FREQUENTLY ASKED QUESTIONS (FAQS)

I don't see the school name or address of the nonpublic school my child attends. Why not?

There are two possible answers to this question:

1. The nonpublic school may not be on our certificate of approval (COA) list, meaning the school is not currently certified by OSSE. Schools on OSSE's approved COA list are eligible to receive educationally placed students through the individualized education program (IEP) process. If your child's school is not listed here, then more than likely your child was placed through a different District agency or through a Hearing Officer Determination.
2. The profiles are aggregates for the schools as a whole. Many of the nonpublic schools have multiple locations (sometimes referred to as campuses) with varying programs. We have only included the main address in the profile. The reason for this is that when OSSE collected student data from each of the COA-approved nonpublic schools, we asked for aggregate data for all of their locations/campuses. However, if you would like to see a list of the schools and campuses currently approved by OSSE with addresses, disabilities and grades served, please refer to OSSE's approved nonpublic school list found [here](#) on our website. You can also visit the [website](#) for the nonpublic school for more extensive information.

The capacity of the nonpublic school seems higher than what I have seen at the school. Why is that?

The capacity number included in the profile reflects the school's reported maximum capacity. At any given time, the actual enrollment at the school may be lower than the school's maximum capacity.

What is included in the Program Offerings section?

Nonpublic schools were given the opportunity to provide a brief narrative description on their program offerings. For more extensive information on nonpublic schools' program offerings please visit their respective websites. Please note that OSSE included program descriptions to provide parents and IEP teams with information to aid in planning for students' educational program. OSSE does not endorse the specific claims made by nonpublic school programs in their program descriptions.

What's included in the Reported Incidents section?

This is a self-reported section of the Nonpublic Profile. The nonpublic schools submitted information to OSSE on student aggregate data regarding behavior incidents.

What is the different between "DC Students" vs. "All Students"?

Almost all of the schools listed on OSSE's Approved Nonpublic School List accept students from other jurisdictions. When looking at the program capacity, it is important to remember this.

DEFINITIONS

Instructional Hours Per Day - Per District of Columbia Municipal Regulations a nonpublic school is required to provide a minimum of 6 hours of instruction per day for a minimum of 180 days, totaling 1,080 instructional hours.

Physical Restraint - The use of bodily force to limit a student's freedom of movement. The use of physical restraints is prohibited in all nonpublic special education schools and programs except in emergency circumstances, which are defined as circumstances that meet the following criteria: (a) The use of the restraint is included in the student's IEP to address specific behaviors under defined circumstances, and the use by appropriate staff is therefore consistent with the student's IEP; or (b) The intervention is necessary to protect the student or other person from imminent, serious physical harm; and other less intrusive, nonphysical interventions have failed or been determined inappropriate.(5 DCMR §A-2816.1)

Seclusion - The involuntary confinement of a student alone in a room or area from which he or she is physically prevented from leaving, or from which a student believes he or she may not leave, whether or not in a locked area. A nonpublic special education school or program shall not use any form of seclusion on a District of Columbia student unless it is an emergency, as defined in section 5 DCMR §A-2816.1. Use of seclusion as a policy or practice shall be grounds for denying or revoking a certificate of approval. (5 DCMR §A-2819.1)

Student:Teacher Ratio - Number of students per teacher. Some schools may have provided their student:staff ratio that included a teacher and non-instructional staff (e.g., instructional aide, teaching assistant, behavior staff, 1:1 support staff, etc.).
