students in OSSE data systems.	Real-time	-	✓	This error can be resolved if the LEA reassigns everyone with the federal role Teacher to the federal role Student Support Staff-Other.
Teacher Federal Role and Grades Served Mismatch Data Error	The application generates a Teacher Federal Role and Grades Served Mismatch Data Error when the LEA reports a federal role/grade span for a grade span it does not serve. Note that this error is verified at the LEA level, not the school level.	Real-time	-	✓	The LEA should review the roster and update the federal role for the teachers with the federal role for a different grade band than what the LEA serves. If the grade band is incorrect, the LEA should have an EMI form sent to OSSE by PCSB or DCPS.
Unable to Assign UFSI Data Error	The Unable to Assign UFSI Data Error is generated when OSSE cannot assign a UFSI to a staff member due to missing or invalid data. OSSE requires the following information to create a UFSI: - First Name; - Last Name;	System checks once every two hours	-	✓	The LEA should ensure that the First Name, Last Name, Date of Birth, and SSN are complete and accurate. NOTE: UFSIs are assigned every two hours by OSSE; therefore, when an LEA enters a new staff member, the UFSI is null, and the application displays this error. There is no action needed by the LEA at this time. LEAs must review the data if the error persists for two hours.

Error Name	Description	Time for System to Generate Error	Prevents Upload	Prevents Certification	Suggested Action
	• Date of Birth; and • Last four digits of Social Security Number (SSN)				
Vacancy Data Not Reported Data Error	The Vacancy Data Not Reported Data Error is generated if the LEA has not reported any vacancies and has not checked the box on the Vacancy page indicating that there are no vacancies at the LEA.	Real-time	-	✓	The LEA should review the Vacancy Page and update vacancy information.
Unconfirmed Teacher Evaluation Ratings	The Unconfirmed Teacher Evaluation Ratings error is generated when the LEA does not confirm its submission of accurate teacher evaluation data by checking the checkbox at the top of the application window.	Real-time	-	✓	Review your reported teacher evaluation data and then check the box at the top of the application.

Data Anomalies

Anomaly Name	Description	Time for System to Generate Anomaly	Suggested Action
Missing EL Teachers Data Anomaly	The Missing EL Teachers anomaly is generated for any LEA that receives Title III funds, but the sum for the EL FTE field for a school listed under the LEA equals zero.	Real-time	LEAs should review the roster and ensure the EL FTE field for EL teachers is accurate.
Missing Principal/School Leader Data Anomaly	The Missing Principal/School Leader Data Anomaly occurs when a school listed under the LEA does not have anyone with a federal role of School Administrator— principal/School Leader and/ or School Administrator— other.	Real-time	LEAs should review the report and add staff members with school administrator federal roles to the application.
Missing Related Service Providers Data Anomaly	The Missing Related Service Providers anomaly is generated for any school with students with disabilities with Stage 5 enrollment in SLED and prescribed services as of Oct. 5 of the current school year in the Special Programs system but has not identified anyone with the federal role of Special Education Support Staff.	Real-time	LEAs should add Special Education Support Staff to the roster.

Missing Special Education Teacher Data Anomaly	The Missing Special Education Teacher anomaly is generated for any LEA that receives IDEA funds, but a school within the LEA does not have anyone identified as a Special Education Teacher.	Real-time	LEAs should review the roster and ensure the Special Education Teacher field is accurate.
Missing Student Support Staff	The Missing Student Support Staff anomaly is generated for any school with Stage 5 enrollment in SLED as of Oct. 5 of the current school year but has not identified anyone with the federal role of Student Support Staff.	Real-time	LEAs should add Student Support Staff to the roster.
