

## **BUILDING USE AGREEMENT**

(5A DCMR, Chapter 1, 103.5 (g) and 104.5 (e))

The building use agreement is required for an application for a license. A facility would need a building use agreement in place to use a contingency location. A contingency location is a location that a facility would use for an extended period of time (i.e., 30 days) to continue to provide care while their primary location is not usable – (Section 107.2).

Applicants who fail to provide a building use agreement acknowledge that they will not be able to continue services if their licensed location is not usable which would *lead to a suspended or revoked license*.
