2021-22 SCHOOL YEAR SCHOOL HEALTH PROFILES FORM

Healthy Schools Act of 2010

Under Section 602 of the *Healthy Schools Act of 2010* (L18-0209, DC Official Code § 38-826.02), each public school and public charter school within the District of Columbia is required to:

- 1.) **Complete and submit** the online School Health Profile (SHP) form to the Office of the State Superintendent of Education (OSSE).
- 2.) **Make the completed profile available to the public** by posting it online, if the school has a website, and making the information available to parents in the school's main office.

Any public school or public charter school that fails to complete and submit its SHP form to OSSE **on or before Feb. 15** of each year will be out of compliance with Section 602 of the Healthy Schools Act of 2010. The School Health Profile is used by OSSE to inform the School Report Card. Non-compliant schools will not include data from their School Health Profile on their School Report Card.

19a.	. What type of staff wellness initiatives does your school offer that contribute to a positive school climate?
	Organizational structures to support staff wellness (lactation rooms, welcoming break rooms, early dismissal days, opportunities to engage teacher voice and build trusting relationships, etc.)
	☐ Staff wellness events (retreats, wellness days, workshops, campaigns, etc.) to promote positive self-care skills like fitness, nutrition, stress management, etc.
	✓ Professional development (Trauma informed care, self-care, grief and loss, etc.)
	✓ Mental/Behavioral health services offered through an Employee Assistance Program or partnering community-based organization

Section 3: Health Education Instruction

Recommended point of contact for this section: Health Education Teacher, Physical Education teacher

Important Definitions for this Section:

<u>Health Education:</u> Formal, structured health education as defined by the Centers for Disease Control and Prevention consists of any combination of planned learning experiences that provide the opportunity to acquire information and the skills students need to make quality health decisions. Health education instruction of the District of Columbia Health Education Standards (DC Official Code § 38–821.01). The Healthy Schools Act requires an average of 75 minutes of health education per week for grades K - 8 (DC Official Code § 38–824.02).

Health Education Minutes (Grades 1-8): The average number of minutes per week during the school year that a student receives health education instruction. This average should only include time devoted exclusively to health education instruction that utilizes a health-specific curriculum. Do NOT include physical education instruction time in this figure. For this question, please indicate the average number of minutes per week that your school provides health education instruction to each grade level. Average number of minutes of health education instruction per week can range between 0 and 125 minutes.

Note: If your school provides more than 125 minutes of health education instruction in an average week, enter 125. If a student only receives health education for one semester or one quarter, please average the total weekly minutes for the whole school year.

Do you have questions regarding this calculation and need support? If so, please contact OSSE's Division of Health and Wellness here: OSSE.HYDT@dc.gov

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Health Education minute requirements. Schools that do not meet the required Health Education minutes will receive follow-up support from OSSE.

<u>Health Education Requirement (Grades 9-12):</u> According to the District of Columbia Municipal Regulations, prior to graduation, all students must have one and one half (1.5) Carnegie Units in Health/Physical Education.

Cardiopulmonary Resuscitation (CPR) Training: Cardiopulmonary resuscitation (CPR) is a lifesaving technique that is useful in many emergencies, such as a heart attack or near drowning, in which someone's breathing or heartbeat has stopped. District of Columbia public and public charter schools that serve grades 9 through 12 shall include cardiopulmonary resuscitation (CPR) instruction in at least one health class necessary for graduation. The instruction shall be nationally recognized and based on the most current evidence-based emergency cardiovascular care guidelines for resuscitation, include appropriate use of an automated external defibrillator (AED), and incorporate hands-on practice (DC Official Code § 38–824.02).

The following questions ask for the names and contact information for teachers who instruct 1) only health education, 2) only physical education, and 3) both health education and physical education at your school.

20.	How many	teachers instruct	only health	education in you	r school? (0-10)* (

Note: Please make sure teachers reported in questions 20, 21, and 22 are not counted for more than one time.

Section 4: Physical Education Instruction

Recommended point of contact for this section: Physical Education Teacher

Important Definitions for this Section:

<u>Physical Activity</u>: Physical activity means bodily movement, including walking, dancing, or gardening (DC Official Code § 38–821.01). Physical activity promotes normal and healthy growth and development. It can help reduce the risk of chronic disease and improve general health and overall daily function in people who do it regularly.

<u>Moderate-to-Vigorous Physical Activity</u>: Movement resulting in a substantially increased heart rate and breathing (DC Official Code § 38–821.01). This number should include the time that students are participating in moderate-to-vigorous physical activity. It should NOT include time devoted to administrative tasks, transitions, or breaks.

<u>Physical Education</u>: Physical education (PE) is instruction based on the District of Columbia Physical Education Standards, of which at least 50% of the time is spent in moderate to vigorous physical activity (DC Official Code § 38–821.01). As SHAPE America explains, "physical education provides students with a planned, sequential, K through 12 standards-based program of curricula and instruction designed to develop motor skills, knowledge and behaviors for active living, physical fitness, sportsmanship, selfefficacy and emotional intelligence."

<u>Recess and Outdoor Physical Activity</u>: Recess and outdoor physical activity is a regularly scheduled period in the school day for physical activity and play that is monitored by trained staff or volunteers. During this time, students are encouraged to be physically active and engaged with their peers in structured physical activities or activities of their choice, at all grade levels.

Legislative Requirements and Instructions:

<u>Physical Activity</u>: For students in grades K-8, it shall be the goal to provide 60 minutes of physical activity per day (DC Official Code § 38–824.01). For students in grades Pre-K3 and Pre-K4, schools shall provide an average of 60 minutes of physical activity per day, with a goal to provide 90 minutes of physical activity per day. (DC Official Code § 38–824.02). For this question, please indicate a daily average between 0 and 135 for grades Pre-K3 and Pre-K4.

<u>Physical Education Minutes</u>: The Healthy Schools Act sets requirements for physical education and physical activity by grade band. For students in grades K - 5, schools shall provide an average of 90 minutes of physical education per week, with a goal to provide an average of 150 minutes per week. For students in grades 6 - 8, schools shall provide an average of 135 minutes of physical education per week, with a goal to provide an average of 225 minutes per week. At least 50 percent of physical education time shall be spent-on-moderate to vigorous physical activity (movement resulting in substantially increased heart rate and breathing). (DC Official Code § 38–824.02).

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Physical Education minute requirements. Schools that do not meet the required Physical Education minutes will receive follow-up support from OSSE.

<u>Moderate-to-Vigorous Physical Activity Minutes</u>: For students in grades K-8, at least 50 percent of physical education time shall be spent on moderate-to-vigorous physical activity (DC Official Code § 38–824.02). For this question, please indicate a weekly average between 0 and 225 for grades K-5, and a weekly average between 0 and 300 for grades 6-8.

Recess and Outdoor Physical Activity:: Schools shall provide recess and outdoor physical activity for all students on a daily basis (weather and space permitting). For students in grades K – 8, it shall be the goal to provide at least one recess of at least 20 minutes per day. For students in grades Pre-K3 and Pre-K4, it schools shall be the goal to provide at least two 20-minute sessions of outdoor physical activity per day (DC Official Code § 38–824.02).

28. For each grade span in your school, please indicate the average number of minutes per week during the regular instructional school week that a student receives physical education instruction. This does NOT include recess or after school activities.*^

Section 5: School Nutrition and Local Wellness Policy

Recommended points of contact for this section: Food Services Director or Manager, Principal, Chair of School Wellness Council/Committee

Important Definitions for this Section:

Alternative Breakfast Serving Model: An alternative breakfast serving model is a model of serving breakfast, such as breakfast in the classroom (BIC) or breakfast on grab-and-go carts, in which breakfast is offered in one or more locations with high student traffic other than the cafeteria. With alternative breakfast serving models, breakfast is also available after the start of the school day or both before and after the start of the school day. The model must be proven to increase student participation in breakfast relative to the traditional serving model, in which breakfast is served in the cafeteria before the start of the school day. Other alternative serving models may be used but may require approval by OSSE.

<u>Local Wellness Committee</u>: An action-oriented advisory group that focuses on the health and wellbeing of students, staff, and families in a school community. The local wellness committee implements the local wellness policy and leads or supports health-related initiatives.

<u>Share Table</u>: A location where school community members can place an unopened or sealed foods to provide for other community members to take food that would otherwise be thrown away.

Section 6: Distributing Information

Recommended point of contact for this section: Principal, Business Manager, Director of Operations

Important Definitions for this Section:

LEA's Local Wellness Policy

<u>Sustainable Agriculture:</u> An integrated system of plant and animal production practices having a sitespecific application that will, over the long-term: (a) Satisfy human food and fiber needs; (b) Enhance environmental quality and the natural resources base upon which the agriculture economy depends; (c) Make the most efficient use of nonrenewable resources and on-farm resources and integrate, where appropriate, natural biological cycles and controls; (d) Sustain the economic viability of farm operations and (e) Enhance the quality of life for farmers and society as a whole.

<u>Vegetarian Food Option:</u> Food or beverages that are: (a) free of meat, poultry, and seafood; and/or (b) utilize a meat alternative recognized by the United States Department of Agriculture as a meat alternate free of meat, poultry, and seafood for the purposes of the National School Lunch Program. Schools shall have a vegetarian food optional available for students as a main course for breakfasts and lunches. Schools shall clearly label vegetarian food options and rotate the main course vegetarian food option to avoid repetition (DC Official Code § 38–822.01).

Section 7: Environment

Recommended point of contact for this section: Principal, Lead Science Teacher

Data from the School Health Profile will be used to complete the Environmental Literacy Indicator Tool, a biennial survey used to determine progress on environmental literacy goals in the Chesapeake Bay Watershed Agreement. In the future, compiled results will be available on the chesapeakebayprogress.com website.

Important Definitions for this Section:

School Gardens: outdoor spaces that engage students through hands-on lessons that enhance learning.

Meaningful Watershed Educational Experience (MWEE's): Provide students with a better understanding of the natural environment by connecting classroom learning with outdoor field investigations. MWEE's encourage students to define an environmental issue, investigate the issue by collecting data through outdoor field experiences, take action to address the environmental issue at the personal or societal level, and then analyze and evaluate the results of the investigation to communicate findings to an audience. More information about MWEE's can be found at https://bit.ly/3cM1utm.

<u>Environmental Literacy</u>: Environmental literacy is the development of knowledge, attitudes, and skills necessary to make informed decisions concerning the relationships among natural and urban systems. An environmentally literate person will ultimately understand how to take actions that respect, restore, protect, and sustain the health and well-being of human communities and environmental systems.

<u>Outdoor Learning</u>: Engaging in various activities outside during the school day and out of school time. Many school staff can visualize meals, recess, and physical activity taking place outdoors. Outdoor learning activities might include, but are not limited to, morning meetings, reading circles, lessons across all subject areas, and social-emotional learning.

Outdoor learning space: Any outside area where students and teachers can work together to learn, discuss, and explore. Outdoor learning spaces can be the temporary conversion of areas of school grounds, or it can be part of a larger initiative to create new outdoor teaching structures or enhance existing areas. The space can also be used for other school activities, such as meals, school-based behavioral health services, or student activity club meetings.

43. Does your school have an outdoor learning space?		
□ Yes		
✓ No		
43a. How many students are exposed to 10 or more hours of outdoor learning per school year?		
43b. How is your outdoor learning space	used for outdoor learning?	
Instruction

<i>E</i> 1	Do	es your LEA implement any practices related to sustainable, green schools? Select all that apply		
31.	_			
		School-wide Recycling Program		
	√	Lead testing of water		
		On-site Composting		
		LEED Certification Type: Silver Gold Platinum		
		Project Learning Tree Green Schools		
		National Wildlife Federation Eco-Schools		
		Environmentally-friendly cleaning products		
		Landscaping with native plants		
		Stormwater reduction efforts (i.e., rain barrels, cisterns, rain gardens)		
		Other:		
		None of these		
52.	Wh	nat type of recycling hauling services does your school receive? Select all that apply		
		Cardboard only		
	\Box	Paper and cardboard only		
		Mixed recyclables (plastic, metals, glass) only		
		Co-mingled paper, cardboard, and mixed recyclables together ("single-stream")		
		Organics		
		Other:		

	✓ None of these	
53.	Does your school compost? Select all that apply	
	☐ Yes, we participate in an organics recycling (off-site composting) program	
	☐ Yes, on-site outdoors (e.g. in garden)	
	Yes, on-site indoors (e.g. worm bin in classroom)	
	Other method:	
	✓ No, we don't compost	
54. Does your school promote the Environmental Protection Agency's Indoor Air Quality Tools for Schools Program to reduce exposure to environmental factors that impact asthma among children and adults in publischools?		
	✓ Yes	
	\square No	
55. Does your school purchase environmentally-friendly cleaning supplies?		
	✓ Yes	
	□ No	
56. Does your school cleaning/maintenance staff follow green cleaning procedures?		
	✓ Yes	
	□ No
