### Participation Criteria

The following questions should be answered by a designee student’s IEP team. **A response of “No” for any question indicates that the student is not eligible for the DC CAS-Alt. For any question where “Yes” is selected, there must be specific evidence documented in the student IEP directly related to the question.**

Students who do not meet the criteria below and/or do not have the specific documentation required in the IEP will participate in the DC CAS with or without accommodations, as appropriate, based on his/her IEP.

The criteria below characterize a student’s current educational situation. All answers should be based upon clear documentation in the student’s IEP.	YES	NO
1. Does the student have a current IEP?		
2. Does the student have a documented significant cognitive disability that specifies goals and objectives in the IEP?		
3. Does the student’s curriculum differ significantly from that of their nondisabled peers?		
4. Does the student require explicit and ongoing instruction in functional skills? An evaluation of the instruction in functional skills requires a holistic view of the child including whether the child receives instruction in communication, self care, home living, social and interpersonal skills, use of community resources, self direction, functional academic skills, work, leisure, and health and safety. The student’s IEP and course of study must reflect such need and curriculum.?		
5. Does the student require extensive and substantial modifications (e.g. reduced complexity of objectives and learning materials) of general education curriculum? This means the student learns different objectives, may use different materials, and may participate in different learning activities.		
6. Does the student require extensive support to perform and participate meaningfully and productively in daily activities in school, home, community, and work environments?		
7. Is the student unable to participate in the DC CAS, either with or without accommodations?
