

# NEED A TEST? GET A TEST!

You should get a COVID-19 test if you have symptoms of COVID-19, have come in close contact with someone who has COVID-19, or if you have traveled outside of DC, Maryland or Virginia.

## FIVE WAYS TO GET TESTED

- 1 Get an at-home testing kit from your child's school at the end of winter break. Contact your school for specific details.
- 2 Do an over-the-counter at-home test and log your results at [coronavirus.dc.gov/overthecounter](https://coronavirus.dc.gov/overthecounter)
- 3 Pick up and drop off a free, at-home testing kit at any site listed on [coronavirus.dc.gov/testyourself](https://coronavirus.dc.gov/testyourself)
- 4 Go to a District-operated walk-up site listed on [coronavirus.dc.gov/testing](https://coronavirus.dc.gov/testing)
- 5 Make an appointment with your healthcare provider

## STEPS TO PROMOTE HEALTHY HABITS OUTSIDE OF SCHOOL

Together we can all do our part to promote healthy habits outside of school to reduce the spread of COVID-19 in our communities. All eligible individuals are encouraged to **get the COVID-19 vaccine**. More information and vaccine locations are available at [vaccinate.dc.gov](https://vaccinate.dc.gov)

### FACE MASKS

- Masks should cover the nose and mouth and fit snugly against the sides of the face
- Masks are required in District schools, child care, libraries, healthcare facilities and businesses that choose to enforce them
- Consider wearing masks in crowded places

### HAND HYGIENE AND RESPIRATORY ETIQUETTE

- Hands should be washed frequently with soap and water for at least 20 seconds
- Hand sanitizer with 60 percent alcohol should be used if soap and water are not available
- Cover all coughs and sneezes in a tissue or elbow
- Avoid touching your food, face, eyes, mouth and nose with unwashed hands

### TRAVELING

- Masks are required on all public transportation, including trains, planes, school buses, Metrorail and Metrobus
- Do not travel if you are feeling sick
- If traveling outside of DC, Maryland or Virginia, get a COVID-19 test 3-5 days after return

### MONITOR SYMPTOMS AND STAY HOME IF SICK

- Seek a test or speak with your healthcare provider if you have symptoms of COVID-19
- Stay home if you've had close contact with someone confirmed to have COVID-19
