

# Allergy Awareness Week Drawing Contest

---

Food allergies is a growing concern that impacts 6 million children in the United States! Food allergies are serious and potentially life-threatening if not treated in a timely manner. Food allergies can also limit day-to-day activities and decrease quality of life.

The Allergy Awareness Week Drawing Contest provides an opportunity for students to enhance knowledge around food allergies and demonstrate academic excellence while being rewarded for it!

## How to Enter:

**#1**

Choose an allergen

**#2**

Draw your allergen. Give it some character!

**#3**

What's your story? Tell us why this allergen is important to you

**#4**

Submit to [OSSE.Epi@dc.gov](mailto:OSSE.Epi@dc.gov) by 11:59 p.m. May 18, 2018

## Congratulations !
