** USDA Meal Waivers

Non-congregate Feeding: Allows for consumption of meals off-site and outside of group settings. Grab and go and meal delivery methods are allowed.

Meal Service Time: Provides flexibility for serving times. Allows for serving multiple meals at one time including multiple days' worth of meals. The combination of the non-congregate feeding waiver and the meal service time waiver allows for bulk items to be served.

Parent/Guardian Meal Pick up: Allows for distributing meals to parents/guardians without a participant being present.

Meal Pattern Flexibility: With OSSE approval, allows providers to claim for reimbursement even if a meal does not meet all meal pattern requirements or include all meal components. Waivers granted on a case-by-case basis. Note: This waiver version includes less flexibilities than the original version released in 2020.
