

Office of Enrollment and Residency (OER) LEA Guide: *Accepting DC Financial Benefit Documentation*

It is the responsibility of each school and local education agency (LEA) to collect valid documentation to verify residency of students at the time of enrollment. There are several document types and methods enrolling persons can use to complete residency verification. For more information on the residency verification process, methods and documents, please review the [OER Handbook on the OSSE website](#).

The purpose of this document is to provide LEAs and schools with additional guidance on reviewing DC financial assistance documents¹. Valid DC financial assistance documents can come from several different DC Government agencies making it uniquely difficult for review and acceptance by enrolling school officials. Current guidance, as outlined in the OER Handbook (March 2024 version), is as follows:

Regulatory Requirement: Current official documentation of financial assistance received by the person seeking to enroll the student from the DC Government includes, but is not limited to, Temporary Assistance for Needy Families (TANF), Medicaid, Supplemental Security Income (SSI), housing assistance, or other governmental programs.

Additional Interpretative Guidance: The document must be issued to the enrolling person within the past 12 months and be current (not expired) at the time of the school official's review of residency documentation and date of school official signature on the DC Residency Verification (DCRV) form. The document must have the same name and address of the enrolling person as identified on the DCRV. Documentation can also include a snapshot received from the enrolling person or the payment of benefits. While some documents may not include a signature of the official, the agency's title or letterhead should be present on the document. Some documents are considered recertification letters, and these should not be considered if the period for recertification has passed. For example, if the family is enrolling for the 2024-25 school year, a letter recertifying for 2022 would not be valid.

Federal financial assistance programs, except SSI, do not qualify as valid supporting documentation unless facilitated by a DC Government agency such as the Department of Human Services (DHS) or DC Housing Authority (DCHA).

The following are examples, not a definitive list, of DC financial assistance documents and factors considered in determining validity. For the purposes of this guide, all documents are assumed to apply to the correct school year at the time of enrollment.

¹ Pursuant to 5A DCMR § 5002.5, even if documentation is completed using the following guidance below, if a school/LEA reasonably concludes that additional information is needed to verify the student's residency, further documentation can be requested from the enrolling person.
