Background/History of Grant
Washington, DC’s school system is comprised of both public schools and public charter schools serving thousands of students. Many of the students in DC are from low economic backgrounds, with a high number qualifying for free or reduced-price lunches through the National School Lunch Program. Many challenges can impact long-term outcomes for children in economically disadvantaged communities, including poor student achievement, truancy, and poor health and homelessness.

According to the Institute for Educational Leadership, in many urban areas, community schools have been an effective approach to ensure that students and their parents/caregivers have access to school and community programs and services that help them to achieve success in life. Through the establishment of community schools, the aim of the grant is to increase student achievement and address many of the challenges faced by economically disadvantaged communities.

Central Data/System for Award Management (SAM) Registration/Expiration
Central Data

- All applicants must also complete the central data application.
- The central data is designed to capture information that applies across multiple funding applications and other information for each LEA/CBO or other applicant throughout the fiscal year.
- Common assurances must be agreed to by any applicant that wishes to submit one or more funding applications within this fiscal year to OSSE.
- Such assurances are located within the central data so that each applicant need only complete these in one location, rather than in multiple applications during the year.
- Additional assurances that are specific to one program may also be required within their respective funding applications. Funding applications cannot be budgeted until central data is completed.
- If assistance is required to complete the central data information, please contact OSSE, Office of Grants Management and Compliance by email at osse.egmssupport@dc.gov.
System for Award Management (SAM)

As a part of the completion of the central data, applicants must register with the System for Award Management (SAM) via the [www.SAM.gov](http://www.SAM.gov) website. The SAM is an official website of the US government. There is no cost to use SAM. The SAM site allows applicants to:

- Register to do business with the US government
- Update or review your entity registration
- Check status of an entity registration
- Search for entity registration and exclusion records

**NOTE:** All non-Federal entities who create or update their registration in SAM.gov will no longer need to have an approved Administrator notarized letter on file before their registration is activated. All non-Federal entities still must mail the original, signed copy of the notarized letter to the Federal Service Desk. Please read the [FAQs](http://www.SAM.gov) to learn more about this process change. The notarized letter and all other documentation provided by SAM should be uploaded in central data, under the DUNS NUMBER tab in EGMS.

It is recommended that the central data, including SAM registration is completed first to avoid last minute technical issues and delays in grant application submission.
Prior to completing the CSII application, applicants seeking to work with a DC public school should review the following information:

For Attachment C, to obtain the Chancellor’s signature, please submit the following:
