Writing Scale Scores at Selected Percentiles

	Scale Score Distribution					
	25 th	50 th	75 th			
	Percentile	Percentile	Percentile			
District of Columbia	113↓	134↓	157↓			
Nation (Public)	128	153	178			

An examination of scores at different percentiles on the 0-300 NAEP writing scale at each grade indicates how well students at lower, middle, and higher levels of the distribution performed. For example, the data above shows that 75 percent of students in public schools nationally scored below 178, while 75 percent of students in District of Columbia scored below 157.

- --- Reporting standards not met; sample size insufficient to permit a reliable estimate.
- * Significantly different from District of Columbia.

 ↑ Significantly higher than, ↓ lower than appropriate subgroup in the nation (public).
- ¹ Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance.

² "Jurisdictions" includes participating states and other jurisdictions (such as Guam or the District of Columbia).

NOTE: Detail may not sum to totals because of rounding. Score gaps are calculated based on differences between unrounded average scale scores
