FY16: Weighted “Stick Rates” (averaged over FY16Q3 and FY16Q4)

	6 Months ⁶	12 Months
Active⁷ and Inactive⁸ Clients	66%	62%
Active Clients Only	73%	65%

¹ FY16 is Oct. 1, 2015 through Sept. 30, 2016.

² Oct. 20, 2014.

³ Short intakes can be completed via phone, email, referral, or walk-in. This includes all youth for whom we have completed the full intake process and those youth still undergoing the intake process.

⁴ The full intake includes an interview, which identifies barriers to enrollment and retention; a staff review of clients’ past academic history; and student completion of the ECASAS assessment to determine literacy and numeracy levels.

⁵ These youth have been enrolled for the first time since completing a full intake.

⁶ The “stick rate” captures the “impact” of the ReEngagement Center on students over time, at six and 12 months and is calculated once per quarter. The calculation is averaged across quarters using a weighted average, which controls for variation in the number of youth in each quarter’s “cohort.” The six month stick rate, for example, describes the fraction of youth who, six months after enrolling for the first time since coming to the ReEngagement Center, were still enrolled or had earned a credential. Youth are included in this calculation if their 180th day since being first enrolled occurs in the quarter during which the rate is calculated. This captures the “impact” of the ReEngagement Center on students over time, at six and 12 months. This calculation, referred to as the “stick rate,” is calculated once per quarter. The calculation is averaged across quarters using a weighted average, which controls for variation in the number of youth in each “cohort.”

⁷ “Active clients” are those clients who have a successful check in with their assigned ReEngagement Center Specialist at least once per month.

⁸ “Inactive clients” are those clients who: have invalid contact information, have refused services, have not made successful contact with their assigned ReEngagement Center Specialist in 90 days, have moved out of state, are incarcerated, deceased, or have earned a secondary credential.

Virtual Platform Update:

The ReEngagement Center is also in the process of publishing a “Virtual ReEngagement Center,” functioning as an alternative “front door” for opportunity youth to reconnect to the ReEngagement Center and secondary credentialing programs. This model is borrowed from Colorado’s “Drop in Colorado” virtual platform and strategy. The public, ReEngagement Center specialists, schools, and youth-serving agencies will be able to easily access up-to-date information on educational programs through this centralized online tool. Schools, community-based organizations, faith-based organizations, members of Raise DC’s Disconnected Youth Change Network, and other ReEngagement Center partners will update information on a regular basis. Additionally, as ReEngagement Center Specialists conduct site visits to partnering organizations, they will update information on the virtual platform. The site should be live the first week of October, and can be found at backontrackdc.org, backontrackdc.com, or backontrackdc.osse.dc.gov. The ReEngagement Center also includes information on programs that have not signed the benefits and responsibilities document or identified staff. However, in these cases, program pages are flagged as “not verified by school or program.”
