OSSE Mission

To remove barriers and create pathways for District residents to receive a great education and prepare them for success in college, careers, and life.
Introduction to the SUMMER FY 2016 Course Catalog

Thank you for your interest in professional development courses offered by the Office of the State Superintendent of Education, its partners and contractors, as well as the community of OSSE-Certified trainers. We look forward to providing responsive training opportunities that support your work creating high-quality learning experiences for children of all ages.

OSSE-sponsored offerings for FY 2016 are data driven and/or research based. Trainings are selected and prioritized based on a variety of data sources including, but not limited to: community requests and workgroups; analysis of program assessment data; student achievement data from federal, state, and District sources; Education Service Monitor program reports; licensing inspection reports; the DC Common Core Early Learning Standards; and DC Municipal Regulations 29 Chapter 3.

The Early Learning Course Catalog was developed to provide the early childhood education (ECE) and Out-of-School Time (OST) workforces with multiple opportunities for professional growth and development; opportunities for meeting the yearly continuing education requirements; and opportunities to participate in a District-wide professional learning community.

The offerings in this issue of the catalog were selected in response to an analysis of the Classroom Assessment Scoring System (CLASS) and the Environmental Rating Scales (ERS) for infant, toddler, and preschool classrooms as well as family child care homes. Analysis of the assessment data revealed the need for professional development in the areas of: Personal Care and Safety Routines, Provisions for Space and Furnishings, Developmental Activities, and Instructional Support.

POLICIES AND PROCEDURES:

OSSE-sponsored trainings are offered at no cost to participants. In order to continue providing these dynamic resources for free, we ask that each participant who registers for an OSSE-sponsored training adhere to the following conditions:

• Plan to arrive at least 5-10 minutes before the training is scheduled to begin.

• If you are unable to attend training you’ve registered for, please email Diane.Mason@dc.gov at least 48 hours in advance so that your ticket can be used for another participant (no phone calls).

• If arriving late, please note that trainers reserve the right to deny entrance after a 10-minute grace period.

• If arriving late, any certificate issued will reflect your actual professional learning units/clock hours earned and may be sent via e-mail based on trainer preference.

• If arriving late due to an unforeseen emergency, please call (202) 727-6436 to alert the OSSE front desk staff.

FREQUENTLY ASKED QUESTIONS

Where is 810 1st Street NE?

OSSE is located at 810 First St NE, three blocks behind Union Station. When exiting the station, turn toward the right and walk away from Massachusetts Avenue. Continue down First Street until you see the sign labeled 810. We are located in the same building as the DC Water and Sewer Authority.

What is the Closest Metro Station to OSSE?

The closest Metro Station is the Union Station Metro (Red Line).

Is there parking at 810 1st Street NE?

Yes. There are a number of parking garages near 810 First Street NE. The prices range from $15 to $25 dollars. There is also limited 2-hour on street parking. Please note: We recommend taking the Metro or car pool. It generally takes 15 minutes to find a parking spot and get to the training location. Please plan accordingly.

Do I need an ID to attend training?

Yes. In order to enter the building you will need to show an identification card to sign in with the guard. There is a 100% ID Check policy to enter the building.

What happens if I am late to an OSSE-sponsored training?

If arriving late due to an unforeseen emergency (Metro, Police, Fire, Lost, etc.) please call (202) 727-6436 to alert the OSSE front desk staff. Trainers reserve the right to deny entrance after a 10-minute grace period. Any certificate issued will reflect your actual professional learning units/clock hours earned and may be sent via e-mail based on trainer preference.
If you have any questions, comments or concerns, feel free to contact the Early Learning Professional Development Unit via e-mail.

Addressing the Impact of Parental Incarceration on Children, Families, Schools, and Communities, from the Cradle to Prison, Poverty, and Homelessness-The Hidden Crisis of DC

**Units/Clock Hours:** 3 Professional Learning Units

**Description:** Whether mothers or fathers, brothers or sisters, the hidden cost of incarceration on families is enormous. Increased risk of poverty, possible homelessness, emotional or physical trauma are just some of the issues families can face. Young children are the most vulnerable. The early childhood education community is uniquely placed to help families meet these challenges by beginning a journey towards preserving and strengthening positive family connections throughout this difficult ordeal. Come and learn classroom strategies to help DC’s children and families cope with the incarceration of a loved one. In addition, attendees will also learn about and receive a copy of Sesame Street’s Little Children, Big Challenges: Incarceration Tool Kit.

We all want every child in our city to grow up in safe and healthy families. Yet the tragic fact is that thousands of our young people fall victim to abuse and neglect each year.

You can help. Your work gives you regular access to many children and youth and an opportunity to play a critical role in protecting them. Mandated reporters are professionals obligated by law to report known or suspected incidents of child abuse and neglect. As a mandated reporter, you are part of the citywide safety net that provides life-saving interventions for vulnerable children and youth in our community.

This website provides the information you need to recognize the signs of abuse and neglect and how to make a report. Thank you for taking time to work through this important training and for your invaluable partnership in looking out for the District’s children and youth.

https://dc.mandatedreporter.org/pages/Welcome.action
This online course, developed and provided by FEMA, covers the steps to help childcare providers prepare for incidents to ensure the safety of the children at their site. Childcare providers must have plans and procedures to keep children safe from everyday hazards and to respond and recover when an emergency happens.

The goal of this course is to provide childcare providers, of all sizes and with responsibility for children of all ages, with the knowledge and tools to analyze the hazards and threats at the site, to develop a plan to address these hazards and threats, and to implement processes to update and practice the emergency plan.

The topics addressed in this course include:

- Knowing your hazards.
- Developing a plan.
- Testing and updating your plan

This course culminates in a two-hour training certificate.

MULTIHAZARD PLANNING FOR CHILDCARE
Every day you see them reach milestones. There are free resources to help you spot a few more.

You spend your day working with, playing with, and watching children, and you are already familiar with many milestones — such as pointing at objects, smiling, and playing with others — that mark a child’s development. All children are unique, but sooner or later, you will see a child who is not developing as they should. Free information on developmental milestones from 2 months to five years is available for child care providers and preschool teachers.

For FREE materials, visit www.cdc.gov/ActEarly or call 1-800-CDC-INFO.

OSSE-Certified Trainer Resource Guide

The trainers listed beyond this point are Fee-for-service professional development providers.
FREQUENTLY ASKED QUESTIONS:

1. Why are Approved Trainers Important?

Research shows that early childhood professionals with specialized training AND higher education/professional credentials are more likely to create quality experiences for young children and their families. All staff in early childhood programs must provide evidence that they are receiving specialized training via continuing education and professional development activities. Continuing education requirements may vary depending on the type of program (subsidized child care, Head Start, publicly funded Pre-k, etc).

Office of the State Superintendent of Education (OSSE) approves competent individuals and organizations to train early childhood professionals. Trainers are selected based on their education and experience in the field. Only trainings delivered by OSSE approved trainers, accredited colleges/universities or other OSSE approved sources are acceptable.

2. What Counts as Continuing Education?

Professional Development Training/Clock Hours: At minimum, training participants should receive Professional Development Training Hours for the total length of the training. This is commonly referred to as “clock hours”.

Continuing Education Units (CEUs): A CEU is participation in a recognized continuing education program. Some colleges, universities, and OSSE certified training organizations can award CEU’s.

1 CEU = 10 Professional Development Training/Clock Hours. See question 3 for additional guidelines.

Academic Credit Hours: Colleges and universities award academic credit hours after a course of studies has been successfully completed. 1 academic credit = 15 Professional Development Training/Clock Hours. Most college courses are 3 academic credit hours. See question 3 for additional guidelines.

3. Are there additional guidelines or recommendations?

If seeking CEU’s, OSSE certified training organizations authorized by the International Association for Continuing Education & Training (IACET) or colleges/universities accredited by regional accrediting bodies, National Association for the Education of Young Children (NAEYC) or National Council for Accreditation of Teacher Education (NCATE) are highly recommended.

If seeking Academic Credit Hours, colleges/universities accredited by regional accrediting bodies, National Association for the Education of Young Children (NAEYC) or National Council for Accreditation of Teacher Education (NCATE) are highly recommended.

4. How do I Select an Approved Trainer?

a) Determine Your Training Needs - Core Knowledge Areas and Content Level

   Core Knowledge Area:
   The Core Knowledge Areas detail the specific knowledge and skills needed by early childhood professionals to work effectively with all young children and families. Use classroom assessments, staff evaluations, and other data about your program to determine the core knowledge area that you or your staff needs more support with.

Training Content Level:
What level of training are you seeking?

- Basic Content Level: The audience is somewhat new to the concept and needs to learn or relearn the basics.
- Intermediate Content Level: The audience understands the basics but needs to apply what is learned.
- Advanced Content Level: The audience understands the basics, has already applied the concepts, but needs to understand how to evaluate and synthesize the effectiveness of implementation.

b) Identify and Contact the Trainer(s)

Make sure that the trainer you selected is certified to train in the core knowledge area and at the level you are seeking. The trainer must have a current (not expired) certification. This list will be revised periodically. Please contact us to confirm that you have the most recent listing. Their name and certification number must be listed on the training certificate. **OSSE is not responsible for arrangements made with outside trainers and cannot guarantee the quality of services provided by these trainers.**

c) Apply Concepts Learned

Continuing education is more than “getting clock hours”. The topics and content level should be intentionally selected. The concepts learned should be used to provide quality experiences for young children and their families.

d) Reflect on & Evaluate the Impact

Did the training have an impact? What were the challenges of implementation? Identify the next steps. Quality is a continuous improvement and reflection process.

5. What is the Function of the Office of the State Superintendent of Education?

The Office of the State Superintendent of Education (OSSE) provides leadership and coordination to ensure all District of Columbia children from birth to kindergarten entrance have access to high quality early childhood development programs.

OSSE works to develop an effective early childhood education system by

- implementing high standards for programs and professionals
- creating supports to meet standards
- adhering to rigorous accountability measures
- engaging community stakeholders
- securing strong financial supports

- I have a copy of the most current listing of certified trainers.

- The trainer is certified to train in the area and at the level I am seeking.

- The trainer has a current (not expired) certification.
  The trainer’s name and certification number will be on the certificate issued.

- Training participants know that the concepts learned must be applied. Support and monitoring will be provided as needed.

- After the training & application, training participants will reflect and evaluate the impact.
