Section 1: General Information

1.1 Introduction

Overview of the SOAR Act

The Scholarships for Opportunity and Results (SOAR) Act, Pub. L. 112-10, 125 Stat. 199, is a federal law that authorizes funding for District of Columbia (DC) public charter schools “to improve and expand quality public charter schools in the District of Columbia.” § 3004(b)(2). Each year, OSSE’s Office of Public Charter School Financing and Support (OPCSFS) submits an application to the US Department of Education (ED) describing how it will administer the funds. Evidence of public consultation is a required component of the application process and OPCFS sought stakeholder feedback during the summer of 2014 prior to submitting the FFY2014 application to ED on August 22, 2014. ED approved the application and issued a Grant Award Notice (GAN) to OSSE on March 31, 2015.

Charter Sector SOAR Funding

Through the approved application and grant award, OSSE provides SOAR funding to public charter schools through five (5) grant programs and a public facilities direct loan/credit enhancement fund. The Notice of Funding Availability (NOFA) for the following grant programs was published in the D.C. Register on Friday, April 17, 2015:

Project Name	Budget (Approx.)	Type of Grant
1. Academic Quality Grants	\$5,281,906.80	Competitive
2. Grants to Support Early Childhood Education	\$785,093.20	Formula
3. Quality Grants to Third Party/Charter Support Organizations	\$2,500,000	Competitive
4. Grants for Public Facilities	\$3,871,790	Competitive
5. Grants for Replication & Growth	\$1,000,000	Competitive

1.2 Purpose of Funds

OSSE's administration of SOAR Act funding is designed to increase student achievement and academic growth of DC public charter school students by supporting the creation and expansion of high-quality public charter schools. In order to accomplish this goal, OSSE established two impact areas for this grant cycle, in consultation with stakeholders:

- Innovative funding to improve school performance and educational outcomes; and
- Effective facility financing and funding to increase the number of high-quality public charter school seats.

Through this RFA, OPCSFS is soliciting proposals from eligible District of Columbia public charter schools for the following grant program:

- **Public Facilities Grants**
 - Funds awarded through this competition will support the renovation or reconstruction of former District of Columbia Public Schools (DCPS) or other District-owned facilities released by the District for lease by public charter schools.

1.3 Source of Funding

The United States Department of Education, through the DC School Choice Incentive Program, 84.370C, Public Law 108-199, III, DC School Incentive Act of 2003; Scholarships for Opportunity and Results Act, effective April 15, 2011 (Pub. L. 112-10; 125 Stat. 201). Federal Award Identification Number (FAIN) U370C140001.

1.4 Requirements of Funding

In addition to the requirements of this RFA, the assurances made in the submitted application, and the terms of the Grant Award Notice (GAN) issued by OSSE to the subgrantee, a key condition for receiving these funds is compliance with activities necessary to carry out a mandated evaluation of the Opportunity Scholarship Program (OSP), as specified in Section 3011(a)(1) of the SOAR Act. Pursuant to this section, the

U.S. Department of Education's Institute of Education Sciences (IES) is required to evaluate annually the performance of students who applied to the OSP (Sec. 3009). Because some OSP applicants will be enrolled in public charter schools, it will be necessary for IES and its evaluation contractor to collect data on and from public charter school campuses once each school year during the applicable grant period. Please be advised that noncompliance of the charter school with the terms and conditions stated in the SOAR Act GAN may result in the withholding of further federal grant funds administered by OSSE. All awardees must also comply with The Davis-Bacon and Related Acts (40 U.S.C. 3141 *et seq.*).

1.5 Funds Available and Funding Period

At least \$3,871,790 is available for awards through this RFA. OSSE will provide up to \$750,000 per award. Awards are limited to one per LEA. The duration of the Public Facility Project grant is for a period of two (2) years from the grant award date.

1.6 Eligibility

An eligible applicant meets all of the following criteria:

- Must be a DC Public Charter School; and
- Must provide site control evidence of the former District-owned facility within 180 days of award. If site control evidence is not provided, the grant award will be terminated in full and the LEA must return any expended funds. Site control evidence may include executed leases or purchase agreements.

1.7 Permissible Use of Funds

The funds associated with this RFA are available strictly on a reimbursement basis and may only be used for allowable grant project expenditures during the grant period as follows:

- All costs must:
 - Meet requirements of permissible use of Federal Funds within EDGAR 34 CFR Part 75, Part 76 and Part 80 and applicable OMB Circulars, including 2 CFR Part 200;

- Align with and support the principles outlined in the DC's Request for Elementary and Secondary Education Act Flexibility Waiver submitted to the U.S. Department of Education (ED) on March 31, 2015, *available here*: <http://osse.dc.gov/sites/default/files/dc/sites/osse/publication/attachments/DC%20ESEA%20Flexibility%20Renewal%20Application%20Redline%20Version%2003%2031%202015.pdf>; and
- Support renovations and reconstruction, both soft and hard costs, which may include exterior reconstruction, interior reconstruction, upgrades to systems, and the creation of new or improved academic and/or physical fitness space.

Please note: Funds may only be used for site described in the original application. If the LEA does not obtain control of the identified site, the grant award will be terminated in and the LEA must return any expended funds.

All grant project budgets will be reviewed by a peer review panel, as well as OPCSFS staff, to ensure that planned expenditures are allowable and are appropriate, reasonable, and necessary to support the grant objectives and requirements. Additional guidance about standards for determining costs for federal grants is available from The Federal Register at: <https://www.federalregister.gov/articles/2013/12/26/2013-30465/uniform-administrative-requirements-cost-principles-and-audit-requirements-for-federal-awards>
