Introduction

Purpose

The importance of appropriate entry and exit codes should not be understated – they help derive enrollment counts, track student movement to ensure timely service delivery, inform funding to ensure adequate resources, and contribute to the development of education strategy and policy throughout all public and public charter schools in the District of Columbia (DC). Additionally, entry and exit codes are used for the following:

- several federal reporting requirements including Indicator 2 of the Individuals with Disabilities Education Act Annual Performance Report (IDEA APR) and Adjusted Cohort Graduation Rate (ACGR);
- interpretation in data systems such as local education agency (LEA) Attendance, Statewide Longitudinal Education Data (SLED) Exit Management, SLED Prior Year Exits, Special Programs, Data Validation, DC Report Card, and
- the identification and accurate tracking of disengaged students for the Office of the State Superintendent of Education (OSSE) Reengagement Center.

This document was developed to assist LEAs in the District of Columbia in the usage of appropriate entry and exit codes for students in their jurisdiction. It will be a tool for data managers, accountability staff, and other school administrators responsible for collecting student enrollment and exit data. Appropriate use of these codes will help ensure student data is timely, accurate, and reflects the current status of each student at any point in time.

About This Document

This document lists the valid set of student entry and exit types to be used by LEAs. In addition to these codes, LEAs may choose to collect more granular entry and exit codes within their student information systems (SIS); however, any additional codes (i.e., codes not listed in this document) must be mapped by the LEA to a valid code identified in this document in the [LEA Data Mapping Tool](#). OSSE will not map additional codes submitted by LEAs to the valid set of codes.

Please be aware that regardless of which code is used, each LEA must collect and retain an appropriate level of documentation to support the code being used.

This document is presented in nine sections as described below:

- **All Entry Codes:** This section details each entry code effective as of the current school year as well as detailed description and guidance for usage.
- **All Exit Codes:** This section details each exit code effective as of the current school year as well as detailed description and guidance for usage.
- **Enrollment Guidance:** This section summarizes the six stages of enrollment and also provides a high-level overview of expectations with regards to maintaining enrollment data.
- **Special Education Guidance:** This section details the requirements of each code for student with disabilities and a designation of whether the use of each code removes the student from special education roster for a given LEA.
- **Nonpublic Student Transfer Guidance:** This section provides specific guidance on transferring students to and from nonpublic schools.

- **Exit Management Guidance:** This section details the appropriate use of exit documentation for stage 5 exits between LEAs and OSSE. It also outlines the usage of exit management for the different reporting functions such as ACGR and federal reporting sources.
- **Adjusted Cohort Graduation Rate Guidance:** This section details the use of codes as they relate to the adjusted cohort graduation rate, a designation of whether the use of each of the codes removes the student from the ninth grade cohort for a given LEA, and the specific documentation that each LEA needs to provide to substantiate an exit from the ninth grade cohort.
- **Youth Dropout Guidance:** This section details the federal guidelines for designation of a student as a “dropout” for purposes of reporting the status dropout rate for each school and grade level.
- **Adult Program Guidance:** This section provides specific guidance regarding adult programs and their use of exit codes.
- **Quick Reference A:** This section provides reference of all entry and exit codes.
- **Quick Reference B:** This section provides guidance on exit codes impacting LEAs’ Special Programs special education rosters.

Enrollment Guidance

What are the six stages of enrollment?

The six stages of enrollment are a mandated part of every public and public charter schools in the District student’s attendance record, per 5-A DCMR §2199.1. Each stage represents a different step in the enrollment process. The six stages are established in the definition of “Enrollment “as:

- (1) Application by student to attend the school;
- (2) Acceptance and notification of an available slot to the student by the school;
- (3) Acceptance of the offered slot by the student (signified by completion of enrollment forms and parent signature on a “letter of enrollment agreement form”);
- (4) Registration of the student in the SIS by school upon receipt of required enrollment forms and letter of enrollment agreement; and
- (5) Receipt of educational services, which are deemed to begin on the first official school day.

The sixth stage of enrollment takes place upon completion of stage four, and is defined as follows:

- (6) The LEA’s obligation to determine eligibility for special education services or to provide special education services on an existing IEP is triggered upon completion of registration (stage 4).

Additionally, under 5-E DCMR 3002.9(b), for children transferring between LEAs between school years, the new LEA’s obligation to make Free Appropriate Public Education (FAPE) available begins on the new LEA’s first day of the school year.

What do the six stages of enrollment look like in practice?

There are several major differences among LEAs and types of students when collecting the stages of enrollment information. The biggest difference will be students who are returning versus new to the LEA.

Stage 4

The stage 4 enrollment date must be recorded when the student or student's family has completed all enrollment paperwork, thereby completing the registration process. The LEA assumes responsibility for providing services on an existing individualized education program (IEP) or evaluating that student to determine eligibility for special education and related services for students transferring during the school year. The stage 4 enrollment date indicates that the student has not physically attended school at the LEA yet, but has completed registration.

What happens when the responsibility for a student with disabilities (stage 4) is assumed?

The LEA will be able to access the student's IEP once the SIS data has been sent to OSSE via Automated Data Transfer (ADT). The receiving LEA will not have access to a pre-enrolled student if the student is attending Extended School Year (ESY) at a different LEA. The receiving LEA will have access to the student in the Special Programs, five days after the end of ESY for the previous LEA. For example, a student with an existing IEP who is transferring from LEA A to LEA B must be provided services by LEA A through the end of school year. LEA A is further responsible for providing ESY services to the student, if eligible. If the student is not eligible for ESY, LEA B will have access to the student's special education records in Special Programs once LEA B's SIS is switched to the new school year. Special education service delivery is expected to begin on the first day of school.

Stage 5

A stage 5 entry code and date should only be recorded when the enrolled student has attended school at the LEA. For most students, this date will likely be the LEA's first day of school. If the student never attends a class at the LEA (i.e., is a 'no-show'), do **NOT** enter a stage 5 enrollment code and date. Please follow the process below on the LEA responsibilities for a "no-show".

What are the LEA's responsibilities for a "no show"?

It is the responsibility of the LEA to determine the whereabouts of every student that has completed stage 4 of the enrollment process. In cases where there is no record of attendance at the LEA, *and* LEAs can demonstrate that significant attempts have been made to contact the student's family and ascertain the whereabouts of a student who never attended school at the LEA after a stage 4 enrollment, the LEA may designate the student as a "no-show" under the following conditions:

1. The student is receiving special education services. In this case, the student should be exited using code 1234.
2. The student is not receiving special education services. In this case, the student should be exited using code 4321.

Please note, it is not possible for a student receiving special education services who completed stage 4 of the enrollment process to be designated as a "no-show" unless enrollment at another LEA has been verified by OSSE. Once a student with disabilities (SWD) has a completed stage 4 enrollment, the LEA is responsible for this student without exception. For additional guidance please review [Special Education Guidance](#) and [Full Reference: Exit Codes](#).

Detailed Guidance: Entry Codes

Types of Entry Codes:

- *Continuation* codes are used for those students who are still enrolled in the same public and public charter schools in the District and continue to receive education and funding. These students are continuing their education in the same school with no interruption in schooling.

- *Transfer* codes are used for those students who are still enrolled in public and public charter schools in the District and continue to receive education or funding. These students may change programs, schools, or local education agencies.
- *Original Entry* codes are used for those students who are registered and enrolled in the District of Columbia for the first time from either outside of the United States or for the first time in any United States school.
- *Entry* codes are used for those students who have received previously schooling either in the District of Columbia or another state and who are registered and enrolled in the District either for the first time or who are re-entering the public and public charter schools in the District after an interruption in schooling.

This section lists all Entry codes, including applicable guidance.

The LEA will assume responsibility of the student from the previous LEA. The LEA must then request record for the student from the previous LEA in the OSSE Support Tool (OST).	For a student transferring or enrolling during the school year, the LEA assumes responsibility for providing services on an existing IEP or determining eligibility for any necessary special education services on the date that the Stage 4 Pre-enrollment is completed. For a student transferring between school years, the new LEA is responsible for making FAPE available on the first day of the school year.

Detailed Guidance: Exit Codes

The student’s enrollment lifecycle is complete when an appropriate exit code has been submitted for the school year. Before the start of the next school year, and preferably at the end of the current school year, LEAs **must** provide an exit code for every student, representing the best information the LEA has about the student’s exit reason each school year in accordance with the [LEA Data Management Policy](#). If no exit code is initially provided by the LEA, OSSE will attempt to use other validated data received to impute an exit code for a student at the end of each school year. The validated data includes alternative sources such as the certified graduates list, stage 5 enrollments for the next school year and homeschool enrollments in the District. In instances (1) where the provided exit code conflicts with the validated data, OSSE will change the submitted exit code to align with the validated data and notify the LEA so they can update their SIS, and (2) where OSSE is unable to impute a definitive exit code the student’s enrollment record will receive exit code 9888 that will require the LEA to perform the necessary due diligence to update the record to an appropriate exit code that best describes the student’s exit reason in the [SLED](#) Prior Year Exit Management module.

End of Year Exit Code Scenario	OSSE Action	LEA Action
LEA provides exit code at end of year and does not conflict with validated data	No action needed.	No action needed.
LEA provides exit code at end of year but conflicts with validated data	OSSE will change the submitted exit code to align with the validated data.	If the LEA does not agree with the imputed exit code, the LEA should make the update in the SLED Prior Year Exit Management.
LEA does not provide exit code at end of year	OSSE will impute an exit code to align with the validated data or insert exit code 9888.	If the LEA does not agree with the imputed exit code, the LEA should make the update in the SLED Prior Year Exit Management and where exit code 9888 is imputed, the LEA is required to perform the necessary due diligence.

Types of Exit Codes:

- **Credential** codes are used for those students who complete a required program or course of study including diploma, certificate, or other recognized completion milestone.
- **End of Year** codes are used for those students who will either remain enrolled in the same public and public charter schools in the District during the next school year or will transfer to another public school in the same state because the student has completed the last grade offered by the school of origin.
- **Transfer codes** are used for those students who are still enrolled in public and public charter schools in the District and continue to receive education or funding. These students may change programs, schools, LEAs. Note: For transfers that occur at the end of the school year, please use end of year codes.
- **Exited the state public school system codes** are used for those students who exited the state to be schooled in a different state or foreign country, exited the state public school system to be homeschooled or attend a private school in-state, or died or were permanently incapacitated.

This section lists all exit codes, by category, with applicable usage guidelines.

Stage 4 Pre-Enrollment Exit Codes

This category of codes are the only valid codes which can be used for withdrawing students that are entered into an LEA roster at stage 4 with entry codes 1800 and 1880.

If a student is transferring to another LEA, the appropriate transfer code (codes 2040-2043) should be used.
2001	Year End	Retained within the same school and LEA at the previous grade level	At the close of each school year, all students should be assigned an exit code; if a student is continuing at the same LEA, use exit code 2000 or 2001.	If a student is transferring to another LEA, the appropriate transfer code (codes 2040-2043) should be used.

Per federal guidelines, students exited using this code who do not enroll in a public school in the same state in the next school year will be marked as "dropouts" until the LEA performs due diligence and updates OSSE on the status of the student.

Category 3: Transfer Codes

This category of codes should be used for those students who are still enrolled in the public and public charter schools in the District and continue to receive education or funding. 1960	Discharge	Withdrawn from school, under the age for compulsory attendance (age 5); eligible to seek re-enrollment	This code should be used when there is evidence that the student has been withdrawn from school by the parent and is under compulsory attendance age (age 5); these students are eligible to seek future enrollment.	This code should NOT be used for a student age 5 years or older who withdraws from school. Please use appropriate discharge (exit codes 1960-1966) or disengagement (exit codes 1980-1986) code for these students.
1961	Discharge	Withdrawn from school due to documented severe physical or mental illness, including residential treatment facility; eligible to seek re-enrollment	This code is not to be used for students with disabilities.	LEAs are responsible for obtaining documentation from a physician indicating that the student has an illness that renders the student incapable of further engaging in educational services.
1962	Discharge	Withdrawn due to reaching the maximum age served by the LEA OR because student will reach the maximum age served by the LEA before completion of school is possible.	Students should be exited using this code if they withdraw due to reaching the maximum age served by the LEA; students should also be exited using this code if it is the policy of the LEA or school to withdraw a student because the student will reach the maximum age for services before completion of a school credential is possible.	Students with disabilities remain eligible for special education services until the end of the school year in which they turn 22 years old or upon receipt of a regular high school diploma, whichever occurs first.

1963	Discharge	Withdrawn for ineligibility reasons (e.g., immunization or residency); eligible to seek re-enrollment	This code may be used for students who have not presented proper evidence of required immunizations or proper residency.	If the student was enrolled the previous year in a public and public charter schools in the District, withdrawal due to ineligibility will result in the student being designated as a “dropout”. If the student has been assigned to a ninth grade cohort, this code will NOT exit the student from the cohort.
1964	Discharge	Withdrawn due to LEA policy related to absenteeism or truancy	This code should be used for students who are withdrawn from school by the LEA due to violations of the disciplinary code related to absenteeism or truancy.	
1965	Discharge	Withdrawn for disciplinary reasons other than expulsion, truancy or absenteeism (e.g., pending a disciplinary hearing that could result in expulsion).	This code should be used for students who withdraw for disciplinary reasons other than expulsion, truancy or absenteeism. This code should be used, for example, when a student withdraws from school while he or she is pending a disciplinary hearing and does not attend the hearing or stops attending school.	This code may also be used for other disciplinary reasons aside from expulsion, truancy or absenteeism according to individual LEA policy.
1966	Discharge	Expelled for disciplinary reasons	This code is to be used for all expulsions.	For further guidance see Discharge Codes for Students with Disabilities section for details.
1968	Discharge	Withdrawn due to exceeding the maximum age for special education services eligibility under IDEA	This code is to be used for students who have exceeded the maximum age for special education services eligibility under IDEA.	Students with disabilities are eligible to receive special education services until the end of the school year in which they turn 22 years old.

Category 6: Disengagement Codes

This category of codes should be used for those students who have dropped out or disengaged from school.

EXIT CODES CATEGORY 6: DISENGAGEMENT				
CODE	CATEGORY	CODE NAME	USAGE GUIDELINES	ADDITIONAL GUIDANCE
1980	Disengagement	Student voluntarily discontinued schooling and is over the maximum age for compulsory attendance	This code should be used for students who are over the maximum age for compulsory attendance (aged 18) and communicate their intention to discontinue schooling to their LEA or school.	Students with disabilities are eligible to receive special education services until the end of the school year in which they turn 22 years old.
1981	Disengagement	Completed grade 12, but did not meet all graduation requirements and voluntarily discontinued schooling	This code should be used for any student who completed grade 12, but did not meet all graduation requirements and voluntarily discontinued schooling.	This code reflects a discontinuation of schooling; students who do not meet all graduation requirements, but continue schooling at an LEA or adult program should be exited using a different appropriate code.

1982	Disengagement	Left the DC public school system to attend a vocational, GED, online or other adult educational or training program that is not part of the DC public school system.	This code should be used when there is evidence that a student has enrolled in an Adult Education program <i>outside</i> the public and public charter schools in the District. Examples include when a student is enrolling in a GED, adult basic education, or workforce program at a local non-profit.	This code should also be used for students enrolling in a non-diploma granting school or educational institution in another state. If the student is transferring to an adult education program or alternative program serving adult students which is part of the public and public charter schools in the District, use exit code 2040 or 2041.
1983	Disengagement	Exited to an institution that is not administered or tracked by DC public or public charter schools (e.g., military or Federal Bureau of Prisons)	This code should be used if the sending school has evidence that the student has transferred to a non-school institution other than DYRS.	
1984	Disengagement	Not enrolled; LEA has performed due diligence; status unknown	It is the responsibility of every LEA to determine the status of every student who is enrolled; Per federal guidelines, students whose status cannot be determined are classified as “dropouts”.	For purposes of the Adjusted Cohort Graduation Rate, the LEA or school is responsible for providing documentation verifying that the student has exited the cohort; if documentation of enrollment cannot be verified, use code 1984. For students who complete stage 4 registration at a given school, but never attend that school, documentation of a “no show” must be provided to OSSE in order to assign the student to the appropriate school for the ninth grade cohort. See Adult Education Guidance .
1989	Disengagement	Discontinued for pregnancy, maternity or paternity obligations.	This code should be used when a student discontinues his or her education due to becoming pregnant or due to maternal or paternal care obligations	Even if the student plans to return to schooling and continue his or her educational program at a later date, the student should be exited using this code and re-enrolled once he or she returns and continues his or her educational program.

This section provides information on the exit and entry codes that should be used for students enrolled in Adult Education Use of Entry and Exit Codes.

Special Education Guidance

Under District of Columbia law, students are eligible for special education and related services from age three (3) through the end of the school year in which they turn twenty-two (22) years of age. Based on requirements of the Individuals with Disabilities Education Act (IDEA), there are circumstances in which students with disabilities may exit an LEA's roster but retain the right to access FAPE until age twenty-two (22).

Expectations of LEAs

Under IDEA, the LEA is responsible for making special education and related services available to eligible students who are enrolled in the LEA, and who are between the ages of three (3) and twenty-two (22) (students remain eligible until the end of the school year in which they turn twenty-two (22)). For an existing student, an LEA may not be responsible for making special education and related services available to a student if the LEA has made reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2(b), and prior written notice has been issued as appropriate – see [Disengagement Codes for Students with Disabilities](#) and [Full Reference: Exit Codes](#) for more information.

Exit Prior to Stage 5 Enrollment

Exit codes 1234 and 4321. If a student who has been found eligible for services under IDEA completes stage 4 enrollment but is exited using exit code 1234 prior to receiving educational services, the LEA still is responsible for continuing to provide special education services until prior written notice (PWN) is issued. The LEA must issue a PWN for a student to be administratively exited from Special Programs. If a student who has not been found eligible for services under IDEA completes a stage 4 enrollment but exits the LEA prior to receiving educational services, the student should be exited using exit code 4321.

Homeschooling

Exit codes 1940 or 1942: If a parent/legal guardian of a student who has been found eligible for services under IDEA decides to provide home instruction, and this decision occurs before the child reached the maximum age for services, the LEA shall take steps to document via issuance of a PWN notifying parent/ legal guardian or student of exit and must include language advising the student of their right to access FAPE until age 22. Homeschooled students are no longer eligible to receive those services after withdrawing from their respective LEA. The parent/guardian must complete the [Notice of Intent to Homeschool form](#) and submit to OSSE Home School Office – see [OSSE DC Homeschooling Program](#) for more information and policy. The parent/ legal guardian of a student can seek an offer of FAPE, please contact District of Columbia Public Schools at dcps.childfind@dc.gov.

Early Childhood

Exit code 1960 will remove a student from the Special Programs Roster only if the student is under the age of 5 as of Sept. 30 of the current school year.

Credential Codes

Under IDEA, the LEA obligation to provide FAPE to eligible students continues until a student graduates from high school with a regular high school diploma (34 C.F.R. §300.102(a) (3)), or if a student exceeds the maximum age of eligibility which, in the District of Columbia, is the end of the school year in which a student turns 22 years old (5-E DCMR §3002.1(b)).

End of Year Codes and Transfer Codes for Students with Disabilities

Once confirmed via the OSSE enrollment feed data, a stage 4 enrollment at a different public or public charter school will remove a student from the Special Programs roster of the sending LEA. For students with disabilities, the receiving school should request a transfer of records from the [OSSE Support Tool](#) (OST). Until the receiving school enters a stage 4 enrollment for the student, the student will continue to appear on the sending school's Special Programs roster.

IDEA requires the receiving public education agency to take steps to promptly obtain the student's special education records for students who transfer from another public agency within the State or from another State (34 CFR §300.323(g)(2)). OSSE's "Individualized Education Program (IEP) Implementation for Transfer Students Policy" requires that, if a child with an IEP transfers between LEAs, the new LEA must request the student's records from the previous LEA

within five (5) business days of enrollment, including any existing IEP, supporting documentation, and any other records pertaining to the provision of special education or related services to the student. If records are not requested or no records response is received from the sending LEA, records which have been pending transfer for 5 or more business days will be automatically transferred to the receiving LEA. If a student transfers from out-of-state, the new LEA must upload the student's existing IEP into Special Programs within ten (10) business days of receipt from the previous out-of-state LEA.

Discharge Codes for Students with Disabilities

Discharge codes are used for those students who either withdrew from school (but did not disengage) or were withdrawn from school due to LEA-specific eligibility, disciplinary or other policy reasons.

In all other scenarios, Discharge Codes do not remove students from the Special Programs roster at an LEA. Based on the exit code used, the LEA must issue a select the appropriate PWN in Special Programs and perform the necessary documented due diligence in Special Programs for a student to be administratively exited from their Special Programs roster.

Illness. Under IDEA, the LEA continues to be responsible for making services available to students who have withdrawn due to illness, as determined by the child's IEP team. These services may include homebound instruction. If there is no documentation of illness that specifies that student is incapable of further engaging in educational services, student should be exited using code 1980.

Expulsion. Under IDEA, the LEA continues to be responsible for making services available when a student is expelled even if it is determined that the behavior that gave rise to the violation is not a manifestation of the child's disability. Under IDEA, students may NOT be expelled for disciplinary reasons if the behavior is a manifestation of the child's disability except that such students may be removed to an interim alternative educational setting for a period not to exceed 45 days if the behavior involved the use of weapons or drugs, or resulted in serious bodily injury. See 34 C.F.R. §300.530(g). In such cases, the LEA must continue to provide educational services in the alternative setting. This code should not be used for temporary suspensions from school for disciplinary reasons.

Disengagement Codes for Students with Disabilities

Once a student no longer attends a school, it is expected that the LEA and school continue to keep documented evidence of each withdrawal and any communications associated with attempts to contact the parent or student in Special Programs. Once the LEA has made reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2(b), and a PWN has been issued, the student may be administratively exited from Special Programs by submitting a request in the [OST](#).

In the case that a child with an IEP is not withdrawn by the parent, and the LEA does not know the whereabouts of the child, it is expected that LEA will follow its truancy guidelines. In addition, the LEA must make reasonable efforts to contact the parent in accordance with 5-E DCMR §3005.2 (b) If none of these attempts is successful, the LEA/school must issue a PWN that:

1. Details the attempts made (dates, types and modalities);
2. Denotes that as a result of being unable to make contact with the parent, the child will be withdrawn from the school and individualized education program; and
3. Advises that the parent has a right to pursue re-enrollment and special education services at any time up to the age of 22.

Once these steps are completed, and the PWN is faxed/uploaded into the student’s record in Special Programs, the LEA can enter the appropriate exit code in the SIS. The communication attempts and PWN must be documented in Special Programs in order for OSSE to administratively exit a student from Special Programs

To request administrative action following submission of a PWN for removal from Special Programs, submit a ticket in the [OST](#).

Prior Written Notice (PWN)

For exit codes requiring the LEA to issue a PWN, the language of the PWN must be consistent with the reason for exit and, if appropriate, advise the parent or student of their right to pursue re-enrollment to access FAPE at any time through the end of the school year in which the student turns age 22. Prior to administratively exiting a student, OSSE will review the PWN to ensure the description of the proposed LEA action is consistent with the documented exit code.

Resolving Special Programs Roster Issues

LEAs should utilize the [OST](#) for assistance with enrollment issues, including students who are not appearing in Special Programs as expected OR who are appearing in Special Programs after they have been withdrawn from the LEA SIS and appropriate processes have been followed in Special Programs.

Be sure to review all relevant guidance in this document and ensure any required due diligence has been completed and documented in the appropriate system prior to requesting that OSSE take administrative action to remove the student from the LEA’s Special Programs roster. For exit code guidance regarding Special Programs Roster refer to [Appendix A: Full Reference](#).

Nonpublic Student Transfer Guidance

Student enrollment and transfers must be captured using the appropriate entry and exit codes. When a student transfers to a nonpublic institution, the student must be withdrawn using an appropriate exit code and re-enrolled using an appropriate entry code. The practice of just changing the specific school code assigned to a student to reflect enrollment in a nonpublic school is not advised to accurately tracking student enrollment and movement.

When a student transfers from public and public charter schools in the District to a nonpublic institution, the LEA remains responsible for the student and is obligated to retain an open slot at the school for the student in the event the student completes services at the nonpublic institution and wishes to continue his or her education at the sending school.

The student should first be withdrawn from the LEA using exit code 2040. The student should then be re-enrolled using entry code 1811. The “responsible school” is the LEA and the “attending school” is the receiving nonpublic.

Exit Management Guidance

What is Exit Management?

The Exit Management module in the [SLED](#) provides real-time notification to LEAs of discrepancies within a student’s stage 5 enrollment record between the LEA’s SIS and enrollment data maintained by OSSE. It facilitates accurate and reliable enrollment data and help derive enrollment counts, monitors student movement and contributes to the development of education strategy and policy throughout all the public schools and public charter schools in the District of Columbia. For the complete Exit Management guide. See the [Exit Management Guide](#) for more information.

Prior Year Exit Management Guidance

What is Prior Year Exit Management?

The Prior Year Exit (PYE) Management module in [SLED](#) facilitates the process for LEAs to update students' stage 5 exit codes for previous school years to ensure all enrollments have an assigned exit code. The enrollment records for all students are listed for the previously completed school year (i.e. in the 2021-22 school year, the previously completed school year is 2020-21). Enrollment records for students from previous school years are listed for diploma granting LEAs and SWDs remaining on the LEA's Special Programs roster. Documentation for SWDs must be in PYE and Special Programs for a student to be administratively removed from the LEAs Special Programs roster. See the [Prior Year Exit Guide](#) for more information.

Adjusted Cohort Graduation Rate Guidance

What is the ACGR?

On Oct. 29, 2008, the U.S. Department of Education finalized rulemaking that established a uniform graduation rate calculation required for all states.

Cohort graduation rates improve DC's understanding of the students who do, and do not, earn a regular high school diploma within four years, and those students who take more than four years to earn a regular diploma. Further, cohort rates more clearly describe the variety of paths taken by students who do not earn regular diplomas.

Pursuant to federal regulations, the term four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for that graduating class.

The [District of Columbia Adjusted Cohort Graduation Rate Guidance](#) provides guiding principles for the determination of an ACGR supporting documentation requirements for use of exit codes.

Youth Dropout Guidance

This section describes the impact of an exit code on the student's "disengaged youth" status. OSSE has obligations both to the federal government and its stakeholders to ascertain the status of all youth who have enrolled in District of Columbia public or public charter school. The ability of LEAs to provide accurate exit codes for all students is imperative to informing these obligations and ensuring that youth are receiving the educational services they need to be successful in life.

Federal Reporting of "Dropout" using OSSE Exit Codes

Per federal guidelines, OSSE is mandated to report the number of youth in grades 7 through 12 who "drop out" of school in a given year (event dropout rate).
