Introduction

The Office of the State Superintendent of Education (OSSE) is responsible for reviewing the credentials and qualifications of applicants seeking teacher, administrator, or school service provider certification in the District of Columbia. OSSE’s Division of Elementary, Secondary, and Specialized Education is responsible for overseeing procedures and protocols that govern licensure application submission and ensure responsive service to applicants.

The Educator Credential Information System (ECIS) is an electronic educator licensure application portal designed in an effort to provide those seeking authorization to serve as a teacher, administrator, or school service provider with a user-friendly, web-based format for submitting applications for a DC credential. Through ECIS, applicants will be able to enter personal and demographic information, upload supporting documents, and pay for application processing fees electronically using a credit card.

If, at any time during the registration process, you experience technical challenges or issues, please contact the ECIS Help Center at OSSE.ECIS@dc.gov. If you have questions about policies or procedures related to educator credentialing and certification, please contact the Educator Credentials Team at (202) 741-5881 or through email at osse.asklicensure@dc.gov.

4. Once you have entered all of the required information, review your entries and click the “Save” button. You will receive a notification via email acknowledging receipt of your registration request.

5. Your initial registration information will be submitted to a representative to review and finalize your registration. Once your request has been assigned to a representative, you will receive a second email notification informing you that the request is under review.

6. Once your registration has been approved, you will receive a final email notification which confirms approval and provides a link to the online application portal login area.
