I like the garden because there are a lot of plants and I like to watch the plants and flowers grow. I enjoy the garden club because I learn about plant cycles. I like when we made juice with some of the fruits we collected. I think the Stokes Garden is the best.

The Stokes garden is special because it is where we get our lunch. I also like the Zen garden and the flower beds. I like the garden because it is the reason of the Garden Club! I have learned many things in the Garden Club. We have fun activities as planting and cooking. I like going to the garden.
