State Early Childhood Development Coordinating Council (SECDCC)

Jan. 10, 2019

- I. Welcome and Introductions
- II. Legislative Update
- III. Early Learning Supply and Demand in the District of Columbia:Using Data to Identify Critical Gaps
- IV. Preschool Development Grant Birth to Five (PDG B-5) Funding Award
- V. Committee Reports
- VI. J.B. and M.K. Pritzker Family Foundation Funding Opportunity
- VII. Announcements
- VIII. Public Comment

- Discuss implications of the Early Learning Supply and Demand in the District of Columbia: Using Data to Identify Critical Gaps
- Share next steps for the Preschool Development Grant Birth to Five (PDG B-5) funding award
- Provide guidance on the J.B. and M.K. Pritzker Family Foundation funding opportunity

Jess Giles Deputy Committee Director, Committee on Education Councilmember At-Large David Grosso Chairperson, Committee on Education Jgiles@dccouncil.us (202) 724-7807

Early Learning Supply and Demand in the District of Columbia: Using Data to Identify Critical Gaps

January 10, 2019

Early Learning Supply and Demand in the District of Columbia:

Using Data to Identify Critical Gaps

Why We Conducted This Research Real Progress in D.C. But Some Lingering Questions

- Answer three critical questions:
 - How big is the gap between supply and demand of high-quality early learning seats for infants and toddlers?
 - Where are the greatest gaps, in terms of geography?
 - What investments are needed to make progress in this work?

- Highlight where future investments and interventions are needed
 - District partnering with Low Income Investment Fund (LIIF) on Access to Quality Child Care Expansion (AQCCE) investments
 - Foundation partnering with
 Reinvestment Fund on *Early Learning Quality Fund* (ELQF)
 investments

Why Measuring Supply and Demand is Difficult

Demand

- No complete dataset exists
- Must account for residents and commuters
- Insufficient data on parental preferences
- Don't want to "undercount" demand, so we use a "maximum demand scenario"

Supply

- No complete dataset exists
- Most data is on formal, licensed providers
- Limited data on age
- Limited data on informal care
- Limited data on affordability

D.C. Stakeholder Group Helped Guide Work Methods, Analysis and Findings Vetted by Local Experts

Estimating Demand

Resident Population of Infants and Toddlers (Children Ages 0 Up to 3)

27,157 infants and toddlers in the District

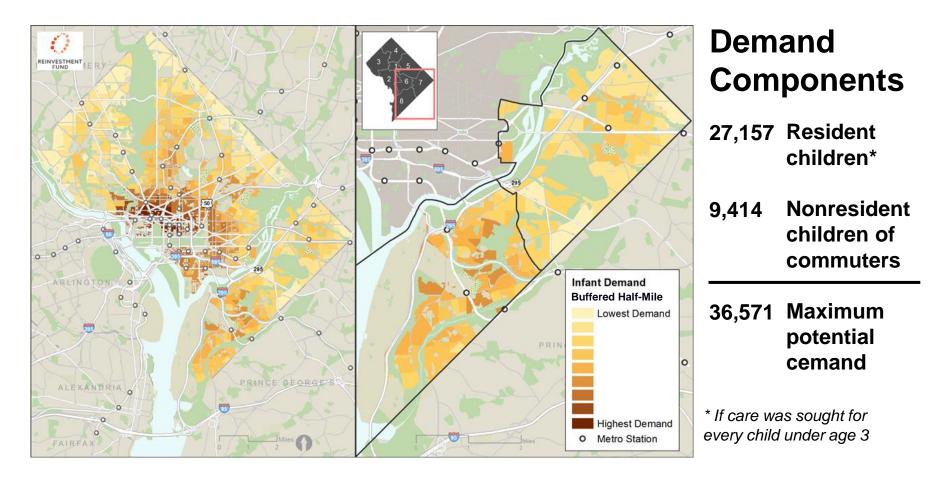

Demand Accounts for Where Children Live and Where Their Parents Work

Regional Commuting Patterns

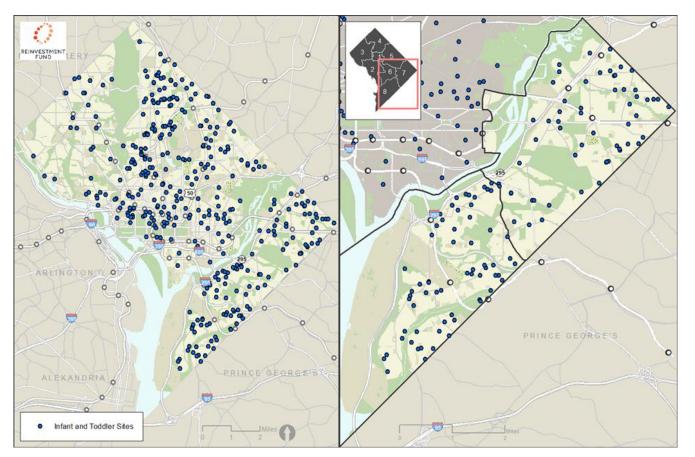

Estimated Demand for Infant and Toddler Early Learning

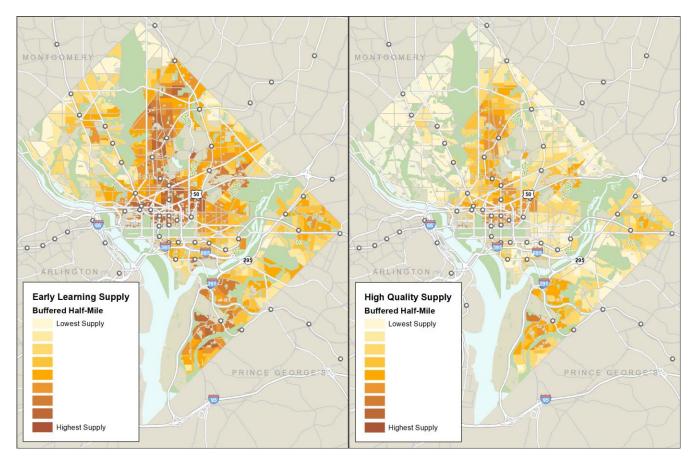

Estimating Supply

Location of D.C.'s 382 Providers Serving Infants and Toddlers

166 of 382 considered to be high quality

D.C. Has a Supply of 8,214 Infant and Toddler Seats, of Which 5,373 Are High-Quality Seats

Supply includes formal, regulated or licensed seats only

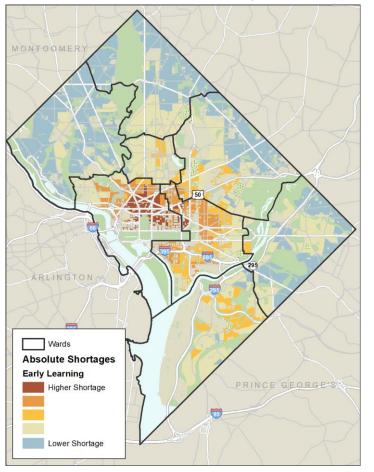

Calculating Shortages

Summary of Supply, Demand and Absolute Shortage, by Ward (Ages 0 to 3)

	All Supply	High-Quality Supply	Demand	Absolute Shortage	Absolute High- Quality Shortage
Ward 1	839	654	2,583	1,744	1,929
Ward 2	1,705	1,024	9,961	8,256	8,937
Ward 3	460	98	2,838	2,378	2,740
Ward 4	1,248	761	3,450	2,202	2,689
Ward 5	1,062	586	3,645	2,583	3,059
Ward 6	719	465	5,062	4,343	4,597
Ward 7	894	652	3,644	2,750	2,992
Ward 8	1,287	1,133	5,387	4,100	4,254
Citywide	8,214	5,373	36,571	28,357	31,198

Preschool
Development Grant
Birth to Five (PDG B-5)
Funding Award

- The Administration for Children and Families (ACF) at the Department of Health and Human Services (HHS), jointly with the Department of Education (ED) solicited applications from states and territories for the Preschool Development Grant Birth through Five (PDG B-5) Initiative.
- PDG B-5 is funding States to develop, update, or implement a strategic plan to facilitate collaboration and coordination among early childhood care and education (ECE) programs in a mixed delivery system to prepare low-income and disadvantaged children to transition into the local educational agency or elementary school.
- PDG B-5 is designed to support States in coordinating and aligning ECE programs, resources and services that already exist, improving program quality; facilitating better partnerships between programs and improving the transition from ECE programs into elementary school; increasing program operating and cost efficiencies; expanding parental choices and involvement; and ensuring families are linked to the full range of services they need.

- Vision: All children will have equitable access to high-quality opportunities to maximize their full potential for a successful quality of life in their communities
- Goal: Strengthen the District of Columbia's B-5 system of early childhood care and education to be more coordinated and comprehensive in its approach to improve outcomes for young children and their families
- **Target Populations:** Children experiencing homelessness, children with special needs, children in foster care, children in families with very low incomes

- The Grant award period is Dec. 31, 2018 Dec. 30, 2019.
- 45 states received awards ranging from \$538,000 and \$10,620,000.
- The District of Columbia (DC) applied for \$15,000,000.

✓ DC received \$10,620,000.

• DC is eligible to reapply for three additional years of funding.

Next Steps: B-5 Statewide Needs Assessment

Month	Action
1-2	Convene the Data, Needs Assessment and Insights Committee of the SECDCC.
1-2	The Needs Assessment Consultant will review all current federal and state needs assessments
	and synthesize data related to access, barriers, availability and quality of programs and services.
1-2	Analyze existing administrative data for pre-K, child care, Head Start, home visiting, Temporary
	Assistance for Needy Families (TANF), Medicaid and Women, Infants and Children (WIC) to
	understand the level of program participation, demographics, utilization, etc.
1-2	Conduct listening sessions with families through DC Public Library, Head Start and TANF partners
	to understand their lived experience in accessing programs and services and transitioning their
	child from an early care and education setting to an LEA.
1-2	Conduct focus groups with early childhood professionals across the mixed delivery system to
	understand their needs and challenges.
1-2	Conduct key informant interviews with Department leaders on opportunities and challenges for
	realizing cost efficiencies and streamlining of programs and services.
1-2	Inventory all "pilot" and "demonstration" projects that have been conducted in the B-5 mixed
	delivery system for evidence, impact and scalability.
2-3	Summarize the data/information collected and analyze the findings in the stakeholder meetings.
	Identify trends, visualize summary, create a final needs assessment report, use the report to
	inform the strategic planning process with key stakeholders and develop a plan to update the
	needs assessment regularly.
37	

- Data will be captured across a range of developmental domains, communications strategies and family engagement with District programs and services using a mixed-methods approach (i.e., using both quantitative and qualitative data)
- Methodological Approach
 - Quantitative Data:
 - Accessing a wide range of secondary data from a variety of sources
 - Systematically implementing District-created surveys
 - Qualitative Data:
 - Focus groups, listening sessions, structured interviews with District leaders

- During the next three months, OSSE and SECDCC will work in partnership to conduct the needs assessment, the results of which will inform the strategic plan
- What excites you most about this opportunity?
- Each of us must be engaged to successfully move this work forward
 - What do you need from OSSE to facilitate your engagement?
 Individually
 - Collectively
 - What clarifying questions do you have?
- What challenges do you see ahead?
 - How can we collectively navigate these challenges?

- Program Quality
- Data, Needs Assessment and Insights
- Early Intervention and Family Support
- Finance and Policy
- Health and Well-being

J.B. and M.K. Pritzker Family Foundation Funding Opportunity

Pritzger Children's Initiative (PCI): Prenatal – to – Age 3 State Grant Competition

PCI Policy Priorities

- PCI's approach is to support national, state and local policies and programs that:
- 1) Increase the number of families with children prenatal to age three who are connected to essential health, development and social emotional support services.
- 2) Increase the number of low-income infants and toddlers receiving affordable, high-quality child care.
- Working together, these programs and policies can help provide parents with the full range of supports they may need to create a strong foundation for healthy development and learning.

Grant Program Goals

- Expand high-quality services nationally to at least one million low-income families with children prenatal to age three by 2023.
- To achieve this goal, PCI is focusing on needed policy changes and investments in states and communities designed to expand high-quality services to low-income infants and toddlers and their families.
- Six month planning grant of \$100,000 to achieve the following deliverables (due Feb 15)
 - Establish/strengthen a coalition
 - Develop a detailed policy agenda (with TA and template provided)
 - Develop a detailed action plan (with TA and template provided)
- Opportunity to apply for a 3-year action grant of \$1-3 million (due Oct 15)

Washington DC application

- Led by Children's National and ECIN on behalf of the Bainum Family Foundation Birth-to-Three Policy Alliance
- Focus on Policy Priority 1 (Increase the number of families with children prenatal to age three who are connected to essential health, development and social emotional support services)
 - Perinatal mental health
 - Integrated SE, development and parenting supports in primary care
 - Integrated social emotional supports in early childhood education settings
 - Increasing linkages and collaboration between health and early childhood education systems
- Emphasis on equity and community engagement
- Intended to be complementary to and coordinated with existing efforts, including the Preschool Development Grant

Next steps

- Identifying core collaborative team members
 - Birth to Three Policy Alliance (confirmed)
 - SECDCC (requesting support)
 - Additional members, including community, family and philanthropy representation
- Grant writing team identified
- Letters of support
- Feedback and additional partnerships
