2023-24 SCHOOL YEAR SCHOOL HEALTH PROFILES FORM

Healthy Schools Act of 2010

Under Section 602 of the *Healthy Schools Act of 2010* (L18-0209, DC Official Code § 38-826.02), each public school and public charter school within the District of Columbia is required to:

- 1.) **Complete and submit** the online School Health Profile (SHP) form to the Office of the State Superintendent of Education (OSSE).
- 2.) **Make the completed profile available to the public** by posting it online, if the school has a website, and making the information available to parents in the school's main office.

Any public school or public charter school that fails to complete and submit its SHP form to OSSE **on or before Feb. 16** of each year will be out of compliance with Section 602 of the Healthy Schools Act of 2010. The School Health Profile is used by OSSE to inform the School Report Card. Non-compliant schools will not include data from their School Health Profile on their School Report Card.

Section 1: School Profile

This section includes your school's profile information as pulled from OSSE's authoritative database.

Section 2: Health Services

Recommended point of contact for this section: School Health Professional and School Behavioral Health Professional .

The following section asks your school to provide information on the physical and behavioral health services provided to students, parents, and staff at your school.

2.01 Do you have nursing and/or allied health professional coverage in your school? *			
O Y	Yes		
0 1	No		
Please	Please state the coverage of nursing and/or allied health professional coverage in your school.		
Num	Number of full time nurses * 1		
Fund	Funding Source * Provided by DC Health		
Num	ber of part time nurses * 0		
Fund	Funding Source * NA		
Num	Number of full time allied health professionals * 0		
Fund	ing Source * NA		
Num	ber of part time allied health professionals * 0		
Fund	ing Source * NA		
2.02 Wha	at type(s) of health services does your school offer to students? *		
V	Access and/or referrals to medical providers through a systematic process		
V	Prevention materials and resources for chronic diseases		
V	Screening, testing, and/or treatment for chronic diseases (diabetes, obesity, asthma, etc.)		
V	On-site COVID-19 testing		
✓	Prevention materials and resources for sexually transmitted diseases (HIV/AIDS, gonorrhea, chlamydia, etc.)		
	Screening, testing, and/or treatment for sexually transmitted diseases (HIV/AIDS, gonorrhea, chlamydia, etc.)		

Oral health services (dental screening, cleaning, counseling, etc.)
✓ Vision screenings
✓ Hearing screenings
On-site COVID-19 vaccinations and routine pediatric immunizations
2.03 Does your school partner with any outside programs or organizations to provide health services to students?
⊙ Yes
O No
Please identify their name below (including community-based organizations, DC Health, etc.). *
☐ April May
☐ Catholic Charities
☐ Department of Behavioral Health
OC Health
☐ WISE Center - MedStar Georgetown University Hospital
☐ Hillcrest Children and Family Center
☐ Howard University Hospital
☐ MBI Health Services
☐ Paving the Way MSI
☐ SMILE Therapy Services
✓ Other
Specify * Elaine Ellis Center of Health, Better Mornings LLC
2.04 Does your school have at least two unexpired undesignated epinephrine auto-injectors? *
⊙ Yes
O No

2.05 Does your school have at least two employees or agents (outside of the school nurse) who are certified to

administer both an undesignated and a designated epinephrine auto-injector during all hours of the school day in case of an anaphylactic emergency?
⊙ Yes
O No
Please provide the names of AOM (Administration of Medication) certified personnel at your school and when they were certified, if applicable
First Name * Fredy

2.13 Does your school facilitate parent engagement?
⊙ Yes
O No
2.14 Does your school offer any health and wellness education for parents? *
⊙ Yes
O No
Which of the following health and wellness education options does your school offer to parents? *
Health risks related education (e.g. managing student asthma, importance of annual well-child visits and routine pediatric immunizations, blood pressure screenings)
Mental/behavioral health education (e.g. stress management, warning signs of youth suicide)
Physical health education (e.g. nutrition or cooking classes, obesity prevention)
Physical activity education (e.g. Zumba, yoga, parent-child exercise classes)
Personal health education (e.g. how to talk to your child about appropriate touch, puberty, healthy relationships, sexual health resources)
COVID-19 risks related education (e.g. mitigation strategies, vaccination, etc.)
\square Other
2.15 Does your school offer any health and wellness initiatives to staff that contribute to a positive school climate?
⊙ Yes

What type of staff wellne	ss initiatives does vou	r school offer that contr	ibute to a positive school of	climate? *

Organizational structures to support staff wellness (lactation rooms, welcoming break rooms, early dismissal days, opportunities to engage teacher voice and build trusting relationships, etc.)

Staff wellness events (retreats, wellness days, workshops, campaigns, etc.) to promote positive self-care skills like fitness, nutrition, stress management, etc.

Professional development (Trauma informed care, self-care, grief and loss, etc.)

Mental/Behavioral health services offered through an Employee Assistance Program or partnering community-based organization

Note: Responses are required for questions with an asterisk.

Section 3: Health Education Instruction

Recommended points of contact for this section: Health Education teacher and Physical Education teacher. .

<u>Health Education:</u> Formal, structured health education as defined by the Centers for Disease Control and Prevention consists of any combination of planned learning experiences that provide the opportunity to acquire information and the skills students need to make quality health decisions. Health education instruction of the District of Columbia Health Education Standards (DC Official Code § 38–821.01). The Healthy Schools Act requires an average of 75 minutes of health education per week for grades K - 8 (DC Official Code § 38–824.02).

Health Education Minutes (Grades 1-8): The average number of minutes per week during the school year that a student receives health education instruction. This average should only include time devoted exclusively to health education instruction that utilizes a health-specific curriculum. Do NOT include physical education instruction time in this figure. For this question, please indicate the average number of minutes per week that your school provides health education instruction to each grade level. Average number of minutes of health education instruction per week can range between 0 and 125 minutes.

Note: If your school provides more than 125 minutes of health education instruction in an average week, enter 125. If a student only receives health education for one semester or one quarter, please average the total weekly minutes for the whole school year.

Do you have questions regarding this calculation and need support? If so, please contact OSSE's Division of Health and Wellness here: OSSE.HYDT@dc.gov.

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Health Education minute requirements. Schools that do not meet the required Health Education minutes will receive follow-up support from OSSE.

<u>Health Education Requirement (Grades 9-12):</u> According to the District of Columbia Municipal Regulations, prior to graduation, all students must have one and one half (1.5) Carnegie Units in Health/Physical Education.

Cardiopulmonary Resuscitation (CPR) Training: Cardiopulmonary resuscitation (CPR) is a lifesaving technique that is useful in many emergencies, such as a heart attack or near drowning, in which someone's breathing, or heartbeat has stopped. District of Columbia public and public charter schools that serve grades 9 through 12 shall include cardiopulmonary resuscitation (CPR) instruction in at least one health class necessary for graduation. The instruction shall be nationally recognized and based on the most current evidence-based emergency cardiovascular care guidelines for resuscitation, include appropriate use of an automated external defibrillator (AED), and incorporate hands-on practice (DC Official Code § 38–824.02).

- 3.01 How many teachers instruct only health education in your school? * $\,\,0\,$
- 3.02 How many teachers instruct only physical education in your school? * 0
- 3.03 How many teachers instruct both health and physical education in your school? * 1

Section 4: Physical Education Instruction

Recommended point of contact for this section: Physical Education Teacher

Physical Activity: For students in grades K-8, it shall be the goal to provide 60 minutes of physical activity per day (DC Official Code § 38–824.01). For students in grades Pre-K3 and Pre-K4, schools shall provide an average of 60 minutes of physical activity per day, with a goal to provide 90 minutes of physical activity per day. (DC Official Code § 38–824.02). For this question, please indicate a daily average between 0 and 135 for grades Pre-K3 and Pre-K4.

Physical Education Minutes: The Healthy Schools Act sets requirements for physical education and physical activity by grade band. For students in grades K - 5, schools shall provide an average of 90 minutes of physical education per week, with a goal to provide an average of 150 minutes per week. For students in grades 6 - 8, schools shall provide an average of 135 minutes of physical education per week, with a goal to provide an average of 225 minutes per week. At least 50 percent of physical education time shall be spent-on-moderate to vigorous physical activity (movement resulting in substantially increased heart rate and breathing). (DC Official Code § 38–824.02).

The Office of the State Superintendent of Education (OSSE) is committed to providing technical assistance to schools that do not meet the Physical Education minute requirements. Schools that do not meet the required Physical Education minutes will receive follow-up support from OSSE.

Moderate-to-Vigorous Physical Activity Minutes: For students in grades K-8, at least 50 percent of physical education time shall be spent on moderate-to-vigorous physical activity (DC Official Code § 38–824.02). For this question, please indicate a weekly average between 0 and 225 for grades K-5, and a weekly average between 0 and 300 for grades 6-8.

Recess and Outdoor Physical Activity: Schools shall provide recess and outdoor physical activity for all students on a daily basis (weather and space permitting). For students in grades K – 8, it shall be the goal to provide at least one recess of at least 20 minutes per day. For students in grades Pre-K3 and Pre-K4, schools shall be the goal to provide at least two 20-minute sessions of outdoor physical activity per day (DC Official Code § 38–824.02).

4.01 For each grade span in your school, please indicate the average number of minutes per week during the regular instructional school week that a student receives physical education instruction. This does NOT include recess or after school activities.

Grades: 6 - 8 Minutes/Week * 120

4.02 Which physical education curriculum (or curricula) is your school currently using for physical education instruction?

Grades: 6 - 8 * Spark

4.03 Within the physical education course during the regular instructional school week, how much time is devoted to actual moderate-to-vigorous physical activity?

Grades: 6 - 8 *

O Less than 50%

• 50% or more

4.05 How many minutes per day do students get recess on average?

Grades: 6 - 8 * 15

4.06 What strategies does your school use, during or outside of regular school hours, to promote physical activity?		
☐ Active Recess		
Movement in the Classroom		
□ Walk to School		
After-School Activities		
Athletic Programs		
Safe Routes to School		
☐ Bike to School		
☐ Playground/field on school campus		
Before-School Activities		
☐ Playground/field off of school campus
