

# CLOSE CONTACT DISMISSAL WORKFLOW FOR SCHOOLS

For additional information, refer to the DC Health Guidance for Schools.

**Important Considerations**

^ Note: The standard definition of close contact applies regardless of whether the individuals were wearing face masks.

\* If the person identified as a close contact is asymptomatic AND is either fully vaccinated or has recovered from COVID-19 in the last 90 days, then they should not be excluded from school. They should receive information to monitor for symptoms for 14 days and isolate if they develop symptoms. Fully vaccinated individuals should also get a COVID-19 test 3-5 days after the date they were exposed.
