Introduction

The District of Columbia Office of the State Superintendent of Education (OSSE) grants an educator preparation provider (EPP) state approval after examining the quality of the provider and programs preparing teachers, service providers, and administrators for District of Columbia pre-K through grade 12 schools; and determining that the programs meet state standards for preparing candidates to enter the profession. State approval is required for programs in the District of Columbia offering professional preparation programs that lead to state (District of Columbia) teacher, service provider, and school administrator licensure.

The state EPP and subject area program approval system is designed to ensure a steady flow of high-quality candidates for roles as teachers, administrators, and other school personnel in District of Columbia schools by allowing multiple routes for educator preparation. The District of Columbia's system for state approval of EPPs and subject area programs insists on high standards and selectivity for teacher, administrator, and other school personnel candidates.

This directory is a comprehensive list of all EPPs and subject area programs that are approved by OSSE to recommend candidates for District of Columbia educator licensure. *This EPP directory shows only the subject area programs that lead to eligibility for an OSSE educator credential. Please see each EPP's website for information on **all** education degrees and subject area programs it offers.*

For more detailed information regarding admission requirements into any of the following EPPs or subject area programs, contact the specific EPP directly.
