2022-23 SCHOOL YEAR SCHOOL HEALTH PROFILES FORM

Healthy Schools Act of 2010

Under Section 602 of the *Healthy Schools Act of 2010* (L18-0209, DC Official Code § 38-826.02), each public school and public charter school within the District of Columbia is required to:

- 1.) **Complete and submit** the online School Health Profile (SHP) form to the Office of the State Superintendent of Education (OSSE).
- 2.) **Make the completed profile available to the public** by posting it online, if the school has a website, and making the information available to parents in the school's main office.

Any public school or public charter school that fails to complete and submit its SHP form to OSSE **on or before Feb. 17** of each year will be out of compliance with Section 602 of the Healthy Schools Act of 2010. The School Health Profile is used by OSSE to inform the School Report Card. Non-compliant schools will not include data from their School Health Profile on their School Report Card.

Section 1: School Profile

This section includes your school's profile information as pulled from OSSE's authoritative database.

1.02 LEA ID *

Section 2: Health Services

Recommended point of contact for this section: School Health Professional and School Behavioral Health Professional .

The following section asks your school to provide information on the physical and behavioral health services provided to students, parents, and staff at your school.

2.01 Do you have nursing and/or allied health professional coverage in your school? *
⊙ Yes
O No
Please state the coverage of nursing and/or allied health professional coverage in your school.
Number of full time nurses * 1
Funding Source * Provided by DC Health
Number of part time nurses * 1
Funding Source * Other
Specify * OSSE
Number of full time allied health professionals * 0
Funding Source * NA
Number of part time allied health professionals * 0
Funding Source * NA
2.02 What type(s) of health services does your school offer to students? *
☐ Access and/or referrals to medical providers through a systematic process
Prevention materials and resources for chronic diseases
Screening, testing, and/or treatment for chronic diseases (diabetes, obesity, asthma, etc.)
On-site COVID-19 testing
Prevention materials and resources for sexually transmitted diseases (HIV/AIDS, gonorrhea, chlamydia, etc.)

Screening, testing, and/or treatment for sexually transmitted diseases (HIV/AIDS, gonorrhea, chlamydia, etc.)
Oral health services (dental screening, cleaning, counseling, etc.)
✓ Vision screenings
Hearing screenings
On-site COVID-19 vaccinations and routine pediatric immunizations
2.03 Does your school partner with any outside programs or organizations to provide health services to students?
⊙ Yes
O No
Please identify their name below (including community-based organizations, DC Health, etc.). *
☐ April May
☐ Catholic Charities
Department of Behavioral Health
OC Health
☐ WISE Center - MedStar Georgetown University Hospital
☐ Hillcrest Children and Family Center
☐ Howard University Hospital
☐ MBI Health Services
☐ Paving the Way MSI
☐ SMILE Therapy Services
Other
2.04 Does your school have at least two unexpired undesignated epinephrine auto-injectors? *
⊙ Yes
O No

2.05 Does your school have at least two employees or agents (outside of the school nurse) who are certified to

case of an anaphylactic emergency?
⊙ Yes
O No
Please provide the names of AOM (Administration of Medication) certified personnel at your school and whe they were certified, if applicable
First Name * Franchesca
Last Name * Carter
Email * Carterf@childrensguild.org
Date of Certification * 2/9/2022

Section 3: Health Education Instruction

Recommended points of contact for this section: Health Education teacher and Physical Education teacher. .

<u>Health Education</u>: Formal, structured health education as defined by the Centers for Disease Control and Prevention consists of any combination of planned learning experiences that provide the opportunity to acquire information and the skills students need to make quality health decisions. Health education instruction of the District of Columbia Health Education Standards (DC Official Code § 38–821.01). The Healthy Schools Act requires an average of 75 minutes of health education per week for grades K - 8 (DC Official Code § 38–824.02).

Health Education Minutes (Grades 1-8): The average number of minutes per week during the school year that a student receives health education instruction. This average should only include time devoted exclusively to health education instruction that utilizes a health-specific curriculum. Do NOT include physical education instruction time in this figure. For this question, please indicate the average number of minutes per week that your school provides health education instruction to each grade level. Average number of minutes of health education instruction per week can range between 0 and 125 minutes.

Note: If your school provides more than 125 minutes of health education instruction in an average week, enter 125. If a student only receives health education for one semester or one quarter, please average the total weekly minutes for the whole school year.

Do you have questions regarding this calculation and need support? If so, please contact OSSE's Division of Health and Wellness here: OSSE.HYDT@dc.gov.

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Health Education minute requirements. Schools that do not meet the required Health Education minutes will receive follow-up support from OSSE.

<u>Health Education Requirement (Grades 9-12):</u> According to the District of Columbia Municipal Regulations, prior to graduation, all students must have one and one half (1.5) Carnegie Units in Health/Physical Education.

Cardiopulmonary Resuscitation (CPR) Training: Cardiopulmonary resuscitation (CPR) is a lifesaving technique that is useful in many emergencies, such as a heart attack or near drowning, in which someone's breathing, or heartbeat has stopped. District of Columbia public and public charter schools that serve grades 9 through 12 shall include cardiopulmonary resuscitation (CPR) instruction in at least one health class necessary for graduation. The instruction shall be nationally recognized and based on the most current evidence-based emergency cardiovascular care guidelines for resuscitation, include appropriate use of an automated external defibrillator (AED), and incorporate hands-on practice (DC Official Code § 38–824.02).

Section 4: Physical Education Instruction

Recommended point of contact for this section: Physical Education Teacher

Physical Activity: For students in grades K-8, it shall be the goal to provide 60 minutes of physical activity per day (DC Official Code § 38–824.01). For students in grades Pre-K3 and Pre-K4, schools shall provide an average of 60 minutes of physical activity per day, with a goal to provide 90 minutes of physical activity per day. (DC Official Code § 38–824.02). For this question, please indicate a daily average between 0 and 135 for grades Pre-K3 and Pre-K4.

Physical Education Minutes: The Healthy Schools Act sets requirements for physical education and physical activity by grade band. For students in grades K - 5, schools shall provide an average of 90 minutes of physical education per week, with a goal to provide an average of 150 minutes per week. For students in grades 6 - 8, schools shall provide an average of 135 minutes of physical education per week, with a goal to provide an average of 225 minutes per week. At least 50 percent of physical education time shall be spent-on-moderate to vigorous physical activity (movement resulting in substantially increased heart rate and breathing). (DC Official Code § 38–824.02).

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Physical Education minute requirements. Schools that do not meet the required Physical Education minutes will receive follow-up support from OSSE.

Moderate-to-Vigorous Physical Activity Minutes: For students in grades K-8, at least 50 percent of physical education time shall be spent on moderate-to-vigorous physical activity (DC Official Code § 38–824.02). For this question, please indicate a weekly average between 0 and 225 for grades K-5, and a weekly average between 0 and 300 for grades 6-8.

Recess and Outdoor Physical Activity: Schools shall provide recess and outdoor physical activity for all students on a daily basis (weather and space permitting). For students in grades K – 8, it shall be the goal to provide at least one recess of at least 20 minutes per day. For students in grades Pre-K3 and Pre-K4, schools shall be the goal to provide at least two 20-minute sessions of outdoor physical activity per day (DC Official Code § 38–824.02).

4.01 For each grade span in your school, please indicate the average number of minutes per week during the regular instructional school week that a student receives physical education instruction. This does NOT include recess or after school activities.

Grades: K – 5 Minutes/Week * 45

Grades: 6 - 8 Minutes/Week * 120

4.02 Which physical education curriculum (or curricula) is your school currently using for physical education instruction?
