Revision

Date	Description
9/30/2020	In Appendix B for exit code 1942, removed LEA’s responsibility of ‘Letter from OSSE Homeschool office’ to OSSE’s responsibility of ‘The student is registered with the OSSE Homeschool office’.

Introduction

Purpose

The importance of appropriate entry and exit codes should not be understated – they help derive enrollment counts, track student movement to ensure timely service delivery, inform funding to ensure adequate resources, and contribute to the development of education strategy and policy throughout all District of Columbia Public and Public Charter Schools. Additionally, entry and exit codes are used for the following:

- several federal reporting requirements including Indicator 2 of the Individuals with Disabilities Education Act Annual Performance Report (IDEA APR) and Adjusted Cohort Graduation Rate (ACGR);
- interpretation in data systems such as DCPS Attendance, Charter Sector Attendance, Statewide Longitudinal Education Data (SLED) Exit Management, SLED Prior Year Exits, Special Education Data System (SEDS), Data Validation, Report Card and STAR Framework, DC Report Card, and
- the identification and accurate tracking of disengaged students for the OSSE Reengagement Center.

This document was developed to assist local education agencies (LEAs) in the District of Columbia in the usage of appropriate entry and exit codes for students in their jurisdiction. It will be a tool for data managers, accountability staff, and other school administrators responsible for collecting student enrollment and exit data. Appropriate use of these codes will help ensure student data is timely, accurate, and reflects the current status of each student at any point in time.

Implementation Guidance

This document lists the valid set of student entry and exit types to be used by LEAs. In addition to these codes, LEAs may choose to collect more granular entry and exit codes within their student information systems (SIS); however, any additional codes (i.e., codes not listed in this document) must be mapped by the LEA to a valid code identified in this document in the [LEA Data Mapping Tool](#). OSSE will not map additional codes submitted by LEAs to the valid set of codes.

Please be aware that regardless of which code is used, each LEA must collect and retain an appropriate level of documentation to support the code being used.

About This Document

Detailed Guidance: Entry Codes

Types of Entry Codes:

- *Continuation* codes are used for those students who are still enrolled in the same District of Columbia Public or Public Charter Schools and continue to receive education and funding. These students are continuing their education in the same school with no interruption in schooling.
- *Transfer* codes are used for those students who are still enrolled in a District of Columbia Public or Public Charter Schools and continue to receive education or funding. These students may change programs, schools, or local education agencies.
- *Original Entry* codes are used for those students who are registered and enrolled in the District of Columbia for the first time from either outside of the United States or for the first time in any United States school.
- *Entry* codes are used for those students who have received previously schooling either in the District of Columbia or another state and who are registered and enrolled in the District either for the first time or who are re-entering the DC public school system after an interruption in schooling.

This section lists all Entry codes, including applicable guidance.

This code does not apply to students who received an IEP certificate of completion or attendance; for these students, use code 2022.	Exit codes will not be used to track the different types of diplomas awarded by LEAs. The certified grad list data collection will be used to distinguish between the different types of diplomas awarded to students.
2021	Credential	Received a state diploma from the Office of the State Superintendent of Education	This code should be used for students who have earned a state diploma from OSSE through completion of a General Education Diploma (GED) or requirements of the National External Diploma Program (NEDP).	Students should only be exited with 2021 only if the LEA has evidence that the student has passed all sections of the GED; Students who have completed a GED prep program, but have not passed the GED certification test, should be exited using code 1986.
2022	Credential	Received an IEP certificate of attendance or completion	This code should be used for students with disabilities who have received an IEP certificate of attendance.	An IEP certificate of attendance, IEP certificate of completion, and Certificate of IEP are different names for the same credential and are included under this code. Students receiving these credentials remain eligible to receive special education services until either the end of the semester in which they turn 22 years old or are awarded a regular diploma, whichever occurs first.

Students should be exited using this code if they withdraw due to reaching the maximum age served by the LEA; students should also be exited using this code if it is the policy of the LEA or school to withdraw a student because the student will reach the maximum age for services before completion of a school credential is possible.	Students with disabilities remain eligible for special education services until the end of the semester in which they turn 22 years old or upon receipt of a regular high school diploma, whichever occurs first.
1963	Discharge	Withdrawn for ineligibility reasons (e.g., immunization or residency); eligible to seek re-enrollment	This code may be used for students who have not presented proper evidence of required immunizations or proper residency.	If the student was enrolled the previous year in a DC public or public charter school, withdrawal due to ineligibility will result in the student being designated as a “dropout”. If the student has been assigned to a ninth grade cohort, this code will NOT exit the student from the cohort.
1964	Discharge	Withdrawn due to LEA policy related to absenteeism or truancy	This code should be used for students who are withdrawn from school by the LEA due to violations of the disciplinary code related to absenteeism or truancy.

This code should also be used for students enrolling in a non-diploma granting school or educational institution in another state. If the student is transferring to an adult education program or alternative program serving adult students which is part of the DC public or public charter school, use exit code 2040 or 2041.

1983	Disengagement	Exited to an institution that is not administered or tracked by DC public or public charter schools (e.g., military, Federal Bureau of Prisons, DC Jail programs not administered by DCPS, etc.)	This code should be used if the sending school has evidence that the student has transferred to a non-school institution other than DYRS. For a DYRS or nonpublic transfer, use appropriate transfer exit code. For residential treatment facilities, use exit code 1961.	
1984	Disengagement	Not enrolled; LEA has performed due diligence; status unknown	It is the responsibility of every LEA to determine the status of every student who is enrolled; Per federal guidelines, students whose status cannot be determined are classified as “dropouts”.	For purposes of the Adjusted Cohort Graduation Rate, the LEA or school is responsible for providing documentation verifying that the student has exited the cohort; if documentation of enrollment cannot be verified, use code 1984. For students who complete Stage 4 registration at a given school, but never attend that school, documentation of a “no show” must be provided to OSSE in order to assign the student to the appropriate school for the ninth grade cohort. See Adult Education Guidance section for details.
1989	Disengagement	Discontinued for pregnancy, maternity or paternity obligations.	This code should be used when a student discontinues his or her education due to becoming pregnant or due to maternal or paternal care obligations	Even if the student plans to return to schooling and continue his or her educational program at a later date, the student should be exited using this code and re-enrolled once he or she returns and continues his or her educational program.

Adult Education Guidance

This section provides information on the exit and entry codes that should be used for students enrolled in Adult Education Use of Entry and Exit Codes.

Detailed Guidance: Adult Program - only Exit Codes

This section details the new “Adult Program - only” exit codes.

EXIT CODE ADDITIONS				
CODE	CODE CATEGORY	CODE NAME	USAGE GUIDELINES	ADDITIONAL GUIDANCE
2003	Year End	Moved onto the next level in educational program during the school year; continuing in educational program	This code should be used when a student completes his or her current level in his or her current educational program.	If the student is continuing to the next level of the program, the student should be exited and re-enrolled using code 1810 in order to designate completion of the current level.
2004	Year End	Working on the same level in educational program; continuing in educational program	This code should be used when a student is currently working on completion of his or her current level in his or her educational program, but has not moved to the next level by year-end. If the student is continuing in the same program in the next school year, the student should be exited and re-enrolled using code 1810.
2010	Program End	Received a diploma, continuing adult education in the same LEA	This code should be used for a student who has received a high school diploma but are continuing to receive adult education services. 2015	Program End	Received a certificate of completion for a technical or vocational course of study, continuing adult education in the same LEA	This code should be used for a student who has received a certificate of completion for a technical or vocational course of study but is continuing to receive adult education services.	If the student is continuing to pursue adult educational services after completion of a certificate of completion for a technical or vocational course of study, the student should be exited and re-enrolled using exit code 1810.
1985	Disengagement	Student voluntarily discontinued education after enrolling in an adult education program in a DC public or public charter school	This code is only meant for a student who discontinues education after enrolling in an adult education program or re-enroll in school after completing a diploma.	
1986	Disengagement	Completed the course of study for a GED, technical certificate, nationally- or state-recognized vocational certificate, or other certificate program, but did not pass the certification test and is no longer enrolled	This code should be used when a student completes a GED preparation course of study in instances where the school or LEA does not have evidence that a GED was received by the student. If documentation of a certification has been received, use exit code 2021 and provide documentation of certification to OSSE.	If it is unknown whether the student received a GED, exit code 1986 should be used. OSSE will contact the LEA if it learns that the student has passed the GED test.

EXIT CODE ADDITIONS				
CODE	CODE CATEGORY	CODE NAME	USAGE GUIDELINES	ADDITIONAL GUIDANCE
1988	Disengagement	Discontinued due to hardship, health or personal reasons	This code should be used when a student voluntary or involuntary discontinues his or her education due to a specific hardship, health, or personal reasons	Even if the student plans to return to schooling and continue his or her educational program at a later date, the student should be exited using this code and re-enrolled once he or she returns and continues his or her educational program.
1990	Disengagement	Discontinued for employment reasons	This code should be used when a student discontinues his or her education due to becoming employed. Employment can be new employment – either full-time or part-time, change in employment schedule, seasonal employment, or similar situation.	Even if the student plans to return to schooling and continue his or her educational program at a later date, the student should be exited using this code and re-enrolled once he or she returns and continues his or her educational program.

Enrollment Guidance

What are the six stages of enrollment?

The six stages of enrollment are a mandated part of every DC public or public charter school student’s attendance record, per 5-A DCMR §2199.1. Each stage represents a different step in the enrollment process. The six stages are established in the definition of “Enrollment “as:

- (1) Application by student to attend the school;
- (2) Acceptance and notification of an available slot to the student by the school;
- (3) Acceptance of the offered slot by the student (signified by completion of enrollment forms and parent signature on a “letter of enrollment agreement form”);
- (4) Registration of the student in the SIS by school upon receipt of required enrollment forms and letter of enrollment agreement; and
- (5) Receipt of educational services, which are deemed to begin on the first official school day.

The sixth stage of enrollment takes place upon completion of stage four, and is defined as follows:

- (6) The LEA’s obligation to determine eligibility for special education services or to provide special education services on an existing IEP is triggered upon completion of registration (stage 4).

Additionally, under 5-E DCMR 3002.9(b), for children transferring between LEAs between school years, the new LEA’s obligation to make FAPE available begins on the new LEA’s first day of the school year.

What do the six stages of enrollment look like in practice?

There are several major differences among LEAs and types of students when collecting the stages of enrollment information. The biggest difference will be students who are returning versus new to the LEA.

Stage 4

The stage 4 enrollment date must be recorded when the student or student’s family has completed all enrollment paperwork, thereby completing the registration process. The LEA assumes responsibility for providing services on an existing IEP or evaluating that student to determine eligibility for special education and related services for students transferring during the school year. The stage 4 enrollment date indicates that the student has not physically attended school at the LEA yet, but has completed registration.

Stage 4 enrollment can be designated in the SIS in two ways:

- *For LEAs that are able to provide two separate Stage 4 and Stage 5 enrollment dates in their SIS. The student is given a **Stage 4 entry date** and appropriate **Stage 4 entry code** in the SIS of either 1800, 1880 or 1890 until the student physically attends his/her first day of school at the LEA.*

Once the student has physically attended school and received educational services, the **Stage 5 entry date** must be entered and the entry code must be changed to a valid **Stage 5 entry code**; or

- *For LEAs that **are not** able to provide two separate Stage 4 and Stage 5 enrollment dates in their SIS.* The student is given a **Stage 4 entry date** and appropriate **Stage 4 entry code** of either 1800, 1880 or 1890 until the student physically attends his/her first day of school at the LEA. Once the student has physically attended school and received educational services, the entry date and code must be changed to a valid **Stage 5 entry date and code** (not 1800, 1880 or 1890) reflecting the student’s enrollment status.
- At the beginning of July, OSSE begins the official transition from one school year to the next. Mid-July, any receiving LEA who has completed a stage 4 enrollment will assume responsibility of the student from their previous LEA. For students with disabilities, special education service delivery is expected to start on the first day of school.
- OSSE releases relevant test scores and IEP information to the LEA to support providing services as efficiently as possible.

Stage 5

A stage 5 entry code and date should only be recorded when the enrolled student has physically attended school at the LEA. For most students, this date will likely be the LEA’s first day of school. If the student never attends a class at the LEA (i.e., is a ‘no-show’), do **NOT** enter a stage 5 enrollment code and date. Please follow the process below on the LEA responsibilities for a “no-show”.

What are the LEA responsibilities for a “no show”?

It is the responsibility of the LEA to determine the whereabouts of every student that has completed stage 4 of the enrollment process. In cases where there is no record of attendance at the LEA, *and* LEAs can demonstrate that significant attempts have been made to contact the student’s family and ascertain the whereabouts of a student who never attended school at the LEA after a stage 4 enrollment, the LEA may designate the student as an “no-show” under the following conditions:

1. The student is receiving special education services. In this case, the student should be exited using code 1234.
2. The student is not receiving special education services. In this case, the student should be exited using code 4321.

Please note, it is not possible for a student receiving special education services who completed stage 4 of the enrollment process to be designated as a “no-show” unless enrollment at another LEA has been verified by OSSE. Once a student with disabilities has a completed stage 4 enrollment, the LEA is responsible for this student without exception. [For additional guidance please review Appendix B: Exit Codes Impacting LEAs SEDS Roster.](#)

What happens when the responsibility for a student’s IEP (stage 4) is assumed?

Starting mid-July, the LEA will be able to access the student’s IEP once the SIS data has been sent to OSSE via ADT. The receiving LEA will not have access to a pre-enrolled student if the student is attending ESY at a different LEA. The receiving LEA will have access to the student in the Special Education Data System (SEDS),

five days after the end of ESY for the previous LEA. For example, a student with an existing IEP who is transferring from LEA A to LEA B must be provided services by LEA A through the end of school year. LEA A is further responsible for providing ESY services to the student, if eligible. If the student is not eligible for ESY, LEA B will have access to the student’s special education records in SEDS once LEA B’s SIS is switched to the new school year. Special education service delivery is expected to begin on the first day of school.

What if the student transfers mid-year?

An LEA must provide the information it has available. Take John Doe as an example. John transfers to District High School in August, from Brookland High School:

School Name	Stage 1	Stage 2	Stage 3	Stage 4	Stage 5	Withdrawal Date
Brookland HS	2/3/2020	3/31/2020	4/26/2020	7/1/2020	8/21/2020	8/22/2020
District HS	8/21/2020	8/21/2020	8/22/2020	8/22/2020	8/23/2020	

We’ll look at this example at the school level, day-by-day:

- John went through the lottery and was accepted by his second choice school, Brookland High School (Stages 1-4, February to August).
- On August 21:
 - John attends his first day of school at Brookland High School (Stage 5).
 - John’s family put in an application for him at his first choice, District High School (Stage 1).
 - John is notified of an open slot at District High School on the same day (Stage 2).
- August 22
 - John accepts the space at District High School (Stage 3)
 - Registration paperwork at District High School (Stage 4) is completed.
 - District High School (receiving school) should enter a Stage 4 enrollment date of 8/22/2020 and a corresponding entry code of 1800.
 - John withdraws from Brookland High School.
 - Brookland High School (sending school) should enter a withdrawal date of 8/22/2020 and corresponding exit code (in this case, exit code 2041 should be used because the student is transferring to another LEA in the state)
 - John is considered to have a duplicative enrollment
- August 23
 - John is no longer considered to have a duplicative enrollment.
 - John begins his first day at his new school, District High School (Stage 5).
 - District High School should enter a Stage 5 enrollment date of 8/23/2020 with entry code of 1812.

How are LEAs required to transfer Student Data to OSSE?

See [2020-21 School Year OSSE LEA Data Collection Template](#) for more information on transferring student data to OSSE.

Special Education Guidance

Under District of Columbia law, students are eligible for special education and related services from age three (3) through the end of the semester in which they turn twenty-two (22) years of age. Based on requirements of the Individuals with Disabilities Education Act (IDEA), there are circumstances in which students with disabilities may exit an LEA’s roster but retain the right to access FAPE until age twenty-two (22). [For additional guidance please review Appendix B: Exit Codes Impacting LEAs SEDS Roster.](#)

Expectations of LEAs

Under IDEA, the LEA is responsible for making special education and related services available to eligible students who are enrolled in the LEA, and who are between the ages of three (3) and twenty-two (22) (students remain eligible until the end of the semester in which they turn twenty-two (22)). For an existing student, an LEA may not be responsible for making special education and related services available to a student if the LEA has made reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2(b), and prior written notice has been issued as appropriate – see [Disengagement Codes for Students with Disabilities](#) and Appendix for more information.

Exit Prior to Stage 5 Enrollment

Exit codes 1234 and 4321. If a student who has been found eligible for services under IDEA completes Stage 4 enrollment but is exited using exit code 1234 prior to receiving educational services, the LEA still is responsible for continuing to provide special education services until prior written notice (PWN) is issued. The LEA must issue a PWN for a student to be administratively exited from SEDS. If a student who has not been found eligible for services under IDEA completes a Stage 4 enrollment but exits the LEA prior to receiving educational services, the student should be exited using exit code 4321.

Homeschooling

Exit codes 1940 or 1942: If a parent/guardian of a student who has been found eligible for services under IDEA decides to provide home instruction, and this decision occurs before the child reached the maximum age for services, the LEA shall take steps to document via issuance of a prior written notice (PWN) which details the parent’s right to access services through the LEA at any time in the future. The parent must complete the [Notice of Intent to Homeschool form](#) and submit to OSSE Home School Office – see [OSSE DC Homeschooling Program](#) for more information and policy.

Early Childhood

Exit code 1960 will remove a student from the SEDS Roster only if the student is under the age of 5 as of Sept. 30 of the school year. If the student was previously eligible for services under Part C, in which case the student remains on the SEDS roster.

CODES RESULTING in REMOVAL from the SEDS Roster

CODE	CATEGORY	CODE NAME
1960	Discharge	Withdrawn from school, under the age for compulsory attendance (age 5); eligible to seek re-enrollment

All other valid exit codes will be recognized by OSSE but will not result in automatically inactivating the student's status in SEDS. In these instances, the LEA is responsible for continuing to provide special education services until a PWN is issued and due diligence have been performed.

Credential Codes

Under IDEA, the LEA obligation to provide a free appropriate public education (FAPE) to eligible students continues until a student graduates from high school with a regular high school diploma (34 C.F.R. §300.102(a) (3)), or if a student exceeds the maximum age of eligibility which, in the District of Columbia, is the end of the semester in which a student turns 22 years old (5-E DCMR §3002.1(b)).

End of Year Codes and Transfer Codes for Students with Disabilities

Once confirmed via the OSSE enrollment feed data, a Stage 4 enrollment at a different public or public charter school will remove a student from the SEDS roster of the sending LEA. For special education students, the receiving school should request a transfer of records from the [OSSE Support Tool](#) (OST). Until the receiving school enters a Stage 4 enrollment for the student, the student will continue to appear on the sending school's SEDS roster.

IDEA requires the receiving public education agency to take steps to promptly obtain the student's special education records for students who transfer from another public agency within the State or from another State (34 CFR §300.323(g)(2)). OSSE's "Individualized Education Program (IEP) Implementation for Transfer Students Policy" requires that, if a child with an IEP transfers between LEAs, the new LEA must request the student's records from the previous LEA within five (5) business days of enrollment, including any existing IEP, supporting documentation, and any other records pertaining to the provision of special education or related services to the student. If records are not requested or no records response is received from the sending LEA, records which have been pending transfer for 5 or more business days will be automatically transferred to the receiving LEA. If a student transfers from out-of-state, the new LEA must upload the student's existing IEP into SEDS within ten (10) business days of receipt from the previous out-of-state LEA.

Discharge Codes for Students with Disabilities

Discharge codes are used for those students who either withdrew from school (but did not disengage) or were withdrawn from school due to LEA-specific eligibility, disciplinary or other policy reasons.

In all other scenarios, Discharge Codes do not remove students from the SEDS roster at an LEA. Based on the exit code used, the LEA must issue a select the appropriate PWN in SEDS and perform the necessary documented due diligence in SEDS for a student to be administratively exited from their SEDS roster.

Illness. Under IDEA, the LEA continues to be responsible for making services available to students who have withdrawn due to illness, as determined by the child's IEP team. These services may include homebound instruction. If there is no documentation of illness that specifies that student is incapable of further engaging in educational services, student should be exited using Code 1980.

Expulsion. Under IDEA, the LEA continues to be responsible for making services available when a student is expelled even if it is determined that the behavior that gave rise to the violation is not a manifestation of the child's disability. Under IDEA, students may NOT be expelled for disciplinary reasons if the behavior is a manifestation of the child's disability except that such students may be removed to an interim alternative educational setting for a period not to exceed 45

days if the behavior involved the use of weapons or drugs, or resulted in serious bodily injury. See 34 C.F.R. §300.530(g). In such cases, the LEA must continue to provide educational services in the alternative setting. This code should not be used for temporary suspensions from school for disciplinary reasons.

Disengagement Codes for Students with Disabilities

Once a student no longer attends a school, it is expected that the LEA and school continue to keep documented evidence of each withdrawal and any communications associated with attempts to contact the parent or student in SEDS. Once the LEA has made reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2(b), and a PWN has been issued, the student may be administratively exited from SEDS by submitting a request in the [OST](#).

In the case that a child with an IEP is not withdrawn by the parent, and the LEA does not know the whereabouts of the child, it is expected that LEA will follow its truancy guidelines. In addition, the LEA must make reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2 (b) If none of these attempts is successful, the LEA/school must issue a PWN that:

1. Details the attempts made (dates, types and modalities);
2. Denotes that as a result of being unable to make contact with the parent, the child will be withdrawn from the school and individualized education program; and
3. Advises that the parent has a right to pursue re-enrollment and special education services at any time up to the age of 22.

Once these steps are completed, and the PWN is faxed/uploaded into the student's record in SEDS, the LEA can enter the appropriate exit code in the SIS. The communication attempts and PWN must be documented in SEDS in order for OSSE to administratively exit a student from SEDS

To request administrative action following submission of a PWN for removal from SEDS, submit a ticket in the [OST](#).

Prior Written Notice (PWN)

For exit codes requiring the LEA to issue a PWN, the language of the PWN must be consistent with the reason for exit and, if appropriate, advise the parent or student of their right to pursue re-enrollment to access FAPE at any time through the end of the semester in which the student turns age 22. Prior to administratively exiting a student, OSSE will review the PWN to ensure the description of the proposed LEA action is consistent with the documented exit code.

Nonpublic Student Transfer Guidance

Student enrollment and transfers must be captured using the appropriate entry and exit codes. When a student transfers to a nonpublic institution, the student must be withdrawn using an appropriate exit code and re-enrolled using an appropriate entry code. The practice of just changing the specific school code assigned to a student to reflect enrollment in a nonpublic school is not advised to accurately tracking student enrollment and movement.

Transfer from DCPS or Public Charter to Nonpublic School

When a student transfers from DCPS or Public Charter School to a nonpublic institution, the LEA remains responsible for the student and is obligated to retain an open slot at the school for the student in the event the student completes services at the nonpublic institution and wishes to continue his or her education at the sending school.

The student should first be withdrawn from the LEA using exit code 2040. The student should then be re-enrolled using entry code 1811. The “responsible school” is the LEA and the “attending school” is the receiving nonpublic.

Exit Management Guidance

What is Exit Management?

The Exit Management module in the Statewide Longitudinal Education Data System (SLED) provides real-time notification to LEAs of discrepancies within a student’s Stage 5 enrollment record between the LEA’s SIS and enrollment data maintained by OSSE. Exit Management reduces the administrative burden on LEAs to conduct multiple Stage 5 enrollment data verifications throughout the school year. It facilitates accurate and reliable enrollment data and help derive enrollment counts, monitor student movement, inform funding to ensure adequate resources, and contribute to the development of education strategy and policy throughout all the public schools and public charter schools in the District of Columbia. For the complete Exit Management guide. See the [Exit Management Guide](#) for more information.

Prior Year Exit Management Guidance

What is Prior Year Exit Management?

The Prior Year Exit (PYE) Management module in SLED facilitates the process for LEAs to update students’ stage 5 exit codes for previous school years. The enrollment records for all students are listed for the previously completed school year (i.e. in the 2020-21 school year, the previously completed school year is 2019-20). Enrollment records for students from previous school years are listed for diploma granting LEAs and student with disabilities (SWD) remaining on the LEA’s Special Education Data System (SEDS) roster. Documentation for SWDs must be in PYE and SEDS in order for a student to be administratively removed from the LEAs SEDS roster. See the, [Prior Year Exit Guide](#) for more information.

Adjusted Cohort Graduation Rate Guidance

What is the ACGR?

On Oct. 29, 2008, the U.S. Department of Education finalized rulemaking that established a uniform graduation rate calculation required for all states.

Cohort graduation rates improve DC’s understanding of the students who do, and do not, earn a regular high school diploma within four years, and those students who take more than four years to earn a regular diploma. Further, cohort rates more clearly describe the variety of paths taken by students who do not earn regular diplomas.

Pursuant to federal regulations, the term four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for that graduating class.

The term “adjusted cohort” means the students who enroll after the beginning of the entering cohort’s first year in high school, up to and including grade 12. Practically speaking, this means that an incoming class of ninth graders comprise a “cohort” that is subsequently “adjusted” by adding any students who transfer into the cohort either later in the ninth grade year or at any point during the next three years and subtracting any students who transfer out of state, emigrate to another country, or die during that same period.

The four-year cohort graduation rate is the percentage of students in this adjusted cohort that graduate with a regular high school diploma within four years of entering high school.

Cohort Development and Codes that Remove Students from the Adjusted Cohort

Utilizing previous enrollment audits, and ADT feeds, OSSE creates a list of students whose **first time ninth grade enrollment was during a given school year**. Students with **valid exit codes prior to the start of their ninth grade year** are not assigned to a cohort responsible LEA; students with **valid exit codes which result in a removal from the adjusted cohort after the start of their ninth grade year** may be removed from the cohort if proper documentation is provided to OSSE. Valid exit codes are as follows:

CODES RESULTING in REMOVAL from the ADJUSTED COHORT		
CODE	CATEGORY	CODE NAME
1940	Exited	Exited state; exited to home-schooling or a public, private, or online diploma-granting school in a different state.
1941	Exited	Exited to a school outside of the United States
1942	Exited	Exited the DC public school system to be home-schooled in the same state
1943	Exited	Exited the DC public school system to attend a private school in the same state
1944	Exited	Died or is permanently incapacitated

These are the only codes that may remove a student from their adjusted cohort. In order for a student to be removed from the cohort, the LEA must provide documentation that another diploma-granting LEA is providing educational services to the student. LEAs are required to provide proper documentation for cohort exits to OSSE. **These documents must be reviewed and approved by OSSE before a student may be removed from the cohort.**

Note: Students who are present in the Missing Child Clearinghouse will also be removed from the cohort.

The [District of Columbia Adjusted Cohort Graduation Rate Guidance](#) provides supporting documentation requirements for use of exit codes 1940, 1941, 1942, 1943 and 1944; and specific scenarios and guidance pertaining to unique student entry and exit cases.

When documentation supporting exit codes 1940, 1941, 1942, 1943 and 1944 cannot be provided to OSSE, the student must be exited using code 1984. In these cases, the student will remain a member of the ninth grade adjusted cohort and will be reported as a non-graduate.

Transfers to another LEA within the state must be verified by OSSE in SLED and Data Management-Exit Management. Transfers from one DC public or public charter school to another DC public or public charter school are tracked via SLED. If a transfer does not appear in SLED, it is the responsibility of the sending LEA to verify the transfer.

Role of Exit Codes in Determining Student Outcomes in the ACGR Calculation

Exit codes are also used to inform student outcomes reported in the release of the Adjusted Cohort Graduation Rate. Exit codes which provide credential data (e.g., 2020-2022) are verified by OSSE. Exit codes 2020, 2021 and 2022 are verified using the Certified Graduates List, Pearson GED Feed, and Certified IEP Certificates list, respectively. Only students who graduate with a regular diploma (exit code 2020) and are included on the Certified Graduates List are reported as graduates in the calculation of the ACGR; students who receive a state diploma or IEP certificate are reported as non-graduates. LEAs may provide documentation for exits codes 2023, 2024 and 2025; however, these students are reported as non-graduates in the calculation of the ACGR.

A student who is retained in grade, enrolls in a GED program or other adult educational or other training program that does not result in the award of a regular high school diploma, withdraws for school for illness, withdraws or is withdrawn from school for disciplinary reasons, is expelled, reaches the maximum age for services, exits to an institution that is not administered or tracked by the DC school system or leaves school for any other reason **must remain in the adjusted cohort** (i.e., must be included in the denominator of the graduation rate for that cohort). These students are also reported as non-graduates in the calculation of the ACGR. Please see [Adjusted Cohort Graduation Rate Policy Guide](#) for more information.

Youth Dropout Guidance

This section describes the impact of an exit code on the student’s “disengaged youth” status. OSSE has obligations both to the federal government and its stakeholders to ascertain the status of all youth who have enrolled in District of Columbia public or public charter school. The ability of LEAs to provide accurate exit codes for all students is imperative to informing these obligations and ensuring that youth are receiving the educational services they need to be successful in life.

Federal Reporting of “Dropout” using OSSE Exit Codes

Per federal guidelines, OSSE is mandated to report the number of youth in grades 7 through 12 who “drop out” of school in a given year (event dropout rate). The following table summarizes those exit codes which will identify a student as “educationally disengaged”.

CODES RESULTING in EDUCATIONAL DISENGAGEMENT DESIGNATION		
CODE	CATEGORY	CODE NAME
1962	Discharge	Withdrawn due to reaching the maximum age served by the LEA OR because student will reach the maximum age served by the LEA before completion of school is possible.
1963	Discharge	Withdrawn for ineligibility reasons (e.g., residency, immunizations), eligible to seek re-enrollment

Appendix B: Exit Codes Impacting LEA's SEDS Roster

This appendix provides clarification and guidance on exit codes impacting LEA's SEDS Roster. The guidance below constitutes the most up-to-date information. If an area is not mentioned here, the Entry and Exit Guidance document continues to be the authoritative source of information.

Resolving SEDS Roster Issues

LEAs should utilize the [OST](#) for assistance with enrollment issues, including students who are not appearing in SEDS as expected OR who are appearing in SEDS after they have been withdrawn from the LEA SIS and appropriate processes have been followed in SEDS.

Be sure to review all relevant guidance in this document and ensure any required due diligence has been completed and documented in the appropriate system prior to requesting that OSSE take administrative action to remove the student from the LEA's SEDS roster. For exit code guidance regarding SEDS Roster refer to the steps listed below.
