E-Consent: Stewards of Children Training® & Evaluation to Survey

Welcome to Stewards of Children®. This course will teach you how to prevent, recognize, and react responsibly to child sexual abuse. The course lasts approximately 2.5 hours. This training is only the beginning. Child sexual abuse is a complex problem. The information we provide is not a substitute for the advice of professionals. Its purpose is to give you simple proactive steps that adults can use to protect children from sexual abuse. This training includes some content that is explicit. It contains descriptions that reflect the personal experience of actual survivors. Survivors often tell us that completing this training restores their faith that abuse can be overcome and prevented. If you need help, please reach out. Call the Darkness to Light helpline at 1-866-367-5444 to talk to a trained counselor 24/7. Before you take the training, you will complete a survey that asks about your current knowledge and beliefs about child sexual abuse, risk in your community and intention to take action. You will complete the same survey at the end of the training and before you receive your Certificate of Completion. Darkness to Light will use survey results to improve future versions of Stewards of Children® and to identify other child sexual abuse prevention programs that are needed. There are no significant risks associated with taking the survey.

A limited number of Darkness to Light staff will have authorization to see your study information. They will maintain its confidentiality to the extent permitted and required by South Carolina laws and Darkness to Light policies. Your name and personal identifiers will not be published or presented. Your de-identified information could be used for future research without additional informed consent. Darkness to Light may also contact you in the future to participate in a follow-up study to see how your knowledge, beliefs, and actions have been retained over time.

Principal and Co-Investigator: Kim Longfield, PhD, Research Consultant; Lia Gil, Social Behavior Change Manager.
