* Final allocations will be made in summer 2021 after data is available for SY2021-22 new or significantly expanding public charter schools (NOSEPCS). New or significantly expanding public charter school LEAs can anticipate an increase to their final allocation based on student count and Title I, Part A defined poverty rate. All LEAs may have minor adjustments to final allocations.

** An LEA must reserve not less than 20 percent of its total ARP ESSER allocation to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.
